LIGHTS OF NEW YORK

By WALTER TRUMBULL

This may be old, but it was told to | smoke and talk. The man, while not me as an unpublished story. There is a man in New York who liked to have people around him, so he used to keep open house on Sunday afternoons. It got so that a good many persons came regularly to eat, drink,

KANSAS GIRL CHAMP

Miss Florence Melchert, twentyyear-old freshman in Kansas Agricultural college, has been declared the outstanding 4-H club girl in the United States. She went from her home in Franklin county, Kansas, to the International Live Stock show at Chicago to receive the trophy given by Senator George H. Moses of New Hamp-

rich, was pretty well off and, at various times, helped some of his visitors financially over tough spots in the road. He felt that they were his friends. Many of them didn't need any help. Sunday afternoons were gay

Then came the crash and the man was wiped out. The next Sunday he made a little speech. He said he was embarrassed, but the truth was that he had been caught out on a limb in the falling stock market and was flat broke. He hoped to get back on his feet, but he was broke now.

"But I still have this apartment," he said, "and I hate to see these pleasant Sunday afternoons discontinued. We still could meet here, but—and it isn't easy to say—I haven't money enough just now even to provide things to eat, drink and smoke. thought, if you each would put in two or three dollars, we could buy some stuff and still continue these leasant times."

The guests assented with enthusiasm; but the next Sunday none of them arrived. They haven't been back since.

A writer got what he thought was a fine chance to show a new play with an amateur dramatic club, in town near New York. He induced several well-known producers to attend the try out. One big scene showed a mother discovering a man, who had been her lover, making violent love to her daughter. The mother was supposed to enter in sports clothes, but the woman who played the part had heard that there would

he notables in the audience and, at the last moment, decided that she would be more effective in a negligee. When the time for her entrance arrived, she was making the change.

The pair on the stage sprang apart at the proper cue; but no mother appeared. They made love some more; still no mother. The situation grew strained. Finally, the girl impro-

"I thought I heard mother," she said. "I'd better go see where she is," and she walked off stage. The man, left alone, opened books,

lit cigarettes and stalled for some moments, but there was no sign of mother or daughter, so he said: "I must see what has become of them," and he walked off, leaving the

stage empty.

By this time the visiting producers were in hysterics and the curtain fell on another play gone wrong. A man never really is fat until he

commences to catch his safety razor

in the folds of his double chin.

There is a handsome doorman in front of a Fifth avenue apartment who looks like a German drill sergeant. He spends all day marching up and down, calling taxis and opening automobile doors. The other night an inhabitant of the apartment house discovered what the doorman did with his evenings. He saw him standing stiffly in front of an armory; probably waiting for some one to

come out and put a uniform on him,

30 he would feel free to call a taxi.

He has, in addition, a college degree which should have given him some balance and summer in doors and out. They run and jump and hurdle wherever and whenever they may be. They have scales in their sleeping room to weigh themselves at

Paris .- Plans made to be sent to | Austria by Marie Antoinette to prove that she was falsely accused of extravagance in building her hamlet of doll houses at Versailles have been found and are to be used in restoring the hamlet to its original condition.

A favorite resort of tourists and students of history has been this fra- ing the color and texture of the origgile, imitation village of peasant houses in which the queen, bored by the formality of courts, used to play at life on the farm. But in recent years its houses, built only to serve as playthings, have been falling into ruin. And had it not been for the Rockefeller repair fund the ruin would probably have become com-

Most of the interiors are bleak expanses of bared lath, corners black with cobwebs and floors rotting. The thatched roof of Marie Antoinette's own little cottage in the village has fallen in, and the hole is now covered with tarpaulin. Six months ago a tall poplar fell on the little imitation mill, crushing an angle of the roof and causing a whole wall to lean.

they may get a proper amount of sleep. They drink no coffee; they use no tobacco; they eschew whatever is said to be detrimental to the growing athlete. They read books on how to play the various games in which they are interested and like David they can say "One thing have I desired; that will I seek after."

One of these days you are going to read in the newspapers that Bob is captain of his college football team and that John has broken the record in the pole vault, for what we most desire and constantly seek after we are likely to win.

nomic and financial ruin.

The entire hamlet just now looks as | reinforced concrete that will prevent foul a wreck as anything in the warzone in 1918.

