

MARTIN RETAINED AS PARTY CHAIRMAN

Defeats S. Van Brown As Head Of the Republican State Committee

General Edward Martin, of Washington county, was re-elected chairman of the Republican State Committee in the biennial meeting held last week, defeating S. Van Brown of Williamsport, by a vote of 77 to 37.

The election of a chairman settled the question of party control in the State for two years at least.

A battle that was regarded as close as the rival factional leaders counted

EDWARD MARTIN

on Friday night developed the balloting got under way before a crowd that packed every inch of the ballroom in the Bellevue-Stratford, where the meeting was held.

Tension that gripped the sweltering crowd was quickly relieved with the re-election of Martin.

The remainder of the programme agreed upon by the group in control was quickly ratified without any opposition.

Mrs. Sarah S. Etter, of Harrisburg, was elected vice chairman, succeeding Mrs. Gertrude Franz Stauffer, of Lancaster, who declined to be a candidate for another term.

Secretary of Finance Charles Johnson and Miss Nancy P. Highley both of Montgomery county, were re-elected secretary and assistant secretary, respectively.

Sheriff Thomas W. Cunningham, of Philadelphia, was re-elected treasurer.

Just as the meeting adjourned, General Martin announced the appointment of A. Boyd Hamilton, of Harrisburg for another term as assistant to the chairman. Hamilton is secretary of the State Senate.

Philadelphia with sixteen votes in the convention, and Allegheny, with twelve provided twenty-eight of the seventy-seven ballots cast for Martin and gave him easy sailing in the race.

CONCERNING PLAGUE OF OUR INDIFFERENCE

Dr. Appel Says Science Alone Cannot Fight the Ills That Beset Humankind.

"The newspaper have been carrying accounts of the plague of locusts which at the present time is infesting the land of Egypt. And there are two interesting facts connected with it. First, the world of nature is not given to high speed changes; and second, the resourcefulness of man, on the other hand, has developed an amazing ingenuity. It comes to pass that while there have been recurrent plagues of locusts in Egypt since Biblical days, present day methods of fighting them with barriers, ditches and gasoline are incomparably superior to the old offensive which was limited to prayers alone. And this situation may be logically compared to the human body," said Doctor Theodore B. Appel, Secretary of Health.

"Smallpox, diphtheria, typhoid fever and other contagious diseases, while still sporadically plaguing the human race, have been rendered much less dangerous, and in some instances practically impotent, by scientific counter-attacks. The rapid advance in bacteriological and medical science has seen to that.

"And while it is quite true that this happy situation obtains, it is also painfully a fact that a major plague still exists, against which science has as yet made insufficient headway. It is the plague of indifference.

"This modern age relying rightly but entirely too much, upon the laboratory to fight its battles, generates a foolish indigence to its own health welfare. This results in a near-criminal disregard of the laws of right living on the part of many people with the consequences being indicated in half-alive bodies the individual has more or less personal supervision.

"It follows that science alone can not fight the devastating influences of life. It can, and is, accomplishing a magnificently effective job. Until however, the average man and woman, and through them the child, can be made to understand that all the research laboratories in the world, and all the wonderful advances in medicine and sanitation will be of little avail, if a properly ordered life based on the laws of nature is not observed, not until then will the modern human being attain in quality of health and in length of years, what he actually should experience.

"Therefore, kill the plague of indifference in matters of personal health. Right and sensible living can accomplish it."

Looking Backward Through Files of the Patton Courier

THIRTY-FIVE YEARS AGO

Taken from the Files of The Courier of Thursday, June 13 1895.

"What might have terminated in a very serious accident to Miss Estella Duneagan of St. Augustine happened on Magee avenue in Patton on Saturday last, when a horse she was driving attempted to smash things in general. As the horse was standing in front of a local store, with the young lady in the carriage, the animal became frightened and started to run in a very loose and irregular manner up Magee avenue. The brave young lady clung to the reins until men on the street succeeded in checking the horse's flight."

