NATIONAL EDITORIAL ASSOCIATION 1942 Active Member

The endeavor of the Union Press-Courier is to sincerely represent Union Workers in their efforts to obtain economic freedom, particularly as advocated by the United Mine Workers of America. We solicit the support of All Unions. Material for publication must be authorized by the organization it represents, signed by the President and Secretary, and bear the seal of the Local.

The Union Press-Courier gives its advertisers the advantage of the combined circulation of the two largest-circulated weeklies in Cambria County and has a reader coverage that blankets Patton and the major mining towns.

IF YOU ARE A LANDLORD AND rent a property, you have an obligation to meet by Friday evening of this week, and that is to register your properties and list your rents with the OPA. This registration began on Monday of this week. Stiff penalties are provided for those who don't register. The procedure of the landlords is simple. You go to your nearest registration center and fill out a form. If any difficulty is encountered, expert help will be available at the registration centers.

IN THIS SECTION OF CAMBRIA County, registrars will sit at the Patton High School, Barnesboro High School, Reade Township High School, Cresson High School and Ebensburg High School. The hours are from 4:00 P. M. to 9 P. M. daily. Remember you are considered a landlord if you rent a property, or any part of a property, you are considered a landlord, and you are obliged to register.

DURING THESE DAYS WHEN WE are called upon to give heavily and to sacrifice more and more in order that victory will be won the sooner, we must not forget that there are regular charities that must also be carried on as usual. One of these is the annual Christmas seal campaign sponsored by the Society for the Prevention of Tuberculosis which started on Thanksgiving day and will be continued until Christmas. In Patton and elsewhere the local vice chairman has sent out sheets of these seals through the mails, asking that you contribute for them. These campaigns have been in vogue for the past 36 years, and, war or no war, it should be just as successful this year, as in the past.

IN FACT THE CHRISTMAS SEAL campaign this year is MORE important than ever. According to officials the 1942 effort should be greater. It is pointed out that while many cases of tuberculosis have been discovered in the examination of men for the military service, fewer physicians are available to treat these and other patients.

NOW WE ARE GETTING THE opening taste of gasoline rationing, and it's going to pinch a lot of the pleasure-loving folk, and it will pinch others who have used their automob-

biles only frugally. True, there is no shortage of gasoline, but there is an alarming shortage of rubber, and the only way to save the rubber is to cut the gasoline supply. Folks who complain will only be considered as being a bit more self-centered than they are war-minded, by their true American neighbors. THERE ARE THOSE WHO COMPLAIN of rationing of all kinds; and there are others who attempt to hoard everything that is rumored of rationing. There are those who complain and there are those who rant and rave. But the great majority of American citizens take the necessary curtailments in their stride, and are willing to accept uncomplainingly the sacrifices that must be made. Folks who yell the loudest usually are not the ones who have most at stake in this war. Watch that. When you hear a chap grumbling, ascertain just what sacrifice he has had to make, in his family, for instance. Folks who have loved ones in the service want this war to end soon, and they are more than willing to do their part to have that done.

GOVERNOR-ELECT EDWARD T. Martin is anticipating a short and snappy session of the state legislature which will convene in January, and leaders of both major political parties likely are in full accord with him in that respect. There is a certain amount of business that must be accomplished, and it can be accomplished with neatness and dispatch if the legislative bodies are so inclined. It is far from likely that the people at home want a long, drawn-out session such as the 1940 affair. Sessions of this kind achieve little. THE LENGTH OF THE LEGISLATIVE session depends entirely upon the Republicans. They control both branches of the state legislature, and can do as they wish. THE MEN AT THE FRONT, THE men in the service, the nurses, the doctors, who are giving all to the war effort, are in the head ranks of heroes, but there are a lot of unsung heroes on the home-front, too. Consider the men who make up the selective service draft boards. They are our neighbors, and they give un-

stintingly of their time with remuneration. Their job is not at all a pleasant one. They must decide who enters the armed forces, and who does not—and they are all trying to be fair and just. AFTER ALL, THE LOCAL SELECTIVE service board is the most democratic method of raising our armies. This principle has been accepted by the country. It has been carried out by 25,000 loyal citizens volunteering their time. Each of these board members during his two years' service has passed upon from 5,000 to 7,000 individual cases. He has become familiar with the problems of the registrants and their families, the needs of industry and agriculture and the requirements of the armed forces. THROUGH THESE BOARDS EACH community has a part in the war effort. The method of selection is open to public inspection. The men who make the selections are not influenced by the monthly pay check. Ten million parents have been to date content with the method by which their sons have been chosen. It is harmful

to the war effort to attack local boards, and by general and unsupported statements to undermine public confidence in them. It would be unwise to take out of their hands the function of classification of registrants. Such functions cannot and should not be placed in the hands of paid government employees. ANOTHER CROP OF UNSUNG HEROES also are coming to the fore. They are the rationing boards, who, too, are your neighbors, and who are serving without remuneration. Just now these boards are head over heels in gasoline rationing work, and they are living up to the letter of the law in attempting to show no favoritism. Later, they'll have a lot of other rationing to do. They surely deserve a pat on the back. STATE BUREAU CHECKS ALL PACKAGE POTATOES Harrisburg.—Proper grade labeling of all potatoes sold in closed packages in this state is now being checked by representatives of the Bureau of Markets of the Department of Ag-

riculture, Secretary John H. Light has announced. The potato marking act, it was pointed out, makes compulsory the branding or tagging of all closed packages of potatoes packed for sale, transported for sale or sold in this state. Secretary Light further pointed to the recent court decision which held that out-of-state potatoes must be properly marked as well as those originating within the state, when resold within the state. In view of that decision dealers who sell potatoes which originate at Pennsylvania shipping points or at out-of-state points are not relieved of the responsibility for compliance with the marking law because the grower or shipper might have made an error in marking. PRODUCER. A Holstein cow owned by the Pennsylvania State College has just completed a life time production record of more than 100,000 pounds of milk. Her name is Penn State Veeman Josie. She is one of nearly 600 Holsteins in the country to produce more than this amount of milk.
