What's Mrs. Petrov got that you haven't got?

Meet Mrs. Petrov, citizen of the Soviet Union. When the Nazi Panzer Divisions approached the small Petrov farm in the Ukraine, she knew what to do.

The wheat, so near to harvest time, went up in flames. The potatoes, stored in the cellar, were soaked with kerosene. The jars of fruits and preserves were smashed, and the cow, which had given her children so many quarts of precious milk, was shot.

After piling her two young children, a few blankets and some food on the farm cart, Mrs. Petrov did one more thing. She went back to the house where she and her husband had been so happy . . . where they had worked so hard to make a home for their family—and applied the torch.

Now, everybody in this country knows that Americans are as patriotic—as capable of sacrifice—as grimly determined to beat Hitler as are the Russians or anybody else on earth.

But—by the Lord Harry—do we have to wait till a Nazi tank comes rolling up the street before we prove it?

We aren't being asked to burn our homes and destroy everything we own. Please God, we never will be.

But we are being asked to join the Payroll Savings Plan and put at least 10% of our earnings into War Bonds! We're being asked—not told—to loan money—not give it! And to loan this money at a good rate of interest and for good reasons! We're being asked to buy War Bonds to help win the war—to provide a nest egg for the future—to provide peacetime jobs and peacetime goods and a generally decent world that the fellows who are doing the fighting can come back to.

That's our job. And it's a job that won't be done until every mother's son of us is buying bonds until it hurts.

There are, right now, still people who ought to be buying War Bonds through the Payroll Savings Plan—and aren't.

Right now, while some of the people in the Payroll Savings Plan are setting aside more than 10%—a lot of others are investing less.

Let's change that situation—quick. If you aren't in the Payroll Savings Plan—sign up tomorrow. If you're already in, but haven't hit 10% yet—raise your sights. And if you can put in more—do it.

What's Mrs. Petrov got that we haven't? Nothing! Let's prove it!

WHAT YOU SHOULD DO:

- 1. Already investing 10% of your pay in War Bonds through the Payroll Savings Plan—boost that 10% if you can.
- 2. Working in a plant where the Plan is installed, but haven't signed up yet—sign up tomorrow.
- 3. Working in a plant where the Payroll Savings Plan hasn't been installed, talk to your union head, foreman or plant manager—and see if it can't be installed right away. The local bank will be glad to help.
- 4. Unable to get in on the Payroll Savings Plan for any reason, go to your local bank or wherever bonds are sold. They will be glad to help you start a Plan of your own.

Mystery Gun Given Test in Los Angeles

One of America's newest weapons, an automatic, pneumatic gun, capable, its manufacturers claim, of firing 12,000 rounds a minute, was demonstrated before army, navy and marine officials in Los Angeles. No powder is used, there is no noise, no flash, and no recoil. The gun's inventor, W. B. Hale, is shown at the right.
