The Roosevelt administration suffered one of its worst defeats in Congress the other day when the House Ways and Means Committee killed the proposed \$300,000,000 Job Insurance program to aid workers temporarily displaced while industry shifts to full war production.

The vote by which the Congressional Reapportionment Bill passed the State House of Representatives last week was 163 to 17.

The U. S. Senate last week voted to repeal the Congressional Pension Plan—a fast piece of legislation put over at a time when the public wasn't looking—and now the House will likely follow suit.

The proposed weekly allotment of 12 ounces of sugar per person under the rationing program may be cut to half a pound because of unfavorable war developments.

The Red Cross has collected almost 100,000 pints of blood from volunteer donors who hope thus to save the life of some American fighting man wounded in battle, and the rate of volunteer blood donors is going up.

A hoarder is a person who wants to have an edge over his fellow citizens to the extent of having an abundant supply of things on hand when there are not sufficient stocks available to supply all his neighbors during a war time emergency. It is a hysteria, it is unfair, and above all, it is unpatriotic.

A four-way fight for the Democratic nomination for Governor of Pennsylvania is forecast with these candidates: Common Pleas Judge Ralph H. Smith of Pittsburgh; Auditor General F. Clair Ross; Luther A. Harr, former Philadelphia City Treasurer; and William C. Bullitt, of Philadelphia, one-time ambassador to France.

In a move to obtain extensive collective bargaining rights for all employees of the Lorain Division, Carnegie-Illinois Steel Corporation, the SWOC has petitioned the National Labor Relations Board to conduct an election at Johnstown, union officials disclose.

Tire thieves have put in an appearance in Barnesboro, and they may be after your tires, particularly if you let it parked outdoors nightly.

Teachers not only in Cambria county, but throughout the state, are expressing disappointment that Governor James did not include some relief legislation for their inadequate salaries at the Special Session of the Legislature. In some of the smaller districts competent and outstanding teachers are resigning to take up offers in larger districts where the rate of wage is more remunerative.

JAMES' WAR POWERS BILL APPEARS DOOMED IN STATE LEGISLATURE

Harrisburg.—Governor Arthur H. James' demand for sweeping wartime powers to suspend or modify any state law is headed for certain rejection by the state legislature on the ground that it would create a "super-government" contrary to state constitution.

Doubts about the wisdom of such legislation are just as strong among Republican as among Democratic members, and the administration measure may not get out of the Republican senate to face certain defeat in the House.

As an alternative, some legislators are considering a move to keep the Legislature in recess, subject to call, after the business of the present special session is finished, to perform any necessary legislative functions that Mr. James asked be transferred to him for emergencies.
