### DEATH NOTICES

#### WILLIAM H. CAMPBELL.

William H. Campbell, aged 83 years, died at 8:30 o'clock last Thursday morning at the home of his half-sister, Mrs. Maribelle Kline, of Patton. He had been ill for many months, suffering of a heart ailment. Mr. Campbell was born near Nanty-Glo on July 28, 1855, a son of George and Barbara Wagner Campbell. He had been a resident of Patton for the past thirty-five years, and was well known throughout the community. He was unmarried. Surviving is his half-sister.

Funeral services were conducted at nine o'clock on Saturday morning in St. Mary's Catholic church, Patton. A requiem high mass was read over the remains by the Rev. Father Bertrand McFadyen, O. S. B., the pastor, and interment was made in St. Mary's cemetery.

#### MRS. MARY WESTOVER.

Mrs. Mary Martina (Kirkpatrick) Westover, 72, died at 6:10 o'clock last Thursday morning at the home of her son, Attorney J. Harrison Westover, in Spangler, with whom she resided. She had been in poor health the past year, suffering of complications incident to advanced age.

Mrs. Westover was born in Susque-

hanna township on April 6, 1866, a daughter of Augustine and Margaret (Glass) Kirkpatrick. She was the widow of John L. Westover, whose death occurred in 1916. In addition to the son with whom she made her home, the aged woman leaves a grandson, John Lantz, also residing at the Westover home.

Funeral services were conducted at nine o'clock on Saturday morning in the Holy Cross Catholic Church, Spangler, by Rev. Father Vincent Schlemmer, O. S. B., rector. Interment was made in St. Benedict's cemetery at Carrolltown.

#### MICHAEL GORMISH.

Michael Gormish, aged 47, a coal miner at Bakerton, died of pneumonia last Wednesday evening in the Miners' hospital at Spangler. He was born in Europe, a son of Andrew and Mary Gormish. Surviving are his widow, Mrs. Marie Gormish, and ten children: John, Elizabeth, Andrew, George, Paul, Joseph, Rose, Pauline, Margaret and Edward Gormish, all at home. Funeral services were conducted on Saturday afternoon at the Gormish home, and interment was in the Slovak Lutheran cemetery in Spangler.

#### JAMES RHOADES.

James Rhoades, aged 51 years, a veteran of the World War, died on Friday night last at his home in Amsbury after a brief illness of pneumonia. He was a son of J. B. and Hannah

McCabbie Rhoades and was born on April 20, 1877, in Swanton, Md. During the World War, Mr. Rhoades was overseas with the American Forces.

Surviving are his widow, Mrs. Gay (Muir) Rhoades; his father, and these children: Dayton, Jack, Wilma, James, Mary Jane, and Betty Ann Rhoades all at home. He was a brother of Mrs. Augusta Oss, Laconing, Md.; and Mrs. Josephine Winters, Swanton, Md. A nephew, Victor Rhoades, resides in Ashville.

Funeral services were conducted on Monday afternoon in the Amsbury M. E. Church and interment was made in Union cemetery.

#### FRANK KOLISH.

Frank Kolish, aged about 46 years, who up until about two months ago had been a resident of Ashville and who since had been operating a house coal mine in Lower Yoder township, died in Johnstown, on Thursday morning last of pneumonia. He had been ill only a few days. Surviving are his widow, Mrs. (Budziec) Kolish, and the following children: Anna, wife of C. M. Sharer, Altoona; Frank, Joseph, Stanley, Sophie, Virginia, Rose, Constance and Alice, all at home. Funeral services and burial took place at Johnstown.

#### MRS. MAX SCHMIDT.

Mrs. Gertrude (Ross) Schmidt, 53, well known resident of Ebensburg, died on Monday afternoon at her residence, after an illness of eight years of a complication of ailments. Mrs. Schmidt was a member of the Cresson M. E. Church. Funeral services were held at the home on Wednesday afternoon and interment was in Lloyd's cemetery. Surviving are the husband, Max Schmidt; a son, Dr. J. Ross Schmidt, of Abington Memorial hospital, Philadelphia, and a brother, John Ross, of Ebensburg.

