The endeavor of the Union Press-Courier is to sincerely and honestly represent Trade Union Workers in efforts to obtain economic freedom through organizations as advocated by the CIO and AFL, and we solicit the support of trade unions. Material for publication must be authorized by the organization it represents and signed by the President and secretary, and bear the seal.

The Union Press-Courier gives its advertisers the advantage of the combined circulation of the two largest circulated weeklies in Cambria County and has a reader coverage that blankets Patton and the major mining towns.

From time immemorial, from the time when Republicans first became a political power in Cambria County, from the time they were in their zenith of power, and from the time they were in their decline in political power in Cambria county, the Republicans of the northern part of Cambria county have always been played for a bunch of suckers by their Republican brethren of the south of the county, and the Johnstown area and once again when the nominations were made at the primary, the same old rule still proved to be just as good and true as ever. "No candidate from the northern section of the county" (at least north of Ebensburg, should be permitted to grace the good old court house at Ebensburg. It might prove contaminating. In the September primaries, north of the county Republicans made an honest effort to nominate some candidates, but, as usual, they got it in the neck. Even to the extent of nominating weak candidates from the south of the county, were good men in the Republican camp turned down decisively by their brethren. Hence, at some of these Republican political rallies it must be a bit galling for some of the party workers to get so very enthusiastic about the ticket, at least as a whole.

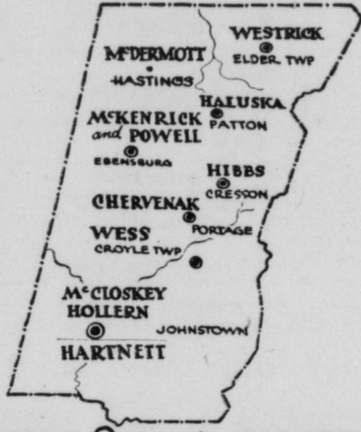

Democratic voters in the south of the county were not quite such selfish folks. They helped the north of the county nominate a truly representative ticket—a ticket composed of candidates who live and come from all parts of the county. Up here in the extreme north (where no Republicans ever land a nomination) the Democrats have three nominees, in the persons of Coroner Patrick McDermott, up for re-election; of Dennis L. Westrick, who has made such a fine record in the assembly, for county controller; and in Senator John J. Haluska, who will be elected the next treasurer of Cambria County. And, like it or not, there are many Republicans who will vote for these men for the simple reason that they are the only men who live close to them, whom they have personally known for years, and who also feel that the north of the county is entitled to be represented at Ebensburg.

Next Tuesday is election day. We ask voters to glance at the map of Cambria county, and see how representation is accorded by comparing Republican thought and Democratic belief. In the Republican county map you will find the names of all candidates hinging in the Johnstown area, with one bare exception. And the bare exception is no farther north than Ebensburg. A glance at the Democrat map reveals the very best of apportionment geographically. As mentioned above, there are three candidates living in and to the north of Patton; two come from Ebensburg; another from Cresson; the next from down at Portage, and another farther south, from the township of Croyle. That leaves but three to be accounted for, and these three do live in Johnstown, and do complete one of the most representative all county tickets ever placed before the voters of Cambria.

And, because this newspaper pins all its hopes and all its humble help in the cause of organized labor, and in the furtherance of the aims for better wages and better living conditions for the man and woman who toils, it is heartily in accord with the indorsement given by Labor's Non-Partisan League last Sunday afternoon to the entire state and county Democratic ticket. Labor can not be given blame for the stand it is taking in a black-out of Republican nominees. What the James administration in this state has already done to cripple the legislation labor sought for years, and did obtain in the recent Earle administration, is sufficient cause for them to look askance at perhaps every Republican nominee on the county ticket, for the reason that it can be concluded that all of them are likely with the James reactionary administration in its "achievements" to do all it can for capital and take away what it can from labor. There is every reason for labor to believe that the Republican nominees in Cambria county, last year, were supporters of the Republican ticket. There is every reason to believe that there thoughts still remain in harmony with what the state administration has done. Individually, they'll tell labor "they are not respon-

for COUNTY TREASURER
- DENNIS L. WESTRICK  
for COUNTY CONTROLLER
- JOSEPH C. WESS  
for CLERK OF COURTS
- PATRICK McDERMOTT  
for CORONER

The above picture proves the selection of the Democrat Nominees, was wisely made by the Voters of Cambria County—Geographically. All parts of the county is represented. All candidates have proven themselves capable and honest.

The opposition, the Republican Nominees, were all selected in order to try re-elect Dan Shields Mayor of Johnstown. Representation for the county was forgotten by the Republican slate makers.

sible for the Governor's doings, and they are candidates running on their own merits." But, let a Republican victory come to Cambria County, and it can only come if and when a large percentage of organized labor helps, and you can well rest assured that Labor won't get any credit, or any help, or any more consideration from those victors than they have in the past. If there hadn't been a lot of organized workers who had faith in Judge James last year, and voted for him, despite warnings from their leaders, their protection and security today would be in better shape and the jeopardy of still further encroachments on legislation beneficial to their interests would not be evident.

