### WEEKLY HEALTH TALK

As Compiled by the Medical Society of Pennsylvania.

The insult discourteous is to yawn in a scorteller's face.

It is telling the storyteller, without words, that you are bored.

Yawning may be due to hunger, fatigue, or poor ventilation.

In most cases it is a reflex action—prompted subconsciously by ennui and boredom.

Yawning can be contagious through the power of suggestion.

Watching some one else yawn starts the processes of involuntary action which terminates in a similar yawn.

Yawning is a pleasant sensation, for the most part.

A volume of air is inhaled deeply and the lungs given a treat.

There is a feeling of contentment and tone stimulation following a yawn.

Nature set up this reflex gesture to give us a pick up when we are dissatisfied, bored, tired and hungry.

Sneezing was created to rid us of deleterious material in the nasal passages.

Yawning—derived from the word "ganian"—means to open the mouth widely or to gape.

There may be some pathological significance in a yawn, but physicians if they consider it, make little of it.

Hiccoughs, on the other hand, may indicate pathological symptoms.

Yawning—an innocent, simple action—may relieve air hunger.

The most harm it can do is to mortify a hostess at a dull dinner or rebuke a fellow who is talking about himself.

### LONGER FOOD STAMP PERIOD.

Under the ration token plan, three red (meats-fats) 10 point stamps become good every two weeks, on Sundays, and five blue (processed fruits-vegetables) 10 point stamps become good on the first day of each month. To reduce last minute rush buying, just before the stamps run out, the Office of Price Administration increased the period for which stamps may be used. Thus, the 60 red points and 50 blue points which become good each month may be used at any time during a period of from 10 to 12 weeks.

### DO FALSE TEETH ROCK, SLIDE OR SLIP?

FASTEETH, an improved powder to be sprinkled on upper or lower plates, holds false teeth more firmly in place. Do not slide, slip or rock. No gummy, goeey, pasty taste or feeling. FASTEETH is alkaline (non acid). Does not sour. Checks "plate odor" (denture breath). Get FASTEETH at any drug store.
