COWS EAT GRASS, GIVE MILK, WHY?

Ask nature about that—for Mother Nature knows best. It's probably Nature's way of making baby eat vegetable nourishment—by turning plants into tempting, appetizing milk. Notice, too, how the cow stimulates digestive juices by chewing its cud properly and long. Ask the farmer why the cow's breath always smells sweet. Says Mr. John Pelitsky "I like World's Tonic because it contains so many herbs and roots that taste like the medicine my folks used to give me back in the old country." Excellent for relieving gas, bloating, heartburn, headaches and bad breath, when due to constipation. World's Tonic (Trade Name). Not Sold as a General Tonic but as a splendid laxative and stomachic. Used by thousands of families for over twenty years. Get World's Tonic at Patton Drug Co., and all other progressive Drug Stores. Caution: Use only as directed.
