**THREE WOMEN GET JOBS TO EVERY TWO MEN, SERVICE SAYS**  
Harrisburg.—Three women are getting jobs in private industry and in

homes today to every two men, a monthly check-up of the state employment service shows.

The total jobs obtained for unemployed by the state service has been creeping slowly upward in 1939, the survey indicated.

In March, 7,819 jobs were found, said Lewis G. Hines, secretary of labor and industry. Of that number, 4,794 or 61 per cent, went to women, mostly in personal or domestic service, and 3,025 or 39 per cent went to men.

The manufacturing industry took most of the men rehired, accounting for 38.7 per cent of the 3,000 jobs.

The employment service placed 4,802 persons in January, 5,417 in February, and 7,819 in March. At the same time 43,741 asked for unemployment compensation in January, 51,241 in February, and 56,169 in March.

The total number placed each month is a tiny fraction of the number of applications for jobs, however, which totals nearly 1,000,000 persons since the combined unemployment compensation and employment service opened in the state a year and a half ago.
