

POOL USE OF CAR BY DOUBLING UP

Harrisburg.—An appeal was made during the week by T. Elmer Transseau, State Rationing Administrator, to Pennsylvania motorists, using their cars for work to carry their friends and neighbors along.

By the elimination of individuals riding in their cars alone gasoline and rubber can be conserved for the war effort, the administrator says.

"If several workers travel to and from employment virtually over the same route," the Administrator said, "each in an otherwise empty car, they are wasting rubber and gasoline. In addition they are wasting through needless wear and tear on motors."

"Neighbors and worker groups can help themselves, as well as the War effort, by pooling the use of their cars. In addition, we all should make greater use of public transportation facilities when they are available. For distances that are not too great use the bicycle or walk."

"By leaving the family car in the garage when it is not absolutely needed, we can greatly extend its term of usefulness. The motor vehicle now used by the average Pennsylvania will have to last for the duration and then some. The practice of many American families of getting a new car every year is out until we win the war."

"Last year according to figures of the Federal government approximately 72,000,000 passenger car tires were sold in the United States. This year the war production board has allocated only 1,600,000 such tires to a very limited category of eligible users. That number for the nation is far less than the annual needs of

Pennsylvania, so it is essential that the tires on about 90 per cent of the passenger vehicles will not and cannot be replaced.

WORST FOREST FIRE SEASON IN FULL SWAY

George H. Wirt, Chief Forest Fire Warden of the Department of Forests and Waters, warns that Pennsylvania is threatened with the worst season for forest fires in several years.

A few fires have occurred already and have damaged timber which is of vital importance to the Nation's war effort," Wirt said.

"Fires should not be started outdoors without the very best of reasons. Most of the war industries, the training of our armed forces, the shipment of food and supplies and equipment to the fighting fronts are dependent in no small way upon uninterrupted production of wood in raw and fabricated forms."

"It is estimated that the wood requirements for each man in the armed forces of the United States are 5,000 board feet of lumber. The lumber used for crating a large bomber that is to be shipped abroad would build a five room house. It requires 1,000 car loads of lumber to build an army camp."

CAMBRIA COUNTY HAS 644 SUPPORT CASES AND RATE OF COLLECTION VERY HIGH

The rate of collection in Cambria County's 644 non-support cases is extremely high. Probation officer John A. Reese told a combined luncheon meeting in Johnstown the other day of the Cambria County Welfare Committee of the Public Charities Association and the Council of Social Agencies.

Reese presented a statistical report on the work of his office and declared among other things that maintenance is secured in nearly 100 per cent of the cases involving children of unmarried parents.

PLEDGE YOUR FAITH

BY RUTH TAYLOR.

If you glory in the past— If the story of the great trek of the freedom hungry people, of their turning from the tyrannies of Europe to an unknown continent; if the saga of their carving a home out of the virgin wilderness, of the rise of this rich land of ours, whose very name—the United States of America—breathes the effort of men to work together in mutual understanding and cooperation; if these tales move you, give you inspiration and courage; if you feel the glory of the past heritage of this country of ours—

Then for the preservation of that glory, for the preservation indeed of the very ideals for which those pioneers fought and died, then—in equal spirit with those men who said "millions for defense, but not one cent for tribute"—

If you believe in the present— If the democratic way of life means anything to you; if you have faith in a republican form of government, in majority rule and minority rights; if you wish to live and work as free men and not as serf labor; if you believe in the sanctity of the home and family and in the right of individual enterprise; that the state is made for man, not man for the state—that the obligation of citizenship means equal treatment for all without regard to race, creed or color; if you hold that man should be free to worship God according to the dictates of his own individual conscience; if you believe in the Bill of Rights and its practical application—

Then prove your faith. If you can fight—fight. If you are needed for Defense work—work to the extent of your strength and ability—and then some. And whatever you do—help supply the sinews of war.

Pledge to buy U. S. Savings Bonds regularly.

If you hope for the future— If you wish to see the dawn of a new day when the Four Freedoms become the basis for a new world order of free men; if you wish the world of tomorrow to offer to your children an opportunity greater than your own for growth and knowledge and service; if you want to be certain that your children and your children may choose, without fear, to seek God in the way they choose for themselves and not as some over-lord dictates; if you wish the sacrifices of those who paved the way for you, added to your sacrifices of today to make smooth the path for those to follow, so that the law of love may be fulfilled and the children of the future grow up, unafraid, in a world of brotherhood—

Then pave the way now! Do your share in fighting and working for this country of ours—the last hope of free men. Prove your faith—invest in yourselves—for this country of ours is not a thing apart, it is you and me and our neighbors. Pave the way to a new future—fight, work, pray and pay.

JUST WHAT IS INSURANCE

Harry Baumgardner, 1245 Market Street, Lewistown, Pa., a World's Tonic user and booster says "I think prevention is just as good a form of health insurance a person can have. We always keep World's Tonic in our home and the entire family uses it to prevent constipation getting a foothold." Constipation is often a factor in gassy heart pressure, swollen joints, piercing back pains and drowsiness after meals. The stomach may need toning and strengthening. The laxative aid of World's Tonic has proven itself many times. It has helped thousands, why not you? Get the large size bottle today at Patton Drug Co., and all other good drug stores. (J71)

NINE OUT OF TEN FAMILIES IN THE UNITED STATES HAVE MEAT AT LEAST ONCE A DAY

—A farmer: "My wife hurt my feelings. She told me that my mule has an easier time than she does."

Federal Security Administrator Paul V. McNutt, last week disclosed the eating habits of South Bend, Ind., which was surveyed as a typical American city. Those habits are:

About nine out of ten families have meat every day.

Beef, veal, lamb, ham and pork are the most popular meats.

The white potato is eaten more frequently than any other vegetable.

Oranges and grapefruit are greater favorites than tomatoes.

About three out of four housewives heard of enriched bread.

Children fare better than adults in getting nutritious foods.

Young housewives use more milk than older ones.

Mr. McNutt said South Bend was selected because an intensive community nutrition program is under way there.

Victory 'Camel-Back' Tires for Congress

Here are members of the house interstate commerce committee as they inspected 18 retread tires developed under a new process which will provide immediate solution to America's tire problem. The tires, called "Victory Camel-Back," were made under government supervision with five pounds of reclaimed scrap rubber and two ounces of crude rubber.

Elliott E. Simpson of New York, an independent rubber dealer, presented the tires. Shown, left to right, are Elliott E. Simpson, Rep. Clarence F. Lea of California, who is chairman of the committee, and Rep. F. G. Holmes of Massachusetts.
