**Lives 3 Days on Theory:**

**Hope Father of Thought**  
PARIS.—An amateur psychologist in a Paris suburb has been living in regal style for three days by exploiting the public state of mind. He would rush into bars announcing that Adolf Hitler had been assassinated and that he was thirsty. When police caught up with him and advised him to stop his campaign, he told with pride that he had not paid for a single meal nor drawn a sober breath for three days.

**Fort Bliss to Be  
Army School**

Will Expand Reservation as  
Laboratory for Big  
Problems.

EL PASO, TEXAS.—A vast cavalry laboratory of 51,300 acres for U. S. army training will be added to the Fort Bliss military reservation here under an authorization act passed by congress and signed by President Roosevelt.

An army land acquisition board is expected to survey the area within the next few weeks for selection of the acreage to be purchased as the first step in an expansion of the post. The proposed enlargement under the present authorization act would extend the military boundaries north and east to include terrain which is ideal for cavalry maneuvers.

**Terrain Considered Ideal.**

This area was selected for the enlargement program, which it is hoped ultimately will comprise 150,000 acres in Texas and 350,000 in New Mexico, because of military advantages not as easily obtainable in other sections of the country. Scattered population, accessibility to water and forage, climatic conditions and proximity to rail and highway were considered in the selection.

Although exact outlines of the authorized 51,300-acre acquisition await determination by the army land board, the area will include mountainous regions, foothills and level terrain—providing all types of land conditions for use in cavalry movement as well as for reconnaissance and scouting. Thus the territory will provide tactical officers with a vast laboratory for working out cavalry problems.

The scattered population of the desert area will enable long range firing practice for artillery and troops as well as bombing and ground strafing ranges for army airplanes.

**Further Extension Sought.**

Chamber of commerce officials here, under the leadership of W. H. Peterson, president, and Capt. E. H. Simons, secretary, have pressed congressional and war department officials for enactment of the expansion plan. They hope within the next few years to encourage further land purchases by the federal government for enlarging Fort Bliss for an additional 500,000 acres. The land in New Mexico, of the same type as that to be acquired under the present authorization act, is largely federal and state domain and could be acquired at a relatively nominal cost, Peterson said.

With the post enlargement, the chamber of commerce head sees a probable increase in the number of officers and men stationed at Fort Bliss, strategically located on the Mexican border halfway between the Pacific coast and the Gulf of Mexico.

Peterson's present goal is a full

corps of cavalry, whose mobility on the trackless desert along the border has not yet been proved inferior to any other armed branch, including mechanized forces. Ultimately he hopes to see a concentration of U. S. cavalry tactical schools at the site of the vast field laboratory.

**Sweden Increases Sales  
Of Prefabricated Houses**

STOCKHOLM.—Sweden is exporting the prefabricated houses which have steadily increased in popularity among its own people in the last few years. Official figures show that production increased from 1,546 units in 1933 to more than 5,000 in 1938. Two main classes are manufactured. One is the light summer cottage type. The other is the fully timbered house, manufactured in all types, including bungalow, cottage

and villa for which cement and brick foundations are required.

**Story Contest Won  
By Blind Girl, 18**

SEATTLE, WASH.—Eighteen-year-old Marion J. Anderson lives in a world of perpetual darkness.

Yet the blind Seattle girl's rich mind conceived a story of a butterfly and so glowingly put it down on paper it won first place in a nationwide contest.

The story, a fairy-tale entitled "How the Butterfly Got Its Name," was selected as best in a short story competition conducted by the Braille Searchlight Magazine, published in New York.

**Navy Shipmates Meet;  
Recognition Fails Both**

OKLAHOMA CITY, OKLA.—Deputy Sheriffs Jack Sudberry and Al Croaker had worked side by side for six months. Recently, they answered a call to pick up an intoxicated driver near Lake Overholser, the Oklahoma City water reservoir. As they approached the lake, Croaker saw a motor boat operating at high speed.

"That's the life of Riley," he told Sudberry. "I got a lot of that in the navy."

"I was in the navy, too," Sudberry said. "What boat were you on?" Further conversation disclosed that the deputies were shipmates on the U. S. S. Beaver, a submarine tender, during the World war. They served on the same boat for a year.
