GAME COMMISSION IN FEUD OVER TAGS

The Game Commission is feuding with the State Welfare Department over hunters' license tags for 1942. The Welfare Department, which supervises the prison labor which made the tags up to now, says that due to the lack of tin the tags will henceforth be made of oil paper.

Appraisal of the Welfare Department statement, the Game Commission hurriedly released a statement of its own to the effect that heavy fiber tags will replace the metal hunting license plates which have been standard in Pennsylvania for many years.

The change from coated tin to vulcanized fiber will make approximately ten tons of tin plate available for war use and will save sportsmen \$12,000, said the commission. The new tags will be the same size as the old ones and for the convenience of those who do not carry their license tags in a holder will have 16 holes punched around the edges to enable hunters to fasten them securely to their coats. Still to be decided is who will make the new tags, the Game Commission or the Welfare Department.

OPA TO PROVIDE CANNING SUGAR DURING SEASON

With the office of Price Administration having revised sugar rationing regulations to provide housewives with sugar for canning purposes, the Cambria County Commodity Rationing Boards are awaiting the "go" signal for accepting registrations for this type of rationing.

The OPA emphasized that sugar rationing regulations will permit the housewives to can local surpluses of fruits in sufficient quantities for their families for the coming year.

Although local boards have received numerous requests for certificates to purchase canning sugar, registrations were not being accepted the beginning of the week because of lack of sufficient office supplies.

The OPA pointed out that demands for commercially canned foods for the United States will make the canning of locally grown food for home use a direct contribution to the war effort.

Fruit canning, it was explained, will have to be done with thin syrup, using one pound of sugar to every four quarts of finished fruits. In addition each family will be allowed one pound of sugar per person for making jams, jellies and marmalades.

Only those who can show proof they already have fruit or vegetables on hand for canning will be eligible to apply for sugar. It was pointed out that falsification of applications is subject to a maximum penalty of \$10,000 and 10 years' imprisonment.

At such time as Cambria County Boards are instructed to proceed with registration for canning sugar applicants must submit the following when they make application:

- 1—Names of all consumers on whose behalf the application is being made. (In most instances, this means the names of all members of the family.)
- 2—Serial numbers of the war ration books issued to each one of those individuals. The easiest way to comply with this provision will be to take the ration books along.
- 3—Number of quarts of fruits and vegetables, canned last year by the family.
- 4—The number of quarts of fruits and vegetables now on hand.
- 5—The number of quarts intended for canning for the period of application.

8—A bill of sale showing that the fruits or vegetables are actually purchased. If the items are home grown this must be certified on special forms provided by the rationing board.

Notarization of such a statement will be accomplished by the board's own staff and no fees should be paid to anyone for this service, it was explained.

Sugar for canning purposes will be available throughout the summer at the rate of one pound for every four quarts of fruits and vegetables. Sugar for preserves, jams, jellies and marmalades, will be issued for specific time periods at the rate of one pound for each person in the household.

The current period on the sugar for preserves ends June 30 and unless Cambria County Boards are instructed to proceed with the issuance of permits very shortly the period will expire without housewives in this vicinity receiving their allocation for the period.

REV. FATHER SHEEDY WILL CONDUCT RETREAT

Rev. Father William F. Sheedy, O. S. A., of Villanova College, will conduct the retreats this summer at St. Francis' College, Loretto, under the auspices of the Laymen's Retreat League of the Altoona diocese.

Announcement of the selection of Father Sheedy as retreatmaster was made by League officials.

Father Sheedy, native of Lawrence, Mass., was graduated from Villanova College in 1918 and four years later was ordained to the priesthood by Cardinal Dougherty of Philadelphia. After teaching for a number of years Father Sheedy joined the Augustinian Mission Band. He has conducted missions in many parts of the country and in recent years has been master of retreats at a number of colleges. He is well known for his talks on the Columbia "Church of the Air" program.

Services of Father Sheedy were obtained for the Retreat League by the Rev. Father Elmer Landser, T. O. R., prior of St. Francis College.

Retreats for laymen will be held at Loretto June 26-28, July 10-12 and July 17-19.

Announcement has been made that Rev. Father Richard McGeary, T. O. R., of St. Francis College, will conduct the four retreats for boys to be given at Loretto this summer.

ARMY TO ENFORCE BAN ON PROSTITUTION

The May Act, forbidding prostitution in the vicinity of Army camps and naval stations, was invoked for the first time last week when Secretary of War Stimson designated 27 middle and east Tennessee counties around Camp Forrest as an area in which it would be enforced.

The act, passed last year, makes prostitution a misdemeanor under federal law, punishable by a \$1,000 fine, one year in jail, or both, in any area in which the law is invoked.

Members of the armed forces are subject to court-martial for violation and civilians can be tried in federal courts.

If You're Tall Enough, Gal, You Can Wear Them Long

A woman of "unusual height" is one who stands over 5 feet 8 1/4 inches without shoes, the War Production Board has ruled.

This decision exempts unusually tall women from restrictions of the original WPB order limiting women's clothing as to size and length. To prevent slacks from shrinking

so much that they would be unwearable, the board decided to increase by one-half inch in width and one-half inch in length measurements for slacks made of material other than wool.

LORETTO YOUTH IS COMMISSIONED IN ARMY

Robert J. McCoy, son of Mr. and Mrs. R. G. McCoy of Loretto, was

commissioned last Saturday as a second lieutenant in the army of the U. S., after having completed a three months' training course in the Officers' Candidate School, at Aberdeen Proving Ground, Md. Lieut. McCoy was graduated from St. Francis College in 1938. Before entering the service he was active in both social and civic affairs. On March 4, 1941, he enlisted in the regular army and has

been stationed at Aberdeen since. Prior to being commissioned Lieut. McCoy held the rating of staff sergeant, which he received last September after completing three service schools, two of which were non-commissioned, and spent several months as an instructor in the clerical forces.
