

COUNTY AND TOWNSHIPS WILL GET \$39,410 FOR CAMBRIA HIGHWAY WORK

Second class townships in Cambria County will receive \$39,410 each year for maintenance and improvement of roads under the terms of the amended Holstrom Act, according to W. E. Waters of Hollidaysburg, district township road engineer of the State Highway Department.

Mr. Waters said his department's record showed there were 563 miles of second-class township roads in the county. The supervisors must first provide for maintenance of the roads. If there are any funds left, Mr. Waters said, the money can be used for new construction, construction of bridges or resurfacing.

The engineer told the supervisors

the money from the state cannot be used for the payment of debts or administrative purposes. Under the amended act the board of supervisors in each township must appoint a township foreman, who may or may not be a member of the board.

Payments will be made to the township treasurers in two equal installments, the first on July 7 and the second November 1. Mr. Waters said the supervisors are required to make a report to the highway department of their expenditures on July 31, October 31 and December 31 each year.

Ernest Griffith, president of the Cambria County Supervisors, Auditors and Good Roads Association, presided at the meeting.

Indiana Firm Bankrupt.