"Last week Burgess Donnelly of West Magee avenue commenced drilling a well on his lot where he resides and after going down several feet he struck a beautiful clear stream of mountain water which forced its way to the surface and has continued to flow as it did when first struck, ever since. It is an unusual experience to have an artesian well of this character in your front yard and a more fortunate find could not have been discovered by our worthy burgess than the above, as it will save that dreaded complaint, backache, by manipulating the pump on wash day."

"E. C. Brown, of Patton and Miss Frances Gregg of Milesburg were united in marriage at the bride's home on Wednesday, June 5th at 12 o'clock noon. After a honeymoon trip up the Hudson River, they will reside in Patton."

"Freeman Williams has his building on Magee avenue about completed."

"Dr. Worell has placed a new board walk in front of his residence on North Fifth avenue."

"Council at its regular meeting on Tuesday evening authorized that a communication be sent the Patton Water Company advising that if not sufficient water is in the reservoir to insure fire protection for the borough the agreement with the water company to furnish the town with water would be cancelled."

"The Patton Fire Company are planning to hold a monstros Fourth of July celebration this year and active committees are now hard at work to insure its success."

TWENTY-FIVE YEARS AGO

Taken from the Files of The Courier of Friday June 16, 1905

"The sweet girl graduates of the Patton high school numbered exactly one this year while the male members of the class counted three but collectively and individually the quartette

was as fine a class intellectually and every other way as ever finished a course of study in the schools. The class roll: Hubert Merrian Ross; Miss Rhoda Elizabeth Rhody, Charles Potter Miller and Paul Winslow Barton."

"Charles Ganoe, Elmer Laporte and Curtis Cochran, all of this place have been qualified for Second Grade Mine certificates."

"As the Courier goes to press word is received here of the death of Miss Bess Lingle, daughter of Hon. and Mrs. W. C. Lingle, in a hospital in Philadelphia, where she had been taken several weeks ago for treatment."

"A number of children made their first communion in St. Mary's R. C. Church on Sunday."

"William J. Fisher of Patton and John Lloyd of South Fork sailed on Saturday on the Majestic from New York for Liverpool and will be absent about three months. During this time they will visit, England Ireland, Scotland and Wales."

"On Wednesday morning at nine o'clock Philip Gagliardi, of Canellsville, Pa. and Miss Rose M., eldest daughter of Mr. and Mrs. John Gagliardi, of

Fifth avenue, were united in marriage in St. Mary's R. C. Church. Rev. Father Edwin Pieron officiating. The attendants were Louis Gagliardi, a brother of the bride and Miss Anna Bauman. A wedding dinner was served at the home of the bride and on Thursday morning Mr. and Mrs. Gagliardi departed for their future home at Conellsville Pa."

FARM CALENDAR

Timely Reminders from The Pennsylvania State College School of Agriculture

Attend Farmers' Week—Thousands of farmers and the families will gather at State College, June 17 to 19 for the annual Farmers' Week. Dairying will be featured in the program but all lines of farming activity will be presented in exhibits talks, and demonstrations.

Feed Turkeys Chick Ration—Any complete ration which will provide successful growth of chicks will give satisfactory results with turkeys.

Water Sweet Peas—One of the secrets of growing sweet peas is to give them plenty of water at all times. A mulch of grass clippings will help to conserve the moisture.

Provide for Safety—The so-called gentile bulls often prove dangerous. For

protection, the safety bull pen can be used. It provides shelter, a stall for grain and silage feeding, a breeding stall and an exercise yard.

Confine Young Chicks—If clean ground is not available for raising young chicks they can be grown in complete confinement. In such cases, platforms in front of the brooder houses give the chicks more room and allow them more direct sunlight.

Kill Quack Grass—Small patches of quack grass can be eradicated by smothering with tar paper or old tin roofing. Waste oil from automobiles and factors may be put on very small patches.

Pigs Need Pasture—Good pasture for growing pigs, brood sows, and other hogs is so valuable that it often makes the difference between profit and loss in the hog business.

