

Fishing Boats Carry Church's Blessing

Part of the gayly decorated fleet of 200 fishing schooners just before they left St. Malo, France, for a six-months' fishing voyage off the coast of Newfoundland. Previous to sailing they were blessed by Cardinal Choart in the presence of 20,000 people.

Elephant Breaks Up Hindu Prayer

Bombay.—Several persons were trampled upon and seriously injured recently when a young male elephant ran amuck for half an hour at Allahabad during the Kumbh Mela religious festival.

Two million pilgrims were packed along the wayside reciting prayers while a procession including nine elephants was returning from the river bank with all the customary pageants, bands, naked attendants, and the gold and silver palanquins borne on the shoulders of the men, generally associated with religious festivals here, when the young elephant, apparently peevish at the slow progress of the procession, made a sudden rush at a female elephant immediately in front and gored it savagely.

The suddenness of the attack resulted in the driver and passenger being flung off the attacked animal, which trumpeted shrilly with rage and pain. The crazed attacker then turned its attention to the other beasts, trumpeted, threw out its hind legs, and finally unseated its rider.

Moving in circles isn't the way to get ahead, even though you may move in the very best circles.

In the belief that an elephant can be subdued in even its wildest mood if a camel bites its ear, some venturesome spirits drove a camel toward the beast, which in consequence dashed off and plunged at great speed into the crowd, scattering them right and left. Panic immediately followed, and men, women and children screamed and fought madly in their efforts to escape from the path of the infuriated animal.

Luckily, the courage and resource of Captain Niblett, a magistrate, and Mr. Cole, a police officer, saved what would undoubtedly have been a much worse disaster.

Captain Niblett procured two tame elephants and set out to capture the escaped beast, which was now racing rapidly toward the river, while Cole galloped ahead on horseback, warning the crowd.

The huge four-footed pachyderm plunged pell-mell through an encampment of pilgrims by the river bank and crashed through a number of low huts constructed of thatch and bamboo, which gave way before the monster like match boxes. Inside almost every hut fires were left burning, and in consequence the wretched dwellings quickly became a series of blazing bonfires.

Captain Niblett chased the mad elephant over four miles of territory before finally coming to grips. Then followed a struggle between the three elephants which lasted some time before the raving monster was finally subdued and returned to his trembling attendant at Allahabad.

Report Another "Flying Dutchman"

Buenos Aires.—Another "mystery ship" of the seas, missing for 14 months, has again been sighted.

Thirteen months ago the Danish training ship Kobenhavn, which vanished mysteriously in December of 1923, appeared like a bedraggled wraith in the middle of the South Atlantic ocean, heading toward the polar seas of Antarctica.

This is the weird news brought here by Philip Lindsay, a British missionary, the first man to reach civilization from the Tristan da Cunha island group since January of 1929.

The Tristan da Cuhnas are in the South Atlantic, just north of the extreme limit of floating ice, and about midway between Buenos Aires and Cape Town.

According to Lindsay, the Kobenhavn, like a spectre, passed the Tristan da Cuhnas on January 21, 1929. Her mainmast was missing and her rigging was flying loose in the wind.

The only recognizable feature of the ship was her back hull, around which a white band had been painted.

When last heard of the Kobenhavn sailed from La Plata, Argentina, for

RAIN

By THOMAS ARKLE CLARK, Dean of Men, University of Illinois.

It is raining as I write this—a gentle rain that sinks into the ground and disappears as it falls. Nothing else is so restful as a rain; nothing so quieting to the nerves. I should not like to live in a place where it does not rain regularly. I have just been reading an article in praise of the climate of California.

"Picture to yourself," it says, "what a difference is made in your habits, your moods, your whole adjustment to life, when you know that for at least four months of the year—June to October—no rain will fall."

deeply into the lungs after a rain. I can work with more enthusiasm, with more concentration and with more energy during a rain. When the rain is falling outside it gives opportunity to finish the uncompleted task; to settle down to something that has been waiting for attention for days or weeks.

When I was a boy on the farm a rainy day was a period to be looked forward to. Before the hard work of farm life had fastened itself upon me, a rainy day was a play day. We cut all sorts of capers in the hay loft as the rain pattered down upon the roof above us; or we went fishing. It was thought that the fish would bite more ravenously upon a rainy day. It may have been, but anyway it was rare sport to sit upon the bank of the creek all huddled up and watch the corks on our fishing lines bobbing up and down.

I have always liked to read, and as I look back upon the years that have passed it seems to me that much of the reading that I have done since the time I was ten years old has been done while the rain was coming down outside and other tasks for the time being set aside.

No! I like sunshine and I take pleasure in clear weather, but I don't want to live where it doesn't rain. Absence of rain would take away half the pleasure of life.

