Do You Know?

Health insurance schemes abroad do not take care of the indigent, have not reduced the death rate—but have reduced the physician to a lower place in the educational scale. The present American competitive form of private medical practice avoids the ill effects of politics in medical service in or out of the hospital and cares for all classes of people with very much better success.

Don't overlook the values offered by Wolf Furniture Co., on pages 2 and 3.

Testing for Fresh Eggs.

To test for the freshness of eggs, place the egg in a pan of water. If fresh it will lie on its side. If a few days old it will tilt upwards. If stale, it will stand on end. If very old, it will float.
