COUNTY KEEPS QUOTA FOR CCC ENROLLEES; OTHER COUNTIES CUT

The Cambria County quota for CCC Camp enlistments for April will remain the same as the previous quota of 230 youths although the majority of other county quotas have been cut, it was revealed last week at the offices of the DPA in Johnstown.

Full details on the local enrollment have not been received as yet, it was said. However, the April quota definitely has been set at 225 white and 5 Negro youths between the ages of 17 and 23. Applicants must come from families on relief, according to regulations.

The last group of CCC enrollees from Cambria County was assigned to camps in January. Applications for the April assignments now are being received and information on the proper procedure is available at the DPA offices in Johnstown and Ebensburg and from DPA visitors.

Relief officials expressed themselves as being pleased with the fact that the Cambria County quota was maintained despite sharp quota reductions in many counties. It was pointed out that the local county is known as "a good county for CCC enrollees"—meaning that the quota assigned has always been filled with comparative ease.

CARROLLTOWN MAN GIVEN DAMAGE AWARD

A verdict of \$529 was awarded Urban A. Stoltz of Carrolltown by a jury before Judge Charles C. Greer last week from the New Amsterdam Casualty Company. Mr. Stoltz, a member of the Carrolltown Volunteer Fire Department, responded to the fire in the Central Trading Corporation building in Spangler on April 3, 1937. He was injured and was removed to the Miners Hospital where he remained for about three weeks following which he was taken to Pittsburgh and operated on for stomach ulcers at the Mercy Hospital. He asserted the ulcers were the result of his injuries.

Mr. Stoltz sued for benefits granted him under a blanket insurance issued by the defendant company, to the members of the Carrolltown firemen's organization. He was allowed, under the policy, \$19 indemnity for a period of 52 weeks. The company asserted that Mr. Stoltz's illness had been caused by contributory factors other than the injury sustained at the fire.

WHO'S THE PRESIDENT?

A trade unionist writing in a Utah labor paper says he remembers that Franklin D. Roosevelt was elected President of the United States and not Garner, nor Senator Burke, nor Senator Vandenberg, Hoover or anybody else. He doesn't get much "kick" out of the dope stories that Vice President Garner disapproves of this or that action or appointment by the President, or that Senator Burke or Senator Byrd or Senator somebody-else is unfavorable to presidential suggestions. Who cares?

The point is, since when is the Vice President the censor of the President? The people are getting fed up on the lesser lights taking on the prerogatives of the President, for the principal reason they have no authority to do so. These lesser officials are beginning to bear from labor on this subject, for most of their objection and criticism is leveled at New Deal laws and appointments. Labor's dander is up.

JOBS FOR MINE WORKERS IS GOAL

Washington — Chairman Smith, (D.-Va.) of the House Mines and Mining Committee endorsed "wholeheartedly" last week a proposal to boost business in the coal fields through development of generating plants powered with coal.

"It would be a big step toward solving the problems of overproduction and unemployment in the soft coal fields," he said.

"If carried out it also would mean hundreds of thousands of jobs for miners now unemployed."

Representative Fries (D.-Ill.), author of the proposal added other thousands of jobs would be provided through many divergent phases of the program.

Fries would create an agency, probably in the Interior Department, to develop the steam-electric plants throughout the country.

Such plants, Fries said, would provide cheap electric power to consumers, and consume many hundreds of thousands of tons of coal annually.

In addition he proposed establishment of at least two research laboratories to seek new uses for coal and its by-products.

He predicted that his plan would mean jobs for every coal miner in the country and would provide thousands of jobs in associated industries.

WILL SELL SLOW MOVING LIQUORS

Harrisburg — The Liquor Control Board anticipates little difficulty closing out 369 brands of slow-moving liquor and wines in the state stores at "full mark-up" prices to liquidate stock valued at \$700,000 to \$1,000,000, Acting Chairman W. Worrell Wagner said last week.

Denying published reports that "bargain basement prices" may be necessary to clear store shelves of "frozen stock," Wagner said the 250 items placed on the "sellout" lists Monday are moving rapidly and many vendors have agreed to take back unsalable brands and replace them with items in demand.

"We have not added a new item in the state stores since October," Wagner said, "and at the beginning of business this week had 1,500 coded items on our shelves."

