 The endeavor of the Union Press-Courier is to sincerely represent Organized Labor in their efforts to obtain economic freedom. We solicit the support of all Unionists. Material for publication must be authorized by the organization it represents, bear signatures of the President and Secretary of the Local, together with the Local Seal.
 The Union Press-Courier gives its advertisers the advantage of the combined circulations of two largely circulated weeklies and has a reader coverage that blankets Patton and the major mining towns in Northern Cambria County.

EDITORIAL VIEWS AND COMMENT

WHILE THE REPUBLICANS IN this state and county are beginning to exercise a lot of activity in what they hope to make a victory for the party at the general election next November, the leaders lay-off speaking about the trend here in Cambria County that indicates the Democrats, not the G. O. P., is leading in new party registrations. Probably that is the best criterion of all in which way the wind is blowing. And recent elections also indicate that there surely must be a good many Republicans who vote Democratic when they go to the polls.

JOHN U. SHROYER, WHO IS AN independent candidate for the Republican nomination for Governor, is certainly busy these days in creating some mighty fine campaign material for the Democrats this fall. Shroyer has been with the present administration at Harrisburg for the past three years as Gov. Martin's highway secretary, and the charges he has made and

BRIEFLY COMMENTING
 Thoughts That May or May Not Interest You Discussed from Week to Week
WHILE THE GENERAL PUBLIC doesn't raise much fuss about a strike until it begins to affect them as individuals, and then usually the fault is mostly blamed on the strikers, has it ever occurred to us that mostly always the strikers have a justifiable cause? Isn't it funny that even among a lot of people whose dependence on a living themselves, right in our own communities, will not hesitate for a moment in taking a slam at the miners (behind their backs, of course) simply because a prolonged coal strike has begun pinching their own pocketbook or their own conveniences?

APPARENTLY THERE WILL BE a lot of confusion all summer over Standard Time and "fast" time in the Northern Cambria communities. Where entire communities adhere to one particular time there isn't much trouble. But when one goes from one community to another to make some appointment and finds himself either an hour too early, or perhaps an hour too late, that's where inconvenience is evidenced. One can't blame the miners and farmers for opposing any change in time, and where mining is the general industry in a community there's been a pretty good adherence to Standard Time.

MEMORIAL DAY SOON WILL be here, and this year the observance in all communities will reach proportions far and beyond anything in past history. But it must be remembered that Memorial Day has been set aside as a national holiday not for the purpose of celebration, but as a day of honoring the memory of the departed men and women who served in the various wars of the Nation.

FOLKS WHO ONCE BLESSED the advent of the so-called "New Deal" and who perhaps owe their very business continuance to it, when they harp on what has been done for the working man and woman, for the small businessman as well, surely won't harken back to the days of the Hoover administration as a criterion for the conditions they want today. The anti-New Dealers have painted the picture of abhorrence of all things "New Dealish." They have done that in the past two presidential

AGAIN THE SAME ISSUE comes from the same mouths. And it comes from mouths right here in our own communities that have very materially benefited from the many beneficial projects of the New Deal as given the "Main Street" man and woman.

OVER AT ASHVILLE ONE night last week in a talk before some teachers, the writer has been quoted in the Johnstown newspapers as stating that if he were elected to Congress he would advocate teacher legislation at Washington. That sounds foolish and is foolish, and no such statement was made by us. Anyone who has any knowledge of legislative bodies knows that no one member, particularly a new member, can get far on his own accord—but he can help support beneficial legislation, and he can vote on any issue that comes before his body in the best interests of the most of his constituents.

THE NANTY-GLO JOURNAL, we note, has attained 25 years of service in their community. Under the same ownership since its founding, regardless of whether we have agreed with or disagreed with their policy, Mr. Herman Sedlitz can feel justly proud of the achievement that has been accomplished. Twenty-three years of this time has seen Mr. H. O. Eldridge at the editorial helm. May the Nanty-Glo Journal continue to carry on and prosper. The day of the weekly newspaper has not fallen by the wayside—at least not the weekly newspaper that expresses its convictions as it sees them for the good of its community—and the "Journal" has exemplified those attributes.

NORTHERN CAMBRIA COUNTY again has organized a baseball league, and with the first peacetime baseball season for some years, the interest should be much greater than has been evident for some time. With the return of the GIs and a lot more baseball timber, interest by the public should also arise proportionately. Baseball is the national sport. While we all love football, and other sports, none can compare with baseball.

THE SEASON FOR GRADUATES soon will be here again, and the Northern Cambria High Schools all will pour out a new batch of "finished" boys and girls the latter part of this month. For many of the male members of these classes there will likely be a period of 18 months' Army or Navy service ahead. With the present draft law in process of extension as at present until the beginning of July, it will probably catch all the young men graduates who now are 18 years of age or over. This