#### MRS. JOSEPHINE HEISER.

Funeral services for Mrs. Josephine (Alverda) Dabney-Heiser, aged 76, who died on Wednesday last week at the home of her daughter, Mrs. Arch Repine, of Alverda, were conducted on Sunday afternoon at the Alverda Christian church. Interment was in MacDowell cemetery. Mrs. Heiser was the widow of Dr. W. H. Heiser of Alverda and the town was named in honor of the deceased's father. Surviving are the daughter mentioned above, a stepson, D. E. Heiser, of Elizabeth, N. J., and four grandchildren and two great-grandchildren.

#### MRS. MARY S. MORROW.

Mrs. Mary S. (Shenkle) Morrow, aged 87, a former teacher in the Ebensburg schools, died on Thursday at the home of her sister, Mrs. Sara E. Grazer in Altoona. Mrs. Morrow was born in Graysville in 1851, and taught school in Ebensburg for several years prior to her marriage to William M. Morrow. After her marriage she and her husband went to Aberdeen, S. D., and following the death of her husband she resided in Colorado, until a few years ago when she came to Altoona.

#### MISS ESTHER WHITCOMB.

Miss Esther Whitcomb, aged 53 years and a former resident of Barnesboro, died last week near Ebensburg after an illness of several months. Surviving are a sister, Mrs. Edwin Marsh of St. Benedict. The body was taken to Barnesboro for funeral services and burial.

#### REUBEN D. MILLER.

Funeral services for Reuben D. Miller, 48, a former resident of Spangler, who died last Thursday at his home in Baltimore, Md., were conducted on Monday morning at St. Patrick's Catholic Church in Spangler and interment was made in St. Benedict's cemetery at Carrolltown.

#### JACOB MICHNO.

Jacob Michno, aged 54 years, of Ebensburg, died on Sunday in the Cambria County Home, near Ebensburg. He was born in Poland in 1854. Surviving are his widow and these children: John Joseph, Mary Katie and Angelina, all of New York City.

#### CARD OF THANKS.

May I, in this manner, thank the many friends and neighbors who assisted in my recent bereavement, the illness and death of my brother, William Campbell; for the spiritual bouquets, floral offerings and use of cars at the funeral.—Mrs. Maribelle Kline.

#### CARD OF THANKS.

We wish, in this manner, to thank the many friends and neighbors who so kindly assisted us in our recent bereavement, the illness and death of our husband and father, Frank W. Cunningham; for the spiritual bouquets and floral offerings, and for use of cars at the funeral.—Mrs. Adeline Cunningham and Family.

### FISHING LICENSES DOG PERMITS READY

Dog and fishing licenses for 1939 are now being issued by County Treasurer John Lloyd Jones at Ebensburg. Application for licenses may be made by mail but the applicant should enclose return postage with the required fee.

All dogs under the state law must be licensed by January 15th. Failure to obtain a license by that time may subject the owner to a fine of from \$5 to \$100 or imprisonment for thirty days. The fee for a male dog is \$1.10, a female, \$2.10, and a spayed dog, \$1.10. Where application is made for a license for a spayed dog, a certificate must accompany the application unless the dog has previously been licensed in Cambria county.

Fishing license buttons this year have a white keystone superimposed on a red background with red lettering. The fee for license for residents of Pennsylvania is \$1.60. For non-residents the fee is reciprocal according to the charge made to Pennsylvanians in the state the non-residents reside.

A minimum fee for non-residents, however, is \$2.50. They may obtain a three day tourist license for \$1.60.

### Yanks Do Justice To Goose Liver Pie

#### They Eat More Than Their Share of Foie Gras.

PARIS.—Americans ate more than their share of 100,000 tons of foie gras, that famous gastronomic delicacy of France, which is exported from Alsace every year. That is in addition to the quantity which is produced in Perigord and Gascony, of which some is exported.

Although goose livers, from which foie gras is made, were known and appreciated as a delicacy for many centuries, foie gras only became famous about 150 years ago when, what the French first called "pate" made its appearance in Strasbourg. As far as can be learned, it was about the year 1765 that Jean-Pierre Clause, chef of the king's chamberlain who was governor of Alsace, introduced "pate de foie gras"—literally, goose liver pie. Clause was known as a great experimenter with foods and his new dish was greeted with unanimous admiration.

But even the culinary discovery of Clause was to be improved in 1792 when Nicholas Francois Doyen, a Bordeaux chef then working in Alsace, made the first foie gras as it is known today when he mixed the pate with Perigord truffles.

