

PENNSYLVANIA MOTORISTS WILL NOT BE INCONVENIENCED IN DEC.

Pennsylvania motorists this year can look forward to a Christmas and New Year season free from the inconvenience of renewing motor vehicle registrations...

Coincident with the three month extension of registrations, the Federation reminded, however, operators licenses must be renewed before the end of next month...

The revised license years constitute one of the most progressive steps Pennsylvania has taken to aid motorists...

Starting this year Pennsylvania motorists no longer are compelled to buy new license plates at a time when they would much prefer to spend their money in the care free observance of the Christmas-New Year season...

When, too, it distributes among all motor vehicle owners a 1939 Christmas present worth several millions of dollars—three months of free driving on current license plates...

fees for five months registrations and quarter year fees for two month registrations being abolished.

"Current (1939-40) operators' licenses are valid until midnight January 31."

"New (1940-41) cards must be carried on an after February 1."

"Current (1939) motor vehicle registrations are being issued from now until midnight next March 31, at one-quarter of the annual fee."

"1940-41 registrations must be used on and after next April 1 and will be sold at the full year fee until September 30."

"From October 1 to December 31, the 1940-41 registrations will cost one half the annual fee, and"

"From January 1, 1941, to March 31, 1941, the 1940-41 registrations will be sold at one-fourth the annual fee."

Think of Children, Not Only Yourself, When Buying Toys

Don't buy the toy just because it pleases your fancy. Keep the child in mind, too. Miniature dogs with wagging tails are fascinating to parents but they won't keep the child happy very long.

Keeping in mind the child's age and taste, durability of the toy and a few well-chosen scientific principles, the offers these rules to you who are Santa Clauses this Christmas:

1. Choose toys which stimulate the child's imagination, rather than the child's imitation, rather than

mechanical toys. Toys that run by hand are an example.

2. Choose toys which help children exercise their large muscles, like large blocks, trapezes, boards to fit over saw horses, roller skates, sleds, bicycles and other athletic toys are also good.

3. Find toys that don't break easily. If you buy tools, be sure the hammer head won't fly off. Inexpensive miniature automobiles may break down after a few trips around the parlor floor.

4. Buy games of skill, not of chance. Select games involving counting and building.

Santa's Gifts Censored

In S. Africa This Year They've cramped Santa Claus' style this Christmas in South Africa. Little Jannie may ask for a toy pistol and little Piet may want a box of lead soldiers.

Toy soldiers, guns and tanks and other toys are now banned by the Union.

The reason: A recent outbreak of violence by young criminals frightened the legislature into barring any toy resembling a weapon, particularly a revolver. Water pistols are barred, and even the little Neracoon cap pistols are taboo.

City Christmas

Shining down on Chicago's Lake Michigan shoreline, the Christmas tree is taller than ever before. It stands 110 feet high in Forest Park, which is a notable feature in the city's holiday decorations.

HEALTH FOLKS HAVE TALKED TELL ON THE HARMS OF 'TICKLING' 'My slides are getting so that I'm a teacher.' 'You say me with your job?' 'I'm tickled to death.' 'How do these are tickle conditions?' 'I'm tickled to death.' 'But what about tickling?' 'They are not good.' 'And why cannot tickle?' 'There are two kinds of tickling. One is tickling with a hand and the other is tickling with a foot. The hand tickling is good and the foot tickling is bad. The hand tickling is good because it makes you laugh and the foot tickling is bad because it makes you cry.'