Hence, in the north of the county, we ask, what have the Republicans to offer that should entice the voters of the Democratic faith, or even, for that matter, of their own faith? Only this—a nearly entire complete slate that comes from the Johnstown city area, who won't consider our local interests to any great degree, if elected, plus one lone candidate from Ebensburg, who we grant, is fully capable, but who is competing a tried, true and honest hard-working Judge, now serving his first term on the common pleas bench, and who is entitled by his conscientious service, to re-election. Incidentally, the Republican contender for the Judicial honors, was the Chairman for Judge James in his primary campaign last year, was the county Republican chairman at the election last year, and is still the Republican county chairman, although inactive because he is a candidate. You laboring men and women, who have every cause to condemn the activities against you made by the James administration, can judge for yourself whether or not you want Governor James' "No. 1 man" in Cambria County elected or not.

And, while the election so far has had some whispered and other malicious propaganda injected, as yet, it has all been done under cover and by word of mouth—and these stories, coming from either side, should be taken in at one ear and ejected immediately through the other. Of course there are misleading statements in the Republican press relative to a "special" election that would have to be held in the event that a State Senator and two assemblymen might be elected to county offices, and all the attendant expense that would be incurred because of this fact. Which is all BUNK. These officials have already completed their duties unless a special session of the legislature is called next year, and then, the legislature and senate judge for themselves what they want to do. But, at any rate, you can rest fully assured there will be no special election. The story, of course, makes good Republican campaign material—and material is something that is sadly needed in the county Republican camp.

Republican weekly newspapers in this county are shouting, and printing, "Vote the Straight Republican ticket. Why, we ask you, should any one who toils for a living, or anyone else vote the straight ticket? We aren't advocating any such a thing, but we do ask you to compare, man for man, the candidates on both tickets, and what has been their attitude toward labor, what has been their attitude to James' administration, what has been their record of the past, and for your own sakes, vote for the men who are for YOU—and not only for you through lip service. Governor James gave you lip service last year, and you know what you received.

And, too, if at the last minute, there appears any matter of an unsavory nature attacking any candidate of any party, you know what to do. Printed matter of this kind is executed for only one purpose—to fool you at the last minute, when you have no chance to learn the truth. You can rest assured our office will print nothing of that nature, regardless of party.

**PUBLIC SALE.**

Ed Karlheim will offer at public sale at his farm, two miles south of Patton, on the Eckenrode Mill-Chest Springs road, on Saturday, Nov. 11th, starting at 12 noon, all his live stock, farm machinery, and equipment, etc. See posted bills.

**COAL INDUSTRY IS GIVEN A WARNING ON THE WAR BOOM**

New York.—Secretary of the Interior Harold L. Ickes, counseled the National Coal Association last week to safeguard the industry against the danger of a war boom and resultant peace time reactions.

Delegates to the 22nd annual convention of bituminous producers, representing 75 per cent of the total commercial tonnage, heard the cabinet member say that "coal operators alone among the industrialists were in position because of the Guffey Act," to cope with the economic aftermath of an European war.

"You are ready to enjoy whatever benefits you may derive from a possible war boom with comparative confidence that you are not neglecting your long time interests," he said in an address carried by the National Broadcasting Company.

Ickes said the coal act enabled producers to "protect themselves against the too-great hazards of an unpredictable future."

"If a war boom should come you can face the possibility of a post war depression with an assurance that there will be a bottom to your prices for coal—a level which can be readjusted, but which cannot drop so low as to bring ruin and destruction to you, your stockholders and your workers."

After Ickes spoke the Committee for the amendment of the coal act asserted it was impossible for the federal government to fix the price on each and every sale of bituminous coal.

The committee favored for conservation purposes and protection against unstable conditions the Allen bill now pending in congress rather than the present act.

Next Tuesday is general election day. It is your duty to vote. It is your duty, too, to vote as you please. But, above all, vote.

**CHILDREN HAVE RIGHT TO HEALTH AND WHAT CONDITIONS AFFORD**

What of the children of Pennsylvania?

We are speaking of children who belong to families on relief.

They have as much right to health and happiness as others.

The Child Health Committee of the Medical Society of the State of Pennsylvania has been doing something about these children.

Its report for the first seven months of this year is enlightening.

A total of 11,365 children were examined.

More than 36,600 defects were found. And 21,087 defects were corrected.

For instance, 7,615 dental defects were found and 5,323 were corrected.

Because 7,947 children had not had diphtheria immunization, 5,669 received this preventative.

There were 1,641 tonsillectomies performed.

Of the malnourished children, 981 were given supplementary diets and treatment.

Nasal defects were corrected in 662 children.

Glasses were given to 769 children who needed them.

Ear defects were treated in 171 cases.

Postural or orthopedic defects were corrected in 199 cases.

Thirty-two children were found with bad heart conditions and were given treatment.

Lung infections were treated in 129 children.

This is but a partial report of the work being done by the Child Health Committee of the State Medical Society.

Children need the right start in life.

**FATHER ZAZZARA OF ALTOONA DIES**
