PAY ACT COURSE TO TRAIN MEN AS INSPECTORS

Washington.—Wage-Hour Administrator Elmer F. Andrews is wrestling with the problems of a school master these days.

In its closing hours, Congress voted a deficiency appropriation of \$1,200,000 for the Wage-Hour division, and it is all to be spent on law enforcement—the division now finding itself with 10,000 unanswered complaints of violations on its hands.

With this money Andrews will be able to increase his force of inspectors to 500 on this litigation force to forty lawyers. But one trouble is that an inspector in this kind of work isn't much good until he has had some training. And Mr. Andrews is going to have to start his own schools to apply the training.

There will be four of them—in New York, Chicago, San Francisco and Atlanta—and they'll be in operation by the first of September. New inspectors will spend about ten days on their schooling—listening to lectures and getting general instructions, with older inspectors as the teachers—before they go out on the road.

The new inspectors are being chosen from the list at the Civil Service Commission offices, where the applicants took their examination.

Before going to school, most of the applicants will be sent out for field work in company with older inspectors so that they can get a first hand glimpse of the job before they start studying about it.

It is no secret that the Wage-Hour Division feels mightily relieved over passage of the deficiency appropriation. It looked, for a time, as if the money would be denied, and officers of the division predicted that the entire law would collapse of its own weight if the money were not forthcoming.

The compliance record has not been good so far, and they were afraid if it got much worse all chance of ever enforcing the law would be gone.

MOUNT ALOYSIUS, SCHOOL OF DISTINCTION, OPENS A NEW JUNIOR COLLEGE

September 23 is the date scheduled for the opening of Mount Aloysius Junior College. On this day girls seeking higher education in the fields of liberal arts, Secretarial Science, Home Economics, Public School Music and Pre-Nursing will be welcomed within this long established institution.

Mount Aloysius was established in Loretto, Pennsylvania, in 1853 on the site bequeathed by the Rev. Prince Demetrius Gallitzin, the Russian nobleman who founded Loretto in 1799. In 1897 the Academy was transferred to the present buildings at Cresson. Through the years the school has anticipated the needs of the student and now opens its junior college. By this step forward into higher education it will offer to girls in the immediate vicinity an opportunity to attend college and enjoy home life; to those whose homes are located farther from the college it offers a splendid residence hall in an atmosphere of study and of play.

Bordered by the beautiful ridges of the Alleghenies, situated on the William Penn Highway, and the main line of the Pennsylvania Railroad, the school has a convenient, picturesque location. In this climate, 2100 feet above sea level, there are convenient athletic facilities which bring zest for successful school work. A spacious campus provides ground for these activities. Of this climate a state health physician says: "The resistance to disease gained by a few years' residence in Cresson is almost unbelievable."

Many girls have already taken advantage of the opportunities presented and have enrolled in the courses offered.

Do You Know?

Proponents of a system of compulsory health insurance have stressed the medical plight of the people. With the death rate steadily declining and the average span of life being steadily lengthened under existing arrangements it is difficult to see how the people in the United States have been medically neglected.

Since 1929 the decrease in the general death rate until 1937 has been 7 per cent. In the same period the maternal death rate has been decreased 30 per cent.

THE PLACE TO TURN FOR BUSINESS ADVICE

While we realize that you know your business better than any one else, you may at some time feel the need for some outside advice on a particular business problem. We urge you to make use of our experience and facilities at all times. This bank is always ready to make loans to sound businesses.

Use Are A Member of the FDIC.

GEO. C. HOPPEL
DEMOCRAT .∴ FOR
County COMMISSIONER

SOLICITS YOUR SUPPORT FOR THE OFFICE, AND IF NOMINATED AND ELECTED WILL SERVE THE OFFICE WITH FIDELITY AND WITH THE SAME INTEREST HE HAS GIVEN HIS PRIVATE ENTERPRISES FOR THE PAST THIRTY YEARS.

Four years ago Mr. Hoppel was the runner-up in the Democratic Primaries for this same office. He supported the ticket as nominated, and has always been an active worker in the party interests. This year he is the only candidate of the party from the North of Cambria County seeking nomination, and feels, with his friends, that the North of the County is Entitled to Representation in the Commissioners' Office. Fair to all, Mr. Hoppel bases his candidacy on his experience gained as a lumber dealer and building contractor for well over a quarter of a century.
