"VICTORY GARDENS" As you no doubt have your Victory Garden planted by now, you will have realized that there is no great trick to home gardening provided the approach was sensible and the work done with reasonable diligence.

For the small initial cost, you will have received many dollars worth of vegetables and every single vegetable will taste better than any bought in the stores, partly because no vegetable tastes so good as a fresh-picked one, and partly because no vegetable tastes as good as one you have grown yourself. Over all these gains are the simple joys of growing things—the pleasure of feeling damp earth, the wonder of watching seeds sprout and the fierce delight of annihilating the pesky weeds and bugs. These are the things that bring satisfied peace to wartime worriers.

Join the Victory Garden movement and plan to enter your prize vegetables in the Vegetable and Flower Show to be sponsored by the Garden Study Club of Patton, the date to be announced later.

—With the manufacture of ice skates and roller skates stopped, about 12,500 tons of steel will be saved, enough for more than 2,000,000 bullet grenades or the hulls of two heavy cruisers.
