

LEGAL NOTICES

SPECIAL SHERIFF'S SALES

By virtue of certain sundry writs of Fieri Facias issued out of the Court of Common Pleas of Cambria County to me directed there will be exposed to Public Sale at the

Court House, Ebensburg, Pa., Court Room No. Four ON SATURDAY, JUNE 21, 1930

at 10:00 A. M. Eastern Standard Time, the following described real estate, to-wit:

CONDITIONS OF SALE: The purchase money shall be paid at the time of sale or by Friday, June 27th, 1930, at 1 o'clock P. M., otherwise the property will again on Friday, June 27th, 1930, at 1 o'clock P. M. at the Court House in Ebensburg, be put up and sold at the expense and risk of the persons to whom it was struck off, who in case of any deficiency on such sale shall make good the same.

AL. FL. FA. NO. 2.

All the right, title and interest of Anna B. Somerville, Geo. B. Somerville, Brigham Coal Co., by Geo. B. Somerville, Trustee, of in and to a certain lot, with the buildings and improvements thereon erected situate in the 7th Ward of the City of Johnstown, Cambria County, Pa., bounded and described as follows: Beginning at a point on the southern side of Cedar Street, at the intersection of Cedar Street and Slick Alley; thence by the said side of Cedar Street on a course south 89 degrees 3 minutes 30 seconds West 64.77 feet to a point on line of land now or formerly of George B. Somerville; thence south 8 degrees 9 minutes 6 seconds West 110.5 feet to a point on corner of land now or formerly of George H. Brown; thence in an easterly direction by line of said land and parallel with Cedar Street, 35.5 feet to Slick Alley, aforesaid; thence by Slick Alley north 2 degrees 22 minutes 8 seconds East 110 feet to a point, the place of beginning. Having thereon erected a frame double 2 story dwelling house known as Nos. 406 and 408 Cedar Street. Being the same premises which Mary D. Stammers, widow by her deed dated Aug. 10, 1922, and recorded Aug. 18, 1922, in D. B. Vol. 357, page 85, conveyed to George B. Somerville.

Taken in execution at the suit of The Johnstown Trust Co., Johnstown, Pa.

Graham, Yost and Meyers, Attorneys for Plaintiff.

FL. FA. NO. 6.

All the right, title and interest of William J. Carnes and Haydee Carnes of, in and to all those certain lots or pieces of ground situate in the Eighth Ward of the City of Johnstown, County of Cambria and State of Pennsylvania, bounded and described as follows:

No. 1.—Beginning at a point on Custer Street at corner of Lots Nos. 20 and 21; thence along the line of Lot No. 21, 152.59 feet to a point on Wonder Street; thence along the line of Wonder Street, South 38 degrees 5 minutes East 60 feet to a point at corner of Lot No. 21 and Lot No. 22; thence along the line of Lot No. 22, 158.85 feet to a point on said Custer Street; thence along said street North 32 degrees 30 minutes West, 60 feet to a point, the place of beginning; being marked, known and numbered as Lot No. 21 on the Plan of Custer, Pea, thers and Deeds Plots as laid out by B. E. Dickey for Cambria Land & Improvement Company, Ltd. on June 3, 1912, which said plan is recorded in the Recorder's Office in and for the County of Cambria aforesaid in Plat Book Vol. 1, Page 163;

No. 2.—Beginning at a point on Custer Street at corner of Lot No. 21 and Lot No. 22; thence along the line of Lot No. 22, 73.85 feet to a corner of lot now or formerly of Mattie Launiz; thence along the line of lot now or formerly of Mattie Launiz 55 feet, more or less, to a point on line of lot No. 23; thence along the said last mentioned line 79.23 feet to a point on said Custer Street; thence along said Street North 32 degrees 30 minutes West, 55.26 feet to the place of beginning; being a part of the lot marked, known and numbered as Lot No. 22 on the Plan of Custer, Pea, thers and Deeds Plots hereinbefore mentioned in Parcel No. 1;

Being the same premises which the Lorain Steel Company, a corporation, by deed bearing date of January 9, 1925, and duly recorded, granted and conveyed unto William J. Carnes and Haydee Carnes, his wife, having erected on the parcel hereinbefore described as No. 1 a two-story seven-room frame dwelling house marked, known and designated as No. 254 Wonder Street;

EXCEPTING AND RESERVING out of the above described premises all the iron ore, coal and other minerals, together with the mining rights and privileges heretofore sold and conveyed.

