HARRY CHAPMAN GETS INSPECTOR'S PRAISE

Former Local Young Man Has
Forged For Front As Music
Instructor

Patton folks will find interest in the following item regarding a former local young man taken from last week's Bayshore, L. I. Journal:—
The music work in the Bay Shore Public Schools was recently inspected by Mr. Russell Carter, State Supervisor of Music and in the report which he rendered to Dr. Avery Skinner, Director of the Examination and Inspection Division, Mr. Carter writes as follows: "I recommend the approval of the Bay Shore High School for credit for chorus and band practice under the direction of Harry Chapman. I had the opportunity of visiting several of the grades. The work done in them under Mr. Chapman is little less than wonderful. The children are musically interested and alert, and show unmistakable evidence of independent musical ability."

Mr. Chapman is finishing his second year in the Bay Shore school and in that time has had a very successful program from almost nothing, which to begin. Last October, a band was organized, the school supplying the instruments. At that time four boys knew a little about playing band instruments. The band now numbers twenty-four pieces with a repertoire of more than a dozen selections. Uniforms have been recently bought for the players which give them a very dignified appearance. There is also a junior orchestra made up of pupils from the fourth to seventh grades. This organization is also progressing very satisfactorily.

A gleeful club made up of twenty-five high school girls appeared a few weeks ago in the cantata, "The Courtship of Miles Standish." Two part singing is started as far down as the fourth grade with sight reading begun in the first grade. All through his singing instruction and chorus work Mr. Chapman stresses tone quality and proficiency in reading.

"Mr. Chapman is to be congratulated on the work he has done and the excellent results that his efforts have made."
