

STATE DECLARES WAR ON CANCER

The state health department has declared war on cancer, the dread disease that killed 12,857 Pennsylvanians last year, with the revitalization of the defunct cancer bureau.

Deputy Health Secretary J. Moore Campbell said the department will supervise a research program set up by the last session of the legislature, when \$100,000 was appropriated for the specific purpose of investigating means of controlling the mysterious malady.

Campbell said the decision to re-establish the cancer program in the health bureau was made during a meeting of the department officials with members of the Legislative Cancer Research Committee and the State Medical Society.

"In addition to activating the cancer division," Campbell said, "the department plans to conduct a survey to determine what parts of the state are equipped to treat infected persons and what regions are lacking in facilities."

He emphasized the state would not construct infirmaries but will "correlate the work of existing clinics and agencies combatting the disease."

We hope to establish a well-rounded educational program pointing out the importance of recognizing symptoms and obtaining the treatment for cancer in its early stages," he explained.

WARN AGAINST DANGER IN DDT

An increasing number of requests from individuals regarding the use and availability of DDT, the powerful new insecticide, has prompted Miles Horst, state secretary of agriculture, to warn that DDT is a poison and should not be used on fruits, vegetables or any food products until scientists complete official experiments through which efforts are being made to determine how it should be applied in the control of insect pests.

Inquiries to the department are of such character that it is believed some farmers and gardeners have somehow obtained small quantities of DDT, the secretary explained. Highly valuable to the armed forces as a means for controlling malaria and typhus by eliminating insect carriers the government has commandeered all DDT that has been manufactured since the start of the war. Only limited quantities have been released for experimental uses and none has been made available to private citizens.

"It is my understanding that no DDT will be made available for home or farm or garden use until present experiments show exactly how and in what strength it may be safely applied," the secretary declared. "Every possible test is being made. It is a powerful poison and must be used intelligently. It cannot be swallowed, or if only solutions of DDT be permitted to come into contact with the skin it would be harmful. I have no doubt but that eventually a safe way will be found to use the material on fruit trees, but until we know how much and when to apply, none should think of using it on any food crops."

The State Department, through its Bureau of Plant Industry, is cooperating with the U. S. Department of Agriculture in its second year of experiments with DDT in Luzerne-Lackawanna gypsy moth quarantine area. Elimination of the pest was obtained in a test area last year using five lbs. per acre, and this year, through spraying nearly 3,000 acres of forest lands, it was found that only one pound per acre gives 100 per cent control of this pest.

Tests and observations are being conducted on the effects of varying amounts of DDT on other insects in the gypsy moth experiments. The effect of beneficial insects is being watched with special interest. Results will not be known for several months.

SNAH GOOZLE SAYS:

If the big three (Truman, Churchill and Stalin) play their hands above and not under the table, their meeting will be successful and humanity will win, if not, Pots DAMB.

The corn is all hood for this year—the boys can now go swimming.—Snah Goozle.

SCHOOL HEALTH PLAN MAY BE HANDICAPPED

A shortage of doctors and nurses was expected to handicap the State Health Department in carrying out this fall a new program calling for complete medical and dental examination of school children, teachers and school employees.

John W. German, Jr., chief of the department's school division said, "we are making a survey at present to see what the prospects are."

The program was authorized by the 1945 legislature, with an appropriation of \$4,000,000 set aside to finance the work during the 1945-47 biennium. The State Advisory Health Board approved the plan at a recent meeting.

Under the bill the health department will arrange for scheduling physical examinations by medical and dental examiners in cooperation with local school authorities.

Provide for appointment of examiners by school boards in the first, second and third class districts, such appointees to be approved by the health secretary.

Select physicians and dentists in fourth class districts with approval of personnel already employed in these districts.

Provide for special examination for pupils and teachers entering schools after regular tests have been completed.

Maintain permanent files of health records and arrange for transfer of records when teachers or pupils move to new districts.

Arrange for payment of a minimum of \$1 to physicians and 50 cents to dentists for examinations, the money to be allotted from \$2.25 provided to each pupil in first, second and third class districts.

In fourth class districts physicians will be paid \$1.50 and dentists 75 cents for each examination.

NOTICE

IN THE COURT OF COMMON PLEAS OF CAMBRIA COUNTY, PENNSYLVANIA.

No. 38 June Term, 1945 (C.P.)
To Excelsior Building and Loan Association, its successors or assigns, or whoever may be the holders of the mortgage hereinafter mentioned:

Take Notice: That on July 9, 1945, Charles Bellevis, of Hastings, Pa., presented his petition in this Court to the number above appearing, averring among other matters, that he is the owner of a certain tract of land situate in the Borough of Hastings, County of Cambria and State of Pennsylvania, bounded and described as follows:

All that certain piece or parcel of land situate in the Borough of Hastings, formerly Elder Township, in the County of Cambria and State of Pennsylvania, bounded and described as follows:

Beginning at a post on Kirkpatrick Street, thence by said street North 37 degrees East 70 feet to a post on corner of Lot No. 38, thence along Lot No. 38 North 83 degrees East 150 feet to a post on Pine Alley; thence South 37 degrees West along Pine Alley 28 feet to a post on line of Charles Huber; thence along lands of Charles Huber North 68 degrees West 150 feet to a post on Kirkpatrick Street, and the place of beginning.

That an unsatisfied mortgage upon said premises remains of record in the office of the Recorder of Deeds of Cambria County, namely, mortgage given by Lewis Strom to the Excelsior Building and Loan Association of the City of Altoona, Blair County, Pennsylvania, dated August 3, 1892, recorded in said recording office on August 8, 1892, in Mortgage Book Volume 19, at page 14, given in the penal sum of Twelve Hundred Dollars (\$1200.00), conditioned for the payment unto said Excelsior Building and Loan Association, its successors and assigns, of the sum of Six Hundred Dollars (\$600.00). That the said mortgage has not been assigned so far as a record in said Recorder's Office discloses, and that legal presumption of the payment exists by lapse of time.

Whereupon said Court on July 9, 1945, made an order that notice of the facts averred in said petition be made upon the holder or holders of said mortgage, if to be found in the County of Cambria, and, in case the holder or holders could not be found in said County of Cambria, then that Pat Farrell, Sheriff of Cambria County, give public notice as aforesaid, in the Union Press-Courier, a newspaper of general circulation, published in Patton, Cambria County, Pennsylvania, and in the Cambria County Legal Journal, published in Ebensburg, Cambria County, Pennsylvania, once a week for four successive weeks prior to the first Monday of September Term, 1945, requiring said parties to appear and answer the petition within referred to.

PAT FARRELL,
Sheriff of Cambria County,
Pennsylvania.
ARNOLD D. SMORTO,
Attorney for Petitioner,
Ebensburg, Pa. 8-9

There Will Be More and More Farm Telephone Service AFTER THE WAR

For more than half a century, the telephone has served the farmer well. Today the number of rural telephones in the territory we serve is at an all-time high. After the war, even more telephone service will be available to even more farmers than before. Right now, of course, the peace-time producers of telephone instruments and central office equipment are making electronic and communications equipment to help our armed forces lick the Japs. We must wait. Not a one of us would wish it any other way.
