EARLY PURCHASE OF 1939 FISHING LICENSE URGED BY THE STATE

Harrisburg.—Fishermen contemplating making an early spring cast when the trout season opens on April 15th, are urged by the department of revenue to obtain their license well in advance of that date.

Fishing licenses can be obtained from the county treasurer or issuing agents throughout the commonwealth. The fishermen were warned to be careful of their license and the buttons which they receive at the same time since there is no provision in the law whereby duplicates may be issued in case of loss.

Officials of the department say that if both the license and button are lost or destroyed, the law requires that new ones be purchased. Each fisherman purchasing a license may avail himself of the opportunity to get a summary of the fishing laws for 1939, to be given him free.

At the bureau of Miscellaneous Licenses of the Department of Revenue it is said that the Pennsylvania Fish Commission is prepared to stock more than 50,000 legal sized trout in the various streams of the commonwealth. This is a record stock in the history of Pennsylvania.

The new fish are being held in six state hatcheries devoted to trout culture. They will be dropped into the water sheds before the season opens.

Approximately 7,800 approved streams and lakes will be benefitted by the addition. Maps showing the location of trout streams are available at the Bureau of Miscellaneous Licenses, Department of Revenue, or at the Fish Commission's office.