"We now have approximately 550 items on our close-out lists with those added this week, which includes 369 brands, some of which have been in stock since the start of the liquor store system."

He explained that it had been necessary to keep in stock some slow-moving items because of occasional demands which had to be filled. He said the 500 items being closed out did not represent more than \$1,000,000 of the state store system's current total inventory of \$10,750,000.

"While the retail price of 'decoded' items has been reduced slightly," Wagner said, we will sell the bulk of them at the regular mark-up level, or turn them back to the vendors, for replacements. No 'bargain basement prices' are necessary."

DO YOU KNOW

Sterilization of the air in operating rooms is being practiced with a view to further reducing the possibility of surgical infection.

The average height of native born American males is 5 feet and 8.82 inches while the average height of females is five feet, 3.79 inches. College students both male and female, exceed these figures by as much as an inch.

COURT DENIES EALY, WIFE RIGHT TO SUE

Dr. and Mrs. Edwin T. Ealy of Barnesboro were denied, by the State Supreme Court, the right to sue the New York Central Railroad for damages for injuries suffered when their car was struck at a railroad crossing near St. Benedict June 10, 1935.

In an opinion filed late last Thursday, the court said the Ealys had not offered positive evidence showing negligence in the operation of the train.

"I have lived, sir, a long time; and the longer I live, the more convincing proofs I see of this truth, that God governs in the affairs of men."

GAME STOCKING REPORT HEARD BY SPORTSMEN

Reports on the amount of game stocked in Cambria County since the close of the small-game hunting season last November were presented at the monthly meeting of the Cambria County Sportsmen's Association in the Court-house at Ebensburg.

The report revealed that 700 ring-neck pheasants, 800 cottontail rabbits and 12 coon in addition to a number of quail were liberated in the county by the Pennsylvania Game Commission. Reports also showed that many more rabbits and pheasants will be released within the next three months by several of the clubs affiliated with the county association.

Members of the association also arranged tentative plans for the annual sportsmen's picnic and field day. The affair will be held Sunday, July 23, on the Ebensburg Fairgrounds. Ira Bloom, president of the Cambria County Fair Association, assured the sportsmen they would be granted permission to use the fairgrounds for the annual outing. Plans also were announced for an elaborate program to be staged during the afternoon. Committee to complete arrangements for the picnic will be composed of delegates from every club in the county affiliated with the association, it was announced by John H. McFadden, president of the association.

Sportsmen also discussed plans for the improvement of Duman Dam, located on a branch of Black Lick Creek, between Belsano and Nicktown. The dam long has been known as an excellent bass and sucker fishing site. The association hopes to make major improvements on the breast of the dam within the next month or two.

Members also suggested that the association make an effort to improve one dam in the county each year.

Frank Maser and William Goodman both of Johnstown, were appointed to contact the game committee of the Pennsylvania Federation of Sportsmen's Associations in Harrisburg regarding the revision of the present groundhog hunting law. The association received word that a bill had been presented to the Legislature calling for the revision of the law so that hunting woodchucks with a dog would be legal. The delegates will seek to assist the federation in "lobbying" the bill through the house, it was said.

Members of the association also discussed the possibility of ejecting a conservation course in the regular high school curriculum in the state. It was decided to contact officials of the Department of Public Instruction with the hope of securing their assistance in promoting the course, which sportsmen believe is very important to the youth of today.

Henry Drummond "The most completely lost of all days is that on which one has not laughed."

Two-Ton Tony to Tread the Boards

Two-Ton Tony Galento, Orange, N. J., heavyweight contender, recently embarked on a theatrical career. Signing his contract in a New York theater, Tony got right into the spirit of the thing by serenading Linda Yale, a model. The serenade was brought to a close by Mrs. Galento, left, who decided to put a stop to the nonsense.

"BERKSHIRE STOCKINGS ARE NICE..."

"BUT BERKSHIRE'S 51-GAUGES ARE NICEST OF ALL!"

*Berk twist

The Sheer Crepe Stocking By **BERKSHIRE**

FANNIE C. WETZEL, CARROLLTOWN, PA.

Yes, even the finest of stockings must have their aristocrats. Of all the grand stockings by Berkshire, you'll like these 51-gauges best because they're a bit sheerer... a bit more luxurious... a bit longer-wearing. The special patented twist and counter-twist of the threads (called Berk twist*) plus added stitches, increase their beauty and wearability.