MAYBE THEY WERE LOVE TAPS

A New York woman seeks an end to her matrimonial ties on grounds of cruelty—three slaps she says hobbled her. It is understood he will demand a recount.—Saginaw Daily News.

FOOLISH SENSATION

The pedestrian who starts across the street on an orange light know how a base ball player feels when he is caught between bases.—Louisville Times.

How One Woman Lost 20 Pounds of Fat

Lost Her Double Chin—Lost Her Prominent Hips—Lost Her Sluggishness

Gained Physical Vigor—Vivaciousness—a Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the six mineral salts your body organs, glands and nerves must have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you're growing hideously fat!

Try half a teaspoonful of KRUSCHEN SALTS in a glass of hot water every morning—in three weeks you'll see the scales and note how many pounds of fat have vanished.

Notice also that you have gained in energy—your skin is clearer—your eyes sparkle with glorious health—you feel younger in body—keener in mind. KRUSCHEN will give any fat person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS (lasts four weeks). If even this first bottle doesn't convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement in health—so gloriously energetic—vigorously alive—your money gladly returned.

CHILDREN CRY FOR IT—

CHILDREN hate to take medicine as a rule, but every child loves the taste of Castoria. This pure vegetable preparation is just as good as it tastes; just as bland and just as harmless as the recipe reads.

When Baby's cry warns of colic, a few drops of Castoria has him soothed, asleep again in a jiffy. Nothing is more valuable in diarrhea. When coated tongue or bad breath tell of constipation, use its gentle aid to cleanse and regulate a child's bowels. In colds or children's diseases, you should use it to keep the system from clogging.

Castoria is sold in every drug store; the genuine always bears Chas. H. Fletcher's signature.

National FORD TRUCK WEEK June 9 to 14

Examine the Ford Truck in detail

IN BOTH chassis and bodies you will see important new features that increase the strength, reliability, economy and value of all Ford truck types.

FEATURES OF THE FORD TRUCK

- | | |
|--|--|
| New 4-speed Transmission | Cantilever Rear Springs |
| New Spiral Bevel Gear Axle | Triplex Shatter-proof Glass Windshield |
| New Larger Brakes | Rugged Strength |
| New Heavier Front Axle Spring | Reliability |
| New Power Take-off Mounting on Transmission | Long Life |
| More than twenty Ball and Roller Bearings | Safety |
| Simplicity of the Electrical, Ignition, Cooling Lubrication and Fuel Systems | Economy |
| | Dual Rear Wheels Available |
| | Two Gear-ratios Optional |
| | Two Wheel-bases Available |

Under conditions of actual usage, these features add greatly to the value of the Ford truck. Many of them increase its strength and reliability. Some contribute primarily to performance. Others provide a high degree of safety. All combine to make the Ford truck a sturdy, economical, haulage unit, excellently adapted to a wide variety of purposes.

Universal Credit Company Plan of time payments offers you another Ford economy...

Ride with the THREE MUSKETEERS of MOTOR DOM

NO GOING too hard for these three! No situation too tough for them! Of all the gasolines and oils that strive to serve the automobile driver, they are the first to get into action and the last to quit. Where others falter—they go on. They've got the fighting heart!

MEET THEM Ride with these three for action, for speed and for push! The three greatest allies a driver can take with him—Sterling Motor Gasoline, Sterling Ethyl and Sterling Motor Oil.

... FIRST Sterling Motor Gasoline—reliable in every emergency, never known to fail when called upon, always ready to do its bit and more in whatever situation a driver finds himself. Your motor is always confident when Sterling Gasoline rides along.

... AND Sterling Premium Ethyl—a powerful product always seen in red. Its very presence puts pep in

the ride and when the motor would pound and object under ordinary conditions this red ally makes the going easy. The trip always begins and ends without a lessening of the pace or a single complaining note.

... AND Riding silently, protecting, never letting a dangerous situation threaten, never ceasing a vigilant watch is Sterling Motor Oil, a fighter in its very blood—from that most famous family of crude oils, 100% Pure Pennsylvania.