Money available for its restoration raised a new problem. How did the hamlet look when it was first built in the Eighteenth century? Nowhere in any of the archives could plans showinal walls be found. It was known, moreover, that the restoration made some 40 years ago was mere guesswork and probably inaccurate.

In the library of the Duke of Ferrara in Mondene, Italy, lay a price-less "album" of original drawings of the hamlet made by Micket, the architect who built it. They were colored drawings. The queen had had the little book made to send back to her home in Austria to prove to her famfly that the hamlet was after all a simple little affair and not the kingdom-bankrupting folly which rumor had made it.

The book never got to Vienna. Marie Antoinette had to answer to the French revolution on the charge of reckless extravagance, and the click of the guillotine ended the argument

Patrice Bonnet, chief architect of the Chateau of Versailles, has been to Italy to copy Mickel's colored draw ings. It is from these that the ham let is to be reconstructed.

One of the discoveries made in the album is that the hamlet when new was a faked antique. It was built not to look like a new hamlet, but one weathered and softened by time.

Built in the reign of Louis XVI, it there since the time of his great-greatgrandfather.

The renewed hamlet will be exacttoy mill stream, and with some of in the toy houses will be frames of engagements.

Make Scientific Study of Scourge of Leprosy

The ancient scourge of leprosy is being intensively studied in Hawaii with a view to steady reduction in the number of cases and eventually to eradication. Gov. Lawrence M. Judd has appointed a committee which includes men who have given many years of attention to leprosy cases. Their report, just conclude but not made public, deals not only with medical treatment, but with measures for segregation of lepers and closer control of the disease Hawaii for many years has treated leprosy without special fear, knowing that care in handling it sufficiently protects doctors and nurses from contamination. Measures suggested to the governor by the commission will be embodied in legislation by the territory of Hawaii next spring.

"A rolling stone gathers no moss," said the ready-made philosopher. "Yes," replied Mrs. Corntossel, "but that's no excuse fur a man devotin' relations, father?" Dad—"There are all his time to settin' in a rockin' no such people, son."

Eternal War on Plant

Insects and Diseases On the old apple tree that used to stand by our garden gate, where we learned the mysteries of mumble-typeg and where, on moonlight summer nights, as we devoutly believed, fairies came to dance, there was never a devilish insect or ruinous wilt. The bees would swarm in April to gather future honey and in autumn golden butterflies would hold farewell flutterings there, but nothing more Year after year fruitage followed blossom without a misad venture. Little boys needed castor oil, especially when apples were green, but the tree was sufficient unto itself in all matters of physic. Sprays were unheard of. So, too, with the peach orchard and with the figs, except for an occasional plague of June bugs, many of which met with condign punishment at the end of a piece of string. Horticulture was then a pastime. Now it is a battle.

Hostile insects and plant disease entail upon our country an annual loss of \$3,000,000,000. Thus report the captains of the federal Department of Agriculture, and we take their word without question. "The unfortunate thing is," they ominous ly add, "that the end is not yet. Each year adds new pests and new diseases at an alarming rate. Only by adoption of the most efficien methods of control and eradication can we hope eventually to triumpl over these apparently insignificant Moths, beetles, borers and what-no

are swooping upon us as menacingly as Goths and Vandals upon ancier Rome. This is no rhetorical flourish reader. Consider the Mediterranea fruit fly. What other incursion undesirable aliens ever wrought such havoc as did that pestiferous immi grant in Florda and in southern parts of Georgia? Consider the boll weevil Its march was more destructive than Sherman's. Potato bugs we have ha always with us, but now comes the bean beetle, cutting a cleaner swath than did Attila the Hun.

Devilish insects, we say, because they strike at our creative and promotive industries, and if they took a

Found Tropical Utopia

the South seas as a sort of tropical utopia is advocated by Alain Gerbault, famed for his world trips in his 36-foot boat, Firecrest. M. Gerbault says he will soon found his ideal community, sailing to an uninhabited island in a 34-foot boat he is having constructed at Havre, France. He will select the pick of the natives in the South seas to start his colony, with the intention of building a super race. "We shall live a harmonizing life," he said, "and will try to raise a new standard of art and culture in that faraway land I have not as yet decided how the island shall be governed, but it wil be along ideas of my own." On a recent world trip Gerbault stopped at and was invited by 5,000 natives to remain there as king. He declined, because he preferred to set up his own kingdom.