If the Truth Were Always Told

Puts Filial Duty Before Career

Iola, Kan.—From a concert pianist with excellent prospects in Chicago, to operator of a drug store in a city of less than 10,000 population, is a long step, but a step which filial devotion prompted Lloyd N. Brown to take.

Five years ago Brown was an instructor in piano in a Chicago music institute. He had completed his study there and had been retained as an instructor. In addition to teaching, he filled concert engagements and on several occasions played with the Chicago Symphony orchestra.

His prospects were bright and it was predicted he would soon be one of the outstanding figures in the musical world.

Just as Brown was making the most forward strides toward fame he received word from home that his father, Dr. H. A. Brown, veteran physician and druggist here, had suffered a stroke of paralysis and that Lloyd, the only son, was sorely needed at home.

As he saw it, only one road was open for him. Before him was success in the musical world that he loved; not only success for himself, but for his wife, an accomplished violinist whom he met and married in Chicago.

He closed his piano, resigned his position with the college and forsook his career as a musician to hurry home to his parents and to enter the commercial

paratively strange profession of a druggist.

But his heart is not in the drug business. He intends some day to return to his music. He has a standing offer to return to Chicago as an instructor.

Restless Children

Children will fret, often for no apparent reason. But there's always one sure way to comfort a restless, fretful child. Castoria Harmless as the recipe on the wrapper; mild and bland as it tastes. But its gentle action soothes a youngster more surely than some powerful medicine that is meant for the stronger systems of adults.

That's the beauty of this special children's remedy! It may be given the tiniest infant—as often as there is any need. In cases of colic, diarrhoea, or similar disturbance, it is invaluable. But it has everyday uses all mothers should understand. A coated tongue calls for a few drops to ward off constipation; so does any suggestion of bad breath. Whenever children don't eat well, don't rest well, or have any little upset—this pure and all that's needed to set everything to rights. Genuine Castoria has Chas. H. Fletcher's signature on the wrapper. Doctors prescribe it.

Success Logic

Charles F. Riesner, successful movie director who fought his way from a poor boy's home to a mansion in Beverly Hills by his own efforts, declares that the man who says, "I will do it" owns 51 per cent of the stock in the project he is undertaking. But he cannot stop there and win success. He must organize his work and himself, be prepared to take an occasional loss and only using his voting power to keep himself at the task.—Arkansas Gazette.

Says Men Want Pals, Not Patients!

SHE was engaged! She was the happiest girl in the world. A round of teas and parties, a whirl of pleasure, and she began to wonder what was the matter. "Too tired to go out"—and he was he becoming tired of her?

It was at this point that Miss Margaret Belden of Los Angeles woke up to the fact that something had to be done about it. "Men want pals, not patients" she writes. "I went right to my doctor. Do you know what he said? 'Rest—and Nujol!'"

"With a prayer in my heart and Nujol in my medicine cabinet I began to fight back to being the healthy, robust, happy girl I had been before. Two months passed. No more tears—no more worrying, no more bad dreams. Today I beat him on the tennis court, and although he can out-swim me, I make him work doing it. It's good to be happy. It's good to be free, physically, and be able to share, any time, in sports or dancing or anything else with the one you love!"

Here's another one who has learned that the simplest and surest way to be well and full of good spirits is to clear the bodily poisons out of your system regularly. Not with powerful drugs, but normally, naturally, easily. Doctors and nurses recommend such a natural treatment as Nujol, because this crystal-clear liquid isn't a medicine at all! It can't harm even a little baby! It contains absolutely no drugs. It is simply internal lubrication that your body needs like any other machine.

Good looks and good spirits—do they go together? You know they do! Get a bottle of Nujol tonight in any drug store. Sold in sealed packages only—trademarked "Nujol." Insist on Nujol by name. It costs but a few cents—and it will make you feel like a million dollars.

DIPPING INTO SCIENCE

The Polar Spin

If people resided at, or on, the North and South poles, they would get much less of a "ride" each twenty-four hours than those at the equator.

A circle at the pole might be only a foot in circumference, while at the equator the earth is 25,000 miles in girth. As the whole earth revolves once daily, the polar resident gets the shorter ride.

Doctor's PRESCRIPTION when system is sluggish; costs nothing to try

When your bowels need help, the mildest thing that will do the work is always the sensible choice. Take a laxative that a family doctor has used for all sorts of cases of constipation. Dr. Caldwell's Syrup Pepsin is so pleasant to the taste, so gentle in its action, it is given children of tender age and yet it is just as thorough and effective as stronger preparations. Pure senna, and harmless laxative herbs; ingredients that soon start a gentle muscular action. Avoid a coated tongue, bad breath, bilious headaches, etc. Every drug store has Dr. Caldwell's famous prescription in big bottles. Or just write Dr. Caldwell's Syrup Pepsin, Monticello, Ill., for a free trial bottle.

Miss Marjorie White of the State department will be one of the United States representatives at the conference for the codification of international law at The Hague.
