JAMES MARK NAMED TO SUBCOMMITTEE

New York — The task of putting into concrete form proposals that may be made the basis for contract negotiations with bituminous coal operators was delegated last Thursday by the United Mine Workers of America to a committee of 16.

The policy committee of the union, after an all-day session devoted to hearing a wide range of proposals, designated the three national officers and the presidents of the 13 bituminous districts as a subcommittee and adjourned until 3 p. m. last Friday.

In making the announcement of action, John L. Lewis, president of the union for 20 years, said the subcommittee would "crystallize the proposals and report to the full committee its recommendations."

COUNTY REPAIRS ARE ASKED BY GRAND JURY

Recommendations that repairs be made at the County Home were made in the report of the Cambria County grand jury submitted to President Judge John H. McCann last Thursday afternoon, following an inspection by the jurors of county institutions. The report, which was ordered filed by Judge McCann follows:

"County jail—Thursday, March 9, 1939, we visited the county jail and found it to be operating in an orderly manner. E. H. Knee is to be commended on his capability in the capacity of warden.

"County Juvenile Home—Thursday, March 9, 1939, the grand jury this day visited the Children's Home of Cambria County. The county commission-

ers have provided a suitable environment for the physical and mental growth and development of the children. We recommend that the recreation room be plastered; that the library books be rebound and that others which are worn be discarded. We also recommend that a flag pole and flag be placed at the Children's Home. Mrs. Emma Daugherty and staff are to be commended for the efficient manner in which the home is conducted.

"County Poor Farm — Thursday, March 9, 1939, the grand jury visited the Cambria County Poor Farm and Home for the Aged, where they found it to be operating efficiently and economically. We suggest that better ventilation be provided in the workshop in the basement of the home. We recommend that the weighing room be scraped and painted. The raising room

needs plaster and a new floor and the baking room door needs fixed. Mr. and Mrs. Zubrod, superintendent and matron of the home, as well as their assistants should be commended for the efficient manner in which the home is conducted.

"The grand jury wishes to thank all of the officials in the office of the district attorney and all the court officers for the kind treatment accorded them while here."

BLOW TO UNIONISM

Washington — Senator Henry Cabot Lodge, Jr., Massachusetts Republican, last week was on record as firmly "opposed to any amendment" to the Wagner Act that "will hamper industrial organization."

The youthful Bay State Senator's statement was given to the general executive board of the CIO United Shoe Workers of America, which has been interviewing numerous Congressmen and Senators on their attitude towards the Act.

Lodge told the shoe workers that, though he had not given detailed study to all the suggested amendments, he was convinced that any major blow at industrial unionism is a blow at all unions. Modern industrial plants, he indicated, can be successfully organized only on an industrial union basis.

The delegation told the Massachusetts senator that amendment of the Wagner Act would crimp their efforts to organize runaway shops, many of which had left Massachusetts in recent years for low-wage areas in nearby states.
