Finding of Martin's wrecked machine abandoned about a mile from the scene of the accident, led to his arrest at his home later. Motor Policeman A. M. Cox, who investigated the accident, and later arrested Martin, said the accident happened on the Hastings and Patton road about 9 p. m. Becker's car was

damaged to the extent of about \$100 but none was injured.

The Patton Independents will open the baseball season on May 3rd in a clash with the prison team at Rockview penitentiary near Bellefonte. The club is now scheduling games on a home-and-home basis for games on Thursdays, Saturdays and Sunday afternoons. Johnnie Hudak is business manager.

Miss Theresa Tresky, daughter of Mr. and Mrs. John Tresky, and John Marlin Kirsch, son of Mrs. Amelia Kirsch, of Nicktown, were married recently in St. Benedict's church, Carrolltown.

Miss Aleine Springer, daughter of Mr. and Mrs. J. S. Springer, and Louis Farabaugh, son of Mr. and Mrs. Sebastian Farabaugh, of East Carroll township, were united in marriage on Wednesday of last week in St. Benedict's church at Carrolltown.

J. Lawrence Luther, Deputy Recorder of Deeds, of Ebensburg, was a caller in Patton on Wednesday. Mr. Luther will be a Democratic candidate

for the office in which he is now a deputy. He has many friends and is well known all over the county. A native of northern Cambria he is particularly well known in this section. He should stand an excellent chance of nomination.

### MINE SEALING CUTS WATER POLLUTION

Washington.—Sulphuric acid pollution in the Ohio river and its branches already has been reduced 25 per cent by the mine-sealing program carried on by the Works Progress Administration, cooperating with the U. S. Public Health Service.

In the Monongahela River, principal water source for Pittsburgh, Morgantown, W. Va., and other cities, the noxious acid content has been reduced thirty per cent. Many streams in this great watershed are now wholly free of acid; the water having been cleared and can be used for drinking and bathing.

Sulfuric forms in mines when air and water come into contact with iron pyrites. The acid water then flows from the mines into the stream. The discharge amounts to 2,802,000 tons of sulphuric acid per year, according to public health estimates.

Treatment consists in blocking all openings of abandoned mines to prevent the entrance of air and water, and in keeping operating mines as well closed up as practicable.

### NICKTOWN MAN IS KILLED BY TREE

Alex W. Dumm, 23, of Nicktown was fatally injured about 4 o'clock last Wednesday afternoon when he was struck by the limb of a tree at the farm of Leonard Thomas in Cambria Township. The youth was cutting trees for Russell Evans of Ebensburg on the Thomas Farm and as one of the trees fell a branch struck Dumm on the head.

Dumm was a son of Mr. and Mrs. Frank Dumm of Nicktown.