Since that time the two have always been mixed, as the truffles heighten the flavor of the foie gras.

For their part, there are no statistics concerning truffles. A fungus root growth, truffle, as it is known in French, comes mostly from Perigord and Gascony. Curiously enough pigs, which have been trained for the task, are used in discovering truffles, as there is no growth above the ground which will indicate their presence.

The pigs use their sense of smell and when they begin to root they are pulled away and the truffles searcher digs them up himself.

### Seven Suggestions for Safe Winter Driving

CHICAGO.—From Evanston, Ill., recognized by safety authorities as the safest city in the world, comes "Winter's Seven Safety Suggestions" for motorists.

Judge Harry H. Porter, chief justice of municipal court and president of the Safe Winter Driving league, listed practical safety measures for coming blizzards as follows:

1. Test brakes for simultaneous gripping.
2. Check condition of windshield wiper, defroster and tire chains.
3. Travel at less than moderate speeds on snow or ice covered highways or city streets and watch for children on sleds.
4. Shift into second gear for more gradual braking on snow or ice, particularly if not safeguarded by tire chains.
5. Take curves slowly and don't try to pass cars ahead of you on hills or curves. Descend steep hills in second gear if icy.
6. Apply brakes with clutch engaged and before you ordinarily would in dry weather—and don't depend on your horn because other car windows may be closed and some drivers (especially in country) wear ear muffs.
7. Exercise greater caution generally and open car windows occasionally to prevent windows fogging up and, in old cars, possible danger from carbon monoxide gas.

Remember: "An ounce of prevention is worth a pound of cure." The Evanston safety record includes only a single traffic death this year, and three times winning the National Safety council's award as "the safest city."

### New Channel Increases Traffic on Mississippi

MARQUETTE, IOWA.—Traffic on the Mississippi river has increased tremendously during the last shipping season. The Milwaukee railroad's pontoon bridge here, which has to be open for an average of 15 minutes to allow passage of a boat, has been open for time equaling seven full days since last March 28, when the first tugboat went downstream.

In 1937 a total of 408 boats passed the 276-foot pontoon. This year the figure is expected to be exceeded by almost 300. By mid-November, approximately 675 boats had passed. In 1936 the number of boats was only 349.

The number of barges plying the river also has increased, with 273 going through during October alone. Creation of a new channel and locks is credited with increasing the use of the Mississippi for freight shipping. Most of the barges carry oil, coal, machinery or grain.

### Artist Depends on Art To Pay for Education

CLEVELAND.—Miss Ruth E. Mayer earned two years of her education at the Cleveland School of Art by drawing 825 illustrations for a new handbook on Ohio's wild flowers compiled by the Cleveland Museum of Natural History's director. Miss Mayer worked on the illustrations in her spare time and during summer vacations.

The young artist and her mother and father collected most of the specimens, which served as models for the illustrations, within 30 miles of Cleveland.

### Largest Radium Shipment Received

One-fifth of an ounce of radium, the largest single shipment ever received at one time by the National Bureau of Standards in Washington, D. C., arrived there recently. It is to be used by the National Cancer Institute. Dr. L. F. Curtiss is shown placing the precious shipment, valued at \$150,000, in a 10-ton safe with a six-inch lead lining.

### MODERN "SAMARITANS"

By Dr. Charles Steizle, Executive Director, Good Neighbor League.

The story of the "Good Samaritan" is one of the Greatest Classics Ever written. Everybody knows it. Everybody believes its teachings—at least theoretically. Lodges and other fraternal organizations have adopted it as the basis of their constitutions.

But let's see what is really involved in this great story, and then let's ask ourselves how near we come to following the example of the Samaritan. Here are the chief points in his actions:

First, he made a "survey." The Priest and the Levite passed by on the other side of the Jericho road, leaving the man who had been robbed and beaten, probably with not so much as a backward glance. The Samaritan came where the wounded traveler lay to get the facts, and to find out what he needed.

Second, he was "moved with compassion." He did not come merely to get the data in the case, so that he might make a statistical report to the authorities. He put heart into the task and he did not stop to ask about the wounded man's religion, his race, his color, or whether he belonged to any particular organization.

Third, he helped the traveler. He bound up his wounds, set him upon his own beast, brought him to an inn, paid his bill, and told the keeper that if the sick man needed anything else, to see that he got it, and he himself would make it all right.

