So Simple... Yet So Complex!

Few things are simpler than making a telephone call. Yet few things are more complex than making that call possible. For there are some 19,000,000 telephones in this country that can be connected with yours. We never know which one you'll ask for next. Yet we must be ready to make any connection quickly, clearly and accurately.

And we do that five million times a day in Pennsylvania alone! That requires millions of dollars worth of intricate equipment. Plus 16,000 highly-trained people. And careful, experienced management. It requires unending research, standardized manufacture and a high-grade personnel with the spirit of service.

The result is Bell Telephone service—fast... accurate... reliable. Nowhere in the world can you find its equal.

Americans know that it pays to use the telephone. It gets things done in a hurry. It eliminates waste motion and saves money. It gives you pleasant, personal, two-way contact with almost anyone, anywhere. Perhaps you should use your telephone more—for profit and pleasure! The Bell Telephone Company of Pennsylvania.
