DO YOU KNOW?

A profession means the work of men and women who serve others, with a skill developed under severe training, for the aid of those who are in personal trouble. The ministry, the law and medicine fall under that definition. All are supported by their work - the laborer is worthy of his hire - but their service is given fundamentally to help others, not themselves. And all such work solely to benefit the individual sufferer, to solve his individual problem and restore him to normal life.

VITAL JAP AIRFIELDS GOAL OF MARINES

AS THE STRUGGLE on New Britain Island continues, greater emphasis is placed on the swift seizure and use of key Jap airfields. While immediate marine fighting centers around Target Hill and nearby Borgen Bay, following the Cape Gloucester landings, strategic Gloucester airfields are the goals of the drive. In fact the entire future strategy of U. S. activity in this area, as outlined by Gen. MacArthur, hinges on airfields, the sites of which are shown on this map. Cape Gloucester occupation also cuts the northern Jap supply route, leaving open only the route from Rabaul and Kavieng, on New Ireland, as also indicated on the map. Gen. MacArthur says heavier air attacks on Kavieng and Rabaul will start soon and the small map, inset, shows how this will be done. Black areas on large map are held by Allies.
