WPB NOT TO ASK CHANGE

The War Production Board has no ntention of asking that all clocks in the Nation be set up another hour during the summer months, J. A. Krug, chief of the power branch, has disclosed.

He explained that advancing time pieces a second hour during the summer would yield only a fraction of the substantial power savings gained through establishment of war time by presidential proclamation in Febru-

ary. Certain stateo might take action, but nationwide action is remote unless power shortages become more critical than anticipated.

MUST TRADE IN OLD TUBES TO GET MORE TOOMPASTE

That tube of shaving cream or tube of toothpaste may be empty, but don't throw it away if you want to buy an-

The WPB ruled Tuesday night effective at once that retail purchasers of toothpaste or shaving cream packed in collapsible tubes must turn in a used tin, tin-coated, or tin-alloy tube of any kind for each new tube

they wish to buy. The regulations are part of a general curtailment on the use and production of tubes for packing foods,
