NEW HUDSON NOW IN PATTON DISPLAY

New 1946 Hudson autos, now being shown by Albert J. Christoff of Christoff Motor Sales in Patton, are winning instant approval due to the postwar advances in exterior and interior styling, mechanical efficiency and ease of operation, according to Mr. Christoff.

Declaring that new models fully meet the demand for better cars for better driving, Mr. Christoff says deliveries will be made as fast as possible and those placing first orders will get the first cars.

Mr. Christoff has been advised by the factory that Hudson is in a unique position for production by reason of early reconversion, early orders for materials and an integrated plant that enables an unusually high percentage of the completed auto's components. He continued:

"The new models are being offered in two distinctly different
