**County Commissioners Engage An Architect for New Juvenile Building for County**

Cambria County is to have a juvenile detention home. The three county commissioners took definite steps in that direction last week when they appointed Henry M. Rogers, of Westmont, as architect, to draw up plans for the new institution.

It was also announced that the juvenile detention home will be located on present county property along the William Penn Highway, west of Ebensburg.

For some time indications were that a county juvenile detention home might be established in Johnstown, but that has fallen through.

Establishing a juvenile detention home in the county has long been advocated by law enforcement officers and social agencies as a means of properly handling cases of juvenile delinquency.

Under the law police are not permitted to detain delinquents under the age 18 in that the law stipulates that such cases be placed in juvenile detention quarters until the cases are disposed of in juvenile court.

Sidelights on the negotiations that stretched over a two months' period, were given by the head of the operators' association.

The new contract, currently awaiting the nod of approval from the War Labor Board, will be retroactive to April 1. Problems facing the coal industry in the post war era were also discussed by the district operators at the meeting.
