

Honor Roll

Men and Women of the Patton Area Serving in the Armed Forces of the Nation.

Four hundred and eleven men and women of the Patton Community now are serving in the armed forces of the United States, according to a corrected list, nearly complete, compiled by Walter McCoy Post, American Legion. A number of additions have been made to the partial list published in these columns last week. No claim is yet made, however, as to the complete accuracy of the list below. If there still are some names missing, relatives and friends should advise us, or the Legion at once. This list will not be published again until after the next draft induction a couple of weeks hence. The list follows:

- Andros, Stephen
Aloise, Arthur V.
Adams, Homer I.
Aaronsen, Victor-ia
Aaronsen, Isadore
Bender, Cletus F.
Bender, Theodore
Buscha, John
Baker, Earl Philip
Begeny, Earl Jr.
Buck, Thomas J.
Bobby, Nicholas
Burket, Alfred M.
Baker, Francis G.
Bender, James
Generous, E.
Blake, Robert C.
Baker, Andrew P.
Balock, Michael
Balock, John

Unsung Heroes of Solomons Battle

U. S. navy pharmacists' mates, attached to the marines as corpsmen, are the unsung heroes of this war. Acting as stretcher bearers, and giving first aid to the sick and wounded, they are frequently under fire. This crew is bringing in a wounded marine through the sweltering heat and rains on Guadalcanal island.

POPULATION
Pennsylvania's population of 220 persons per square mile represents a density close to that of Poland and greater than that of France, or of Norway, Sweden or Denmark. Yet Pennsylvania contains many million acres of open land, and 13,000,000 acres of forests.

PARALYSIS VACCINE HUNT PROGRESSING

Doctor Finds Protein Crystals That May Be Pure Virus

New York—First steps in attempts to produce a successful vaccine for protecting against infantile paralysis may have been taken in research reported by Dr. E. Racker, formerly of the Anderson Institute and the University of Minnesota, and now at the Harlem Hospital here, in a current issue of Science. Dr. Racker has obtained crystals of a chemical, protein in nature, that might be the infantile paralysis virus. The crystalline protein material was obtained from the brains of mice infected with infantile paralysis. When injected into the brains of other mice infected with infantile paralysis, the protein crystals produced typical paralytic symptoms of the disease in 14 to 72 hours.

ARMY ASKS YOUNGER DOCTORS TO SIGN UP

The Medical Officer Recruiting Board has disclosed that it is notifying all physicians less than 37 years of age, who have been declared to be available by the procurement and assignment service, to apply to them for a commission. The board, located at 510-H Federal Bldg., Pittsburgh, also said in a statement. "This board has a medical officer connected with the Air Corps and is prepared to issue commissions promptly in the Army of the United States or the Air Forces. "Those under the age of 37 who are available for military service are urged to apply at once." The request for physicians under 37 to apply immediately is interpreted here by medical men as a move to recruit all of the available younger physicians for Army service. To date more than 25 members of the Cambria County Medical Society have been commissioned and are now on active duty in the armed forces.

THE ROAD TO VICTORY!

By SRUTHERS BURT.