And there you have an outline of what should ordinarily be done in meeting the social needs of our neighbors and all other unfortunate who have been "wounded."

This is all right, so far as it goes—but there's one thing else that needs to be done in these modern times—something that a thousand Good Samaritans, working as individuals, can never do—the "Jericho Roads" must be cleared of thieves and robbers!

This will do away with the necessity of caring for wounded travelers—whether they have been wounded by industrial, social or political robbers. And this is a job that requires the combined efforts of all of us. The robbers are strong and ruthless—and they're organized.

When the rest of us get together—churches and lodges—industry and labor, and all others who believe in wiping out injustice and lawlessness and unfair dealing—it will be "good night" to the robber bands on all "Jericho Roads."

### JONES WILL HEAD COON HUNTERS UNIT

At a meeting of the Cambria County Coon Hunters' Association last week in the Morellville Fire Hall, James M. Jones, clerk of courts, of Ebensburg, was elected president; Charles E. Walker, Johnstown, vice president; John J. Cowan, Johnstown, secretary, and Herbert Mintmier, Wesley Chapel, treasurer. Frank Maser was selected delegate to the Cambria County Sportsmen's Association, with which the club is affiliated.

Dr. S. P. Boyer was elected to represent the coon hunters at the next meeting in February of the Pennsylvania Federation of Sportsmen's Clubs. Considerable discussion on various phases of game conditions was had, but no resolutions were adopted. At the February meeting, when the new officers will be installed, it is planned to serve lunch and refreshments and a good program of entertainment.

### MARS TO COME NEARER THE EARTH IN 1939

Philadelphia.—Mars will come closer to the earth during the spring and summer of this year than at any time for many centuries to come, according to James Stokley, associate director of the Franklin Institute, in charge of astronomy. The planet's proximity will make it possible for scientists to go far toward settling the question whether Mars is suitable for the existence of life, Mr. Stokley said.

Mars will come within 36,024,300 miles of the earth this year.

### WHAT OF THE HEALTH OF THE ADOLESCENT?

Death rates are lowest at that time. Yet there is much ill health during this vital period.

Adolescence is that period between childhood and young manhood or young womanhood. It is a crucial time of mental and physical adjustment.

Well balanced activity of the endocrine glands, and particularly the thyroid, pituitary and the suprarenal glands, influence development during adolescence.

Simple goiter is very common in the adolescent period. It is more common in females than males.

Headache and migraine are also quite common at the beginning of the adolescent period.

Home-sickness is frequent among nervous children who are sent away to boarding schools.

They miss the more sympathetic atmosphere of home life. Preventive measures must begin in the preadolescent state.

Parents and teachers should be prepared to teach sex knowledge at the proper ages. Physical ailment should not be ignored and children should be given physical examination and eye tests periodically.

Many cases of heart disease owe their origin to improper care of minor ailments, such as stiff neck or so-called "growing pains."

The nervous system is peculiarly liable to all kinds of disorders during adolescence. Emotional instability frequently appears at this period.

The adolescent period is one fraught with many dangers.

### BROTHERS SENTENCED FOR CAR APPROPRIATION

Pleading guilty to the theft of an auto belonging to the Blubaker Coal Company in Spangler on December 8, John and George Beeghly, brothers, of St. Benedict, were sentenced by Judge McCann on Monday to serve 3 months in the county jail, pay the costs and make restitution of \$116.39 for damages they admitted having done the machine. After taking the car the brothers drove to Indiana county where they wrecked it. Following the accident they attempted to steal a machine in Indiana county. When released at Ebensburg they will probably be taken to the neighboring county to answer charges.

Almost all kinds of clothes can be made fireproof, and fireproofing solution can be made very simply at home.

A "pinhole detector" for finding the flaws in steel strip while it moves swiftly past has been developed.

### FORM FITTING

On the London, England, coast, had between Charing and Maidstone this quaint shelter made from the wind cowl of a house is used by pedestrians while waiting for the buses.

CHARTER NO. 14263.		RESERVE DISTRICT NO. 3.	
REPORT OF THE CONDITION OF THE FIRST NATIONAL BANK AT PATTON, of Patton, in the State of Pennsylvania, at the close of business on December 31, 1938, published in response to call made by Comptroller of the Currency, under Section 5211, U. S. Revised Statutes:
