

ROAD SUPERVISORS IN CONVENTION AT THE COUNTY SEAT

Officers Elected, Resolutions Are Passed; Annual Business Is Taken Care Of.

Election of officers and the adoption of four resolutions—one asking the state highway department to reimburse townships for expenditures resulting from snow removal from state highways during emergencies—the annual convention of the Cambria County Supervisors, Auditors and Good Roads Association last Thursday at the Ebensburg Court House.

Tabulation of votes revealed the election of A. P. Norton, Lower Yoder Township Supervisor, as president of the county association. He was elected to succeed E. L. Giffon of Richland Township who was elected vice-president.

John S. Springer, of East Carroll Township, veteran secretary, was elected for his 14th consecutive term and D. H. Weimer, Upper Yoder Township, was reelected treasurer. Springer also was elected as delegate to the state association convention.

The nominating committee was composed of Dan H. Weimer, Upper Yoder Township; John Eise, Croyle Township; Ethel Diamond, Johnstown E. D. 2, and Victor Denny, Albeghney Township.

In adopting the resolution asking the State Highway Department for reimbursement for snow removal on state highways, the supervisors pointed out that on numerous occasions this winter their equipment was placed into service on state highways while township roads still were blocked with snow.

Opposition was voiced to a move by the federal government to place taxes on state and municipal bonds in another resolution adopted.

Copies of the resolution were ordered forwarded to Pennsylvania's 2 United States Senators and to Congressman Harvey Tibbitt of Ebensburg.

In the third resolution, the supervisors and auditors pledged 100 per cent cooperation to the state and the county councils of defense and in the final resolution expressed thanks to Governor James and the 1941 State Legislature for the appropriation of \$8,500,000 for township roads.

In the principal address at the morning session C. H. Buckius, assistant secretary of the State Highway Department pointed out that Pennsylvania's highways are adequate to meet any war emergency.

Other speakers included former sheriff Cyrus W. Davis, E. J. Parabagh, W. E. Waters, of the State Highway Department, O. Van Riper, highway engineer, and H. A. Thompson, secretary of the Township Association of Supervisors of Pennsylvania.

DOG MANGE

The Bureau of Animal Industry of the State Department of Agriculture at Harrisburg today said a recent discovery that a drug extracted from germs root has shown remarkable effects in mange in dogs. An early diagnosis of the disease is essential and proper application of the new preparation has been claimed to effect a complete cure in a large portion of cases treated.

FISH STOCKING MAY BE PORTAGE LEGISLATOR IN POPULATED SECTIONS PRIMARY CANDIDATE

Shortages Caused by War Effort Will Prevent Sportsmen from Traveling

Emergencies call for the unusual, and that includes fishing as much as any other activity in everyday life. "Frozen autos," rationing of tires and gasoline, are certain to keep fishermen comparatively near home. Consequently, the waters nearer to the heavily populated areas are bound to be fished far more heavily than during previous seasons. Increased competition for the available fishing means a proportionate reduction in the sport. To offset this situation, a departure from the usual stocking program will have to be put into effect—namely stocking of the waters which must bear the brunt of the fishing, reducing the planting in such waters as may see few fishermen during the coming months.

In highly-industrialized sections, which concentrate the largest number of fishermen, are busy turning out the weapons of warfare. Time out to enjoy a jaunt in remote sections will not come as often as in the past. This, in addition to the restrictions already in effect, means that if fishing is to be enjoyed at all, it must be done within a reasonable distance from home. Under such circumstances, it is logical that the waters which are to be fished receive the bulk of the stocking.

MICHAEL C. CHERVENAK, JR.
Assemblyman Michael C. Chervenak, Jr., of Portage Township, has announced his candidacy for renomination and election to the State House of Representatives from the second Cambria County District.

Assemblyman Chervenak had over a period of several successive terms rendered conscientious public service to his constituents, and now being a senior member of the House, stands in a position to receive recognition of particular benefit to the district he represents.

During the 1941 session of the legislature Assemblyman Chervenak was a member of the powerful steering committee of the House, and was the Chairman of the Counties Committee, with the result that much vital legislation passed through his hands.

Assemblyman Chervenak has been a friend of organized labor, and his record in the last session was 100 per cent in their support.

Mr. Chervenak has served in various civil capacities in his home community, has served on the Portage Township School Board, taught school for a number of years, was engaged in the mercantile business for a long period, and has been active in many civic affairs over the county.

COUNTY GAS DEALERS' PRICE CEILINGS FIXED

Organized retail gasoline dealers of Cambria County have planned a night blackout of service stations.

As an order was given to freeze price levels at those of March 13, R. A. Wagner, president of the Cambria County Retail Gas Dealers Association, said that the curtailed operating schedule was adopted to comply with the order limiting service station operation to 72 hours in any one week.

Wagner predicted that the dealers would be 100 per cent satisfied. A ruling is to be established making the standard price of gas 20.5 cents per gallon. He stated that these prices give a 100 per cent margin of profit.

Service stations affiliated with the organization starting on Monday last, are open from 8 a. m. to 8 p. m. on Monday, Tuesday, Wednesday, Thursday and Friday. Saturday operating hours will be from 7 a. m. to 7 p. m. and on Sunday the public will be able to buy gasoline from 7 a. m. until 5 p. m.

Wagner said that the attitude adopted during a long meeting of the association last week, has not been definitely extended to apply during the week beginning March 26th. He indicated that such an extension will be contingent upon public reaction in the try-out period.

Plans for emergency service to trucks through traffic and persons on urgent missions have not been suspended. However, Mr. Wagner realized that a satisfactory system was worked out during the first gasoline shortage period.

—Too little, too late, too bad! You still have time to buy bonds and stamps for the war effort.

INCREASES URGED IN TEACHER WAGES

Immediate salary increases for approximately 1,300 teachers in third and fourth class districts in Cambria County was requested last week by Joseph W. Staley, Jr., newly elected president of the Cambria County Branch of the Pennsylvania State Education Association.

Staley, in making the request, urged the future of the state legislature to take any action on salaries in its special session and said that the matter must now be taken up by each board. A blanket increase is being advocated, he said, in order to avoid discrimination.

The P. S. E. A. board declared that it is the moral obligation of the boards to meet demands of the teachers for higher salaries and pointed out that the steadily increasing costs of living have made serious inroads in the buying power of teachers.

He also said that higher income taxes on various commodities are cutting into the teachers' wages tremendously and warned that many teachers are leaving the profession, not because they want to, but in order to support their families adequately.

The Edmonds salary schedule, enacted at the close of the last war, Staley pointed out, does not provide sufficient income in these days to compete with opportunities for employment in industry nor to meet the demands made upon teachers.

WEDDING BELLS

LEIDEN-WORTEN
The marriage of Miss Kate Rudy Worten of Oklahoma to Mr. Cyril Edwin Leiden, son of the late Henry and Jane Leiden of St. Lawrence, was solemnized March 7 in St. Basil's Catholic, Los Angeles, Cal.

Mr. Leiden, nephew of Mrs. P. J. Kelly of Patton, is well-known in this section. He is a graduate of Georgetown University and is a lawyer.

The former Miss Worten is also a lawyer, and is a graduate of Oklahoma University. Her brother is a judge in that state. The couple will reside in Los Angeles.

—Our boys at the front need a steady flow of supplies. You can assure this by systematic purchase of U. S. Defense Bonds and Stamps.

BAKERTON BOY ADMITS ATTACK ON MRS REED

State Motor Police have reported that Carl Washland, 20, of Bakerton, has admitted slugging and attempting to rob Mrs. Helen Reed of Bakerton early last Thursday. Washland was jailed in the Cambria County jail after

pleading guilty to charges of robbery and with assault with fire at a hearing before Justice of the Peace Charles P. Lovvint inasmuch as

Miss Reed was slugged on the head with a piece of pipe as she stepped out of her car in her garage at Bakerton shortly after midnight Thursday. Dazed by the blow, she afterwards

managed to fight off her assailant and her screams caused him to flee.

Must Have Certificate After April 1 no one may obtain a job in the mines in the State of West Virginia without a state certificate except apprentices.

How are Your Eyes?

If they are able to see easily and clearly, you're lucky. But every year the odds grow greater against you. Statistics show that if you're 20, the chances are 3 to 1 that your eyes are imperfect, 4 to 1 if you're 30, and 10 to 1 if you're over 50.

Eyestrain, caused in most cases by poor light, is the reason for much eye trouble. One of the surest ways to guard against it, and protect your sight, is to have proper light in your home and your place of business. To use your eyes in comfort, you need good light in every lamp. One way to make sure of eye-saving light is to light your home with modern I. E. S. Lamps. These lamps are scientifically designed to give better light for better sight.
