**NATIONAL EDITORIAL ASSOCIATION**  
1942 Active Member

The endeavor of the Union Press-Courier is to sincerely and honestly represent Trade Union Workers in efforts to obtain economic freedom through organizations as advocated by the CIO and AFL, and we solicit the support of trade unions. Material for publication must be authorized by the organization it represents and signed by the President and Secretary and bear the seal.

The Union Press-Courier gives its advertisers the advantage of the combined circulation of the two largest circulated weeklies in Cambria County and has a reader coverage that blankets Patton and the major mining towns.

**REDUCTION OR ELIMINATION** of "luxury equipment" on railroads, such as club, lounge, parlor and sleeping cars, is imminent, the national defense transportation director says. Declaring that essential military and

civilian travel must not be impeded, the ODT is planning restriction on passenger travel, elimination of duplication services on competing railroads, lengthening of limited schedules to include more stops and diversion to more important runs of such branch line equipment as can be made available.

**WHEN THE PENNSYLVANIA** Democratic leaders approached the job of choosing sides for the Primary, they did so with considerable trepidation. Almost without exception, they expressed fears of another bitter gubernatorial contest like that of 1938—which they blame for their defeat of that year—and they all publicly washed their hands of any desire to shoot broadsides at each other. Even with all this self-absolute many of the leaders thought the three-way primary campaign would be along the lines of an old-fashioned Democratic fight, with Democrats throwing everything at each other. But the 1942 campaign is now entering the home stretch, with the Democratic campaign strangely quiet. The Republicans are putting on the big primary show this year and it is Maj. Gen. Edward Martin and U. S. Senator James J. Davis who are fighting the bitter end political battle.

**SOME MIGHTY BITTER, FIGHTING** words are issuing from both the Republican camps, some of them of the kind that have been known to start minor wars and mountain feuds. Name-calling, allegations and downright cussedness on the part of both Republican camps makes the Democratic primary of 1938 look small by comparison. As the days go by, the "heat" gets greater. Personal name calling is a popular pastime in the Davis and Martin battle.

**BY CONTRAST THE DEMO-**crats have been conducting a campaign singularly devoid of personalities. Dr. Luther A. Harr, Philadelphia, put forth his candidacy as a means of "Harmonizing" the party. Auditor General F. Clair Ross has made no criticisms of his opponents. Judge Ralph H. Smith, of Pittsburgh, candidate for the Democratic nomination, even deplored the fact that any personalities have entered the Republican campaign. The Democratic primary even got to the point of diplomacy last week at which U. S. Senator Guffey, supporting Smith, denied that there had ever been a feud between him and National Committeeman David L. Lawrence, who is supporting Mr. Ross. The Senator said Republican newspapers created and fostered the fiction that a feud existed.

**THE DEMOCRATS FELT, IN** the beginning, that if they fought bitterly enough against each other, they'd make plenty of ammunition for the Republicans to shoot at in the November campaign. It can safely be ascertained that they are compiling a scrap book of the Republican skirmish for use next fall, whoever wins the Republican nomination. If all that the Messrs. Davis and Martin say about one another is true, both are surely under a handicap.

**IF THE ARMY AND NAVY—OR** any one else don't stop the commissioning of new officers with no military training, Congress may put a stop to it. Private House and Senate disapproval goes far beyond published remarks. They say that sons of wealthy and prominent families find it easier to get bars and epaulets than others do. That army and navy seem to be competing for young men with names that carry influence—same old kind of competition that extended through football games to Pearl Harbor, procurement of supplies, and recruitment of rank and file personnel.

**MANPOWER FOR THE NATIONAL** war industries is needed in unprecedented numbers. Eight million are now employed and by this time next season an additional 10,000,000 will be needed. By the end of this year it is expected that 2,000,000 women workers will be enlisted in war industries and by the end of 1943 an additional 2,000,000 will be needed. Beyond 1943 not even the keenest of statistical experts dares to predict. Thus, we see the vast efforts of armament as we move forward to ultimate victory.

**SURELY ITS ABOUT TIME** that some of the dampfoot motorists who, as yet, have refused to realize that speed is not so essential as they think it is, but that speed is really becoming unpopular to their brother drivers and is even being thought of as unpatriotic. Fast driving wears out tires for which there is no replacement in the next three years. If the tires are privately owned, in the long run they are a part of the nation's resources, and the sooner Congress passes a forty mile speed law the better.

**AS MOST OF US NOW WELL** know, our mode of life will have to be quite a lot different than what we have been used to. The hardships of the civilians of the first world war days as compared to what we have facing us, is as nothing. And the government will crack down on the chiselers and the folks who won't play ball. We are in this war to win. And that means all of us are in the fight. For instance, violators of the sugar rationing law may be fined \$10,000, or imprisoned for one year, or both. A few chiselers can do a great deal of harm to the operation of rationing and the morale of the country. The country is in no mood to let chiselers get away with it. The policy of the government will be to hit hard and fast.

**IF THE AMERICAN PEOPLE** will buy at least twenty billion dollars' worth of War Bonds this year, instead of spending the money for consumer goods, they will do themselves and their country a great service. They will help to finance victory. They will acquire protection against future want. They will go far to prevent that skyrocketing of the cost of living which becomes an imminent when, as now, the national income is rapidly increasing and the supply of civilian goods is rapidly and necessarily dwindling.

**Farmer Is Injured.**  
Alvin Biter of Loretto R. D. suffered fractures of several ribs on the right side and abrasions about the body last Friday when a tractor he was driving overturned, pinning him under the machine. A wrecking truck from Loretto was used to right the vehicle and free Mr. Biter. He has since been a patient at his home.

—WPB's order ending use of steel in toy manufacture will save 100,000 tons for war purposes.

**LEGAL NOTICES**

**LIBEL IN DIVORCE**  
Mallah M. Gibson Vs. William Gibson, in the Court of Common Pleas of Cambria County, Pennsylvania. No. 331 December, Term, 1941.

**FIRST CALL!**

**WE** believe the traveling public realizes that in time of war the armed forces have first call on the transportation facilities of this country.

Troops move by train. There's no faster, smoother, better way to transport an army.

But it takes a large number of passenger cars to do the job. Both Pullmans and Coaches. So fewer cars are available for civilian travel.

Warfare, however, no longer belongs strictly to the fighting man. Business men must keep production going top speed. That means a greatly increased volume of traffic.

So the railroads face the problem of providing comfortable accommodations for business people from fewer cars. To the best of its ability, Pennsylvania Railroad will provide for everyone. But should you occasionally be inconvenienced—as, for example, be obliged to take an "upper" instead of a private room or a "lower"—we ask that you accept it with patience and understanding. The armed forces come first!
