The endeavor of the Union Press-Courier is to sincerely and honestly represent Trade Union Workers in efforts to obtain economic freedom through organizations as advocated by the CIO and AFL, and we solicit the support of trade unions. Material for publication must be authorized by the organization it represents and signed by the President and Secretary and bear the seal.

The Union Press-Courier gives its advertisers the advantage of the combined circulation of the two largest circulated weeklies in Cambria County and has a reader coverage that blankets Patton and the major mining towns.

BEING back in the harness again after a two weeks vacation isn't the easiest thing to do. The writer is collecting the loose ends. With the National Editorial Association in Canada, much has been gained in both pleasure of touring, and in acquiring a bit of knowledge as well. The part that newspapers are taking in the war effort was the principal theme throughout the convention of the body, and addresses were made by officials of high rank from both the States and the Dominion.

WITH DILIGENT PROOF OF the actual production, did the Canadian government impress upon us the part they are playing in this great war. Canada had been in the conflict two years prior to Pearl Harbor and they continue to put their shoulder more strongly to the wheel of victory day by day. Their friendliness and hospitality will long be remembered by the National Editorial Association.

THE EFFICIENCY OF THE LOCAL volunteer defense council was very well shown in the successful "blackout" of last Wednesday night. The men and women who are giving

of their time and money in the various movements of Patton and elsewhere, are truly the Americans that our founders envisioned.

CONVENTIONS OF ALL KINDS have always played such an interesting part in our national life that many will regret the necessity for the official appeal to defer these gatherings until after the war.

are not in New York city the traffic is not much greater than in any "main street" town. Down in New Jersey last week where our train ran parallel with a four lane boulevard for many miles, no more passenger cars were moving on it than you would encounter on one of our backcountry roads.

a people who has been used to more news than any other in the world. Naturally, out of the speculation and prediction they easily become over-optimistic if those in the high places emphasize the bright side, as happened so frequently for several weeks.

service men, if business men, and the citizens generally, like those in all our neighboring communities, are "on the job." Sacrifice in time and hours only means doing a "bit" in the war effort.