Taken in execution at the suit of People's Building and Loan Association of Johnstown, Pennsylvania. J. Earl Ogle, Jr., Attorney for Plaintiff.

HOMER C. GEORGE Sheriff, Sheriff's Office, June 4, 1930.

SEALED BIDS:

Will be received up until 5 o'clock p. m., Saturday, June 14, for transportation of school children in comfortable, closed conveyance, from the Durbin to the Brown School in Clearfield Township for the 8 month school term of 1930-31.

The Board reserves the right to reject any or all bids. All envelopes should be plainly marked "Bids for transportation of children."

Clearfield Township School Board J. L. Carl, Secretary, Dysart, Pa.

GRAND JURY SCORES THE POOR DIRECTORS

Say They Have Not Exercised Sufficient Interest or Ability in Management.

The county poor board was severely scored for the miserable conditions prevailing at the county home in the report of the grand jury submitted to the court in the close of the grand jury session at Ebensburg last Friday.

"We fully recognize that the steward and stewardess are obtaining splendid results, without much co-operation on the part of the poor board and we further believe that the poor board has not exercised and manifested sufficient interest or ability in the management and maintenance of the county home properly."

Danger of Fire Seen

Following an inspection of the various county institutions, the grand jury suggested that the present fire apparatus at the county home is inadequate and that a night watchman should be employed to properly safeguard the property against fire breaking out at night. It also recommended that a change be made in the laundry system so that clothing and linen used by inmates affected by communicable diseases be cared for separately from that of other inmates and that care be exercised to prevent intermingling between male and female inmates.

Other Conditions Criticized

The investigating body also found that rain water was filtering through the roof into certain rooms and that the general system of ventilation at the institution should be remedied to provide a freer circulation of air. "The bakery windows should be screened in order to prevent flies coming in and making the place unsanitary," the report read, "and the bread room should be properly and adequately ventilated and the necessary bread racks installed; that the chairs should either be repaired or new ones purchased and that the kitchen should be furnished with steam equipment in order to provide for proper cooking."

Compliment Warden Kne

The grand jury also suggested to the warden that all milk served at the county institutions should first be pasteurized and that more fire extinguishers be installed at the children's home. The report also states that the grand jury finds the children's home should be repaired in side and out; that repairs be made to the plastering and that modern playground facilities and better play suits should be provided for the youngsters. Aside from these things, the grand jury reported commendations at the children's home as satisfactory. Warden E. H. Kne was complimented very highly upon the conditions which prevail at the county jail.

The grand jury also suggested to the court that the forthcoming trial of a series of abortion cases be held in closed session and not in open court.

Clearfield Legion To Again Stage A Big Fourth Celebration

This Event Has Gained State-wide Recognition for Its Magnitude.

Each year Clearfield John Lewis Shade Post No. 6 of the American Legion has put on a celebration that has gained state-wide recognition for its tremendous size and elaborateness. Thirty-five thousand people have traveled from all over the state to enjoy this gala event, and from headquarters the news that this year's program will surely dwarf any previous attempts by this splendid organization, already famous, nationally and internationally, for its Legion Band.

A famous feature of this celebration is a mammoth industrial parade, featuring dozens of costly floats. The Parade Committee plans this year call for a parade of such magnitude that it is bound to gain not only state-wide, but state-wide comment. Popular news reel photographers are already arranging to take pictures of it. This feature alone will draw thousands from all over the state.

