

STATE MEN MAKE CRUSADE AGAINST UNLICENSED DOGS

Investigations in County Result in Many Arrests; Violators Assessed Fines.

Representatives of the Bureau of Animal Industry, Pennsylvania Department of Agriculture, working under the supervision of Field Agent C. Ackerman, of Altoona, are now busily engaged in search of violators of the State Dog Law. As a result of their investigations a number of prosecutions have already been made and fines and costs assessed against the owners of unlicensed dogs and dogs not properly tagged. Field Agent Ackerman has estimated that the crusade against violators of the dog law will continue for several days in hope of rounding up the majority of violators.

The State agents in one afternoon made 35 arrests in Johnstown and violator of the dog law of one fine and costs. Field Agent Ackerman has estimated that there are in the neighborhood of 3,000 dogs in the city without a license tag and not properly tagged. A majority of the dogs picked up during the campaign are between the age of six months and one year. Mr. Ackerman stated, and it is required by law that a dog six months old or over must be licensed. In some instances the investigator found violations of owners using a license issued for a male dog on a female dog. There are also some violations of dog owners for use of tags issued for other dogs and also tags issued to other persons.

Investigations have also been conducted by the State agents in different sections of Cambria county as to stock damage claims, due to dogs having killed sheep, turkeys and chickens. It was estimated that damage claims resulting from this improvement would cost in the neighborhood of about \$15,000.

It is the aim of the Bureau of Animal Industry to get dog owners to have their dogs licensed and properly tagged as a means of identification, so that if a dog is killed while destroying livestock that identification is easily obtained. Proper identification of the destructive dog would mean a big saving to the State, as the owner of the dog would be required to make settlement of any damage claim.

The State department is also advocating better dog tags and by saving of damage claims this money could be applied to dog shows and field trials. The bureau also endeavors to give whatever aid to hunters in case of a hunting dog being stolen or poisoned. To date there have been 13,482 dogs licensed in Cambria County, Agent Ackerman reported. During the past six months a total of 600 prosecutions were made against violators of the dog law in this county. Violators not only must pay a fine and a license fee for 1930, but will be required to obtain a new license for their dogs for 1931 before January 15 next.

STATE SEEKS TO REBUILD HIGHWAY

Commissioners Withhold Approval, However, on Account of Lack of Funds

FROM MUNDAY'S CORNER

A. M. White, of Hollidaysburg, Assistant Division Engineer of the State Highway Department, met with the Board of County Commissioners at Ebensburg Monday, relative to getting approval of the Commissioners for the reconstruction of the William Penn Highway between Munday's Corner and Ebensburg. Proposed plans of the reconstruction were submitted by Mr. White to the Commissioners. The Commissioners were reluctant in approving the reconstruction of this highway because of insufficient funds available to pay for damages that would result from the improvement of the road. The matter has been taken under advisement by the Commissioners for the present.

Assistant Division Engineer White explained to the Commissioners that the plan for the reconstruction of the William Penn Highway between Munday's Corner and Ebensburg called for relocations at some points, but the present road will be followed over the distance. It is the majority of the State Highway Department to build a 20-foot concrete highway with eight-foot berms. The new road will have only three curves, each of one degree. The distance of this proposed reconstruction is approximately seven miles.

The Commissioners were informed by Mr. White that it is the plan of the State Highway Department to have plans and specifications completed by February 1.

It was estimated that damage claims resulting from this improvement would cost in the neighborhood of about \$15,000.

PRIVATE NOVENA WILL OPEN NEXT TUESDAY

A private novena in honor of the Infant Jesus, through the powerful intercession of St. Therese, of Lisieux, the Little Flower of Jesus, will open at the Carmelite monastery, Loretto Tuesday, Dec. 3, and close Wednesday, Dec. 17.

All those who desire to share in this novena, as well as in the special prayers of the Carmelite nuns during the holy season of Advent, together with holy masses and holy communions daily throughout the month of December, may send their petitions to the Carmelite Monastery, Loretto.

It is anticipated that during this fervent novena many new graces and great blessings will be obtained from heaven through the Infant Jesus and the powerful intercession of the Little Flower with his. During St. Therese's religious life, spent in the Carmel of Lisieux, France, she had a very deep and tender devotion to the Child Jesus whose name she sweetly bore, together with that of the holy face. It is, therefore, with great confidence that her sisters in Christ anticipate that this coming novena will be a wonderful spiritual success in obtaining favors desired for the souls in the world who depend upon the cloistered nuns to make up to the Infant Jesus for the time they are unable to spend with him in pleading for their spiritual and temporal needs because of their busy lives.

Sunday afternoons at 4 o'clock public devotions in honor of the Little Flower are held in the Carmelite chapel, followed by Benediction of the Most Blessed Sacrament and the veneration of the first-class relic of St. Therese. The priest also gives a special blessing to babies and little children. Upon request the Carmelite nuns will make private novenas.

Local Chevrolet Dealer Optimistic

Albert K. Christoff Monday Attended Enthusiastic Dealer Meeting in Pittsburgh.

Chevrolet will build and sell a million cars in 1931, according to Albert K. Christoff, Patton, Pa., Chevrolet Dealer, on his return home from Pittsburgh, where Monday, with 600 other dealers in this area, he attended one of the 50 winter dealer meetings being conducted from coast to coast by the Chevrolet Motor Company. On this basis, Mr. Christoff declared Chevrolet sales in this section would be more than 25% greater than in 1930.

Mr. Christoff's statement was based on studies of current conditions and surveys of the future made by the Chevrolet Motor Company and announced at the Pittsburgh meeting by W. E. Holler, Assisted General Sales Manager of the Company, who directed the meeting.

"The studies and surveys show that business is improving and 1931 promises to be one of the best years we ever had," Mr. Christoff said. "Business is coming back, slowly but inevitably. Money is plentiful at cheap rates. Savings deposits are ahead of last year. Inventories in all lines are at rock bottom and mills, factories and wholesalers report orders in increasing volume."

"As for Chevrolet, our company is one of the most stable in the industry. We have 400 more dealers than we had than ever before. Our used car stocks are at bottom. In the first months of this year our organization sold 1,100,000 used cars, an all-time record. Our new car stocks are equally low. Our 1931 models are larger and the finest and oldest proved in Chevrolet history. They are announced nearly two months in advance of the customary time. Our dealers are that much better prepared