Listen, Americans. We don't have to be told this. We're a lucky nation. We've been lucky all through our history. We began to be lucky the moment our ancestors decided to come here. We're still lucky. But don't let's crowd our luck. Our cities are still unbombed; our children can still walk in safety; not yet have our wives or daughters been enslaved or insulted or raped; none of us have as yet been shot as hostages, but it's coming closer—the red real horror of war, and already on a score of far flung battle fronts our young men stand at attention or are already engaged. So let's finish it off. Let's have done with it. Let's put the murderers and gangsters back where they belong, where we put John Dillinger and Pretty Boy Floyd. And let's make sure this time. Let's make this as speedily as possible a world where decent men and women can live and bring their children up decently, and let's bring our young men back as speedily as we can, and let's bring as many as we can back whole. It may take a year; it may take two years; it may take longer, but let's finish it off. You know we can. Everyone knows we can. Even Hitler knows we can. But it's going to take every ounce of strength and brains and patriotism we have, and IT'S GOING TO TAKE LOTS OF MONEY. And that's where we older people—we mothers and fathers and friends and relatives of all kinds—can help directly, and keep on helping, no matter what else we are doing, and where the young people not yet of age or who can't go to war or who are essential where they are can help. Day by day, week by week, we can help. Bonds buy bombers. Stamps buy ships. A dollar today is worth two tomorrow. Machine guns and high explosives don't wait. Neither do submarines. How much is a young American worth. Each stamp or bond you buy may be saving his life, and the lives of two million like him. Nor will tomorrow do. It takes only the fraction of a second to kill a man. Buy, and buy, and buy, and keep on buying. Buy regularly what you can. Ten cents, twenty cents, a dollar, five hundred, five thousand—buy and keep on buying. Put so much aside each week. You're investing in lives, in the future and in your country. Shut your eyes and imagine. Watch the great tidal wave grow, your ten cents or dollar in it; watch it turn to tanks and planes and guns and ships; watch it roll closer to Berlin and Tokio and curl and break. What a lovely use for money. What a lovely hour. With every cent you invest you save a life and hasten the end of this horror. With every cent you keep blood-red war away from these shores. Our young men will win on every battle-field, as they have before, if we will support them. And the thought of that and the thrill of investing in your country—how's that as a reward.

RED CROSS KITS GIVEN MEN DURING BATTLE

Appreciation of work done by production members of the American Red Cross was expressed recently by the captain of the Astoria, out of the three U. S. Navy cruisers lost in the battle of the Solomons. American Red Cross sweaters, prepared by Red Cross volunteers in a widely spaced area, were distributed in the midst of the battle to the survivors of the three lost cruisers. One of the distributors of the sorely-needed supplies said that the survivors and wounded men were given clothes and kit bags containing soap, cigarettes, razors, tooth brushes, and playing cards and other comfort articles, as they lay on the decks and gangways of one of the transports, following the battle. The men receiving the gifts were incredulous at first that Red Cross supplies could be distributed so fast. The distributor said: "Let me tell you it helped their morale. It was concrete evidence that the folks back in the States had not forgotten them, and it gave them a feeling that they were being backed up by the people of the country."

THE WAY OF DEATH

BY RUTH TAYLOR.
The Nazi way of life is a lie! The Nazi way of life is the way of death for all those who believe in the sanctity of the individual, in the rights of man and in the Christian doctrine of equality of all men before God. The Nazi way of death is more the policy of the man Hitler. Remove Hitler and you would still have the Nazi way. It is not just a conception of the militarists. It is not just an off-shot of Fascism, as that was an aftermath of Communism. The Nazi way of death is the spread of any ideology which preaches the domination of any one group—be it a group of class, race, religion or nationality—over all other groups. The Nazi way of death is the stirring up of hatreds between groups, the creation of barriers between them by appeals to fear and prejudice, the playing upon complacency, indifference, laziness, self interest. The Nazi way of death is not a crusade. We have among us those who bend over backwards and call the totalitarian ideologies "religions." This is false. The Nazi way of death cannot be dignified with the cloak of principle or even of an ideal of National Socialism. The Nazi way of death is the practical application of gang rule, or the domination by terror of a small group of murderers and thieves. We have had experience with that. We have seen what has happened in our own cities when we became careless and indifferent—and we have learned that the only way to combat the gangster is by drastic action—by rooting out the gangs, lock, stock and barrel—and by an extirpation of the idea by a strict allegiance to law and order. True Americans do not need to be warned of the evils of Nazism and its "Divide and Conquer" policy. They will fight to the finish on the battlefield and in the factories. They will stand as they have in the past for freedom for all because they know

During and for some time after an AIR RAID WARNING do not make telephone calls. Keep lines clear for Civilian Defense!