The fireworks display will be an affair of splendor—new displays never before used in Pennsylvania will be shown. And so it goes—Polo matches, baseball rider shows, concessions, exhibitions, bands, drum corps, horse races, airplanes, dancing—and a Marquette sedan given away free—these are only a few items of this stupendous Legion undertaking.

Many men of national and international fame will speak in Clearfield on this date making it truly and in reality "Pennsylvania's Greatest Celebration."

FARM CATTLE IN STATE ARE VALUED AT \$186,984,000

Pennsylvania with a greater aggregate value of livestock on farms than the New England states, New Jersey and Delaware combined, ranks eleventh among all the states in total value of cattle, swine, sheep, horses and mules, according to the Bureau of Statistics, Pennsylvania Department of Agriculture.

The value of livestock on farms in the Commonwealth on January 1, 1930, was estimated at \$186,984,000 compared to \$180,182,000 on the corresponding date a year previous.

Pennsylvania is now one of the five greatest livestock states east of the Mississippi river, being surpassed only by Wisconsin, Illinois, New York and Ohio. In total value of dairy cattle this Commonwealth stands fifth among all the states, being outranked only by Wisconsin, New York, Minnesota and Iowa. In average value of dairy cattle per head, Pennsylvania exceeds all these states excepting New York.

The livestock is valued in Cambria County at 1,640,520.

Citizens Military Training Camps Becoming Popular

Our citizens' military training camps are each year becoming more popular with the young men of America. The present year brings the tenth anniversary of this patriotic institution which is constantly making better Americans of those who take the training. In an interesting story on the life in the training camps and the purpose of the training, Mr. Hancock Adams says in the current issue of the National Republican:

"Citizens' military camps celebrate this summer their tenth birthday. Patriotic Americans who answered the call of country in 1915, to drop their civilian clothes to go to Plattsburgh as one of two or three thousand civilian 'rookies' have turned over the torch to the young men who accept Uncle Sam's invitation for a month of citizenship training in these camps held from New England to California. Established soon after the World War as a feature of the plan for domestic security as laid down in the national defense act of 1920, these camps have now become a recognized American institution. Their value long ago has been demonstrated to the satisfaction of all except the pacifists and the non-patriots. They can look forward to a life as long as that of the American people and their institutions.

"The camps reach out into even the smallest communities of the land. The boy from the east or west side of New York finds as his tent mate the country youngster from the little hamlet up state a boy perhaps who has never seen the bright lights of a city. The well-to-do parents, on his way to one of the big eastern universities stands shoulder to shoulder with the boy who must go to work to earn his own livelihood at sixteen. Democracy is the keynote of the camps, democracy combined with citizenship and devotion to flag and country.

"The camps are what their name implies. The routine is that of out-of-door life, far away from school or business, or the distractions and turmoil of the city. Young Americans of all kinds are fond of camping; they inherit even today something of the spirit of the frontiersman, and the citizens' camps give them a taste of the simple country life and the breezes of the great outdoors.

"The camps are training camps, too. The education aim is never lost sight of by the army instructors who have charge of the military and athletic instruction of the boys. They offer something different from the ordinary vocation. Work is the rule, not idleness; but the duties are stimulating interesting and with a strong appeal to the patriotism and the public spirit that is in the breast of every red blooded American boy. Life is strenuous whether at work or play, but no American boy objects to this. The thousands of boys who attend the camps wait a vigorous, not a soft program. Yet it is not so vigorous a program as to take the strength of the average youngster.

"Year by year, public interest in the camps is increasing. Fathers and mothers are among the most enthusiastic supporters of the camps and the War Department has thousands of testimonials as to the value of the instruction from enthusiastic parents. Teachers and many clergymen consider the camps as a valuable adjunct to the school and the church and that is exactly the function which these camps fulfill. The heads of big business houses

often select their best employees for them, realizing that thirty days in camp makes the employee even more efficient.

"Congress was long ago 'sold' on the idea of the camps, and each year makes generous appropriations to enable the War Department to conduct this work in every part of the country. For the coming summer, 37,500 boys will receive training and eventually it is hoped to train each year 100,000."

