stroy life and property." Residents were advised to be suspicious of all unordered and unempected packages.

"Unless you are an executive of a manufacturing plant, a ranking government officer, a legislator, a journalist or writer active in the expression of your views on controversial subjects, it is very doubtful that the unknown package received by you will be a bomb," the police said.

A minimum distance of 35 to 10 feet was suggested as a safe distance from any suspicious package. Persons were advised not to investigate, touch, handle or attempt to open, such a box or container; not to put it in water, or throw a stream of water on it.