HIGHER MATHEMATICS

To call off floor numbers in that proposed 105-story building in New York an elevator boy will have to be up in higher mathematics. — Miami Daily News.

BUT THIS IS DIFFERENT

The small boy who used to balk at the garden in the spring has grown up now to be a tired business man who can't walk more than 20 miles a day over the golf course.—Jackson Citizen Patriot.

SERVING MANY BUSINESSES Experience of large fleet owners reveals the unusual reliability and economy of the new Ford

A SIGNIFICANT TRIBUTE to the value of the new Ford is found in its increasing use by Federal, state and city governments and by large industrial companies which keep careful day-by-day cost records. In most instances, the Ford has been chosen only after exhaustive tests of every factor that contributes to good performance—speed, power, safety, comfort, low cost of operation and up-keep, reliability and long life.

Prominent among the companies using the Ford are the Associated Companies of the Bell System, Armour and Company, The Borden Company, Continental Baking Corporation, Firestone Tire and Rubber Company, General Electric Company, Goodyear Tire and Rubber Company, Kellogg Company, Knickerbocker Ice Company, Morton Salt Company, Pillsbury Flour Mills Company, The Procter and Gamble Company, and Swift & Company.

Each of these companies uses a large number of Ford cars and trucks. The Associated Companies of the Bell System use more than eight thousand.

Modern business moves at a fast pace and it needs the Ford. Daily, in countless ways and places, it helps to speed the production and delivery of the world's goods and extend the useful service of men and companies.

Constant, steady operation over many thousands of miles emphasizes the advantages of the sound design of the Ford car, its high quality of materials, and

unusual accuracy in manufacturing. Beneath its graceful lines and beautiful colors there is a high degree of mechanical excellence.

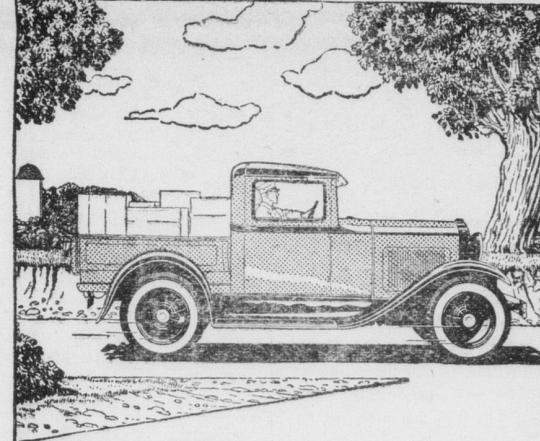

An example of the value built into the Ford is the use of more than twenty ball and roller bearings. They are hidden within the car and you may never see them. Yet they play an important part in satisfactory, economical performance. Their function is similar to the jewels of a fine watch.

Throughout the Ford chassis, a ball or roller bearing is used at every place where it is needed to reduce friction and wear and give smooth, reliable mechanical operation.

At many points, as on the transmission counter-shaft, clutch release, fan and pump shaft, and front drive shaft, these ball and roller bearings are used where less costly types of bearings might be considered adequate.

Additional instances of the high quality built into the Ford are the extensive use of steel forgings, fully enclosed four-wheel brakes, Rustless Steel, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, and the Triplex shatter-proof glass windshield.

The Ford policy has always been to use the best possible material for each part and then, through large production, give it to the public at low cost.

NEW LOW FORD PRICES

Table listing various Ford models and their prices, including Standard Coupe, Sport Coupe, De Luxe Coupe, Tudor Sedan, Three-window Fordor Sedan, De Luxe Sedan, Town Sedan, Cabriolet, Roadster, Phaeton, Pickup Closed Cab, Model A Chassis, Model AA Truck Chassis, Model AA Panel Delivery.

All prices f. o. b. Detroit, plus freight and delivery. Bumpers and spare tire extra at low cost.

Universal Credit Company plan of time payments offers another Ford economy.
