

### DETAILS COMPLETE FOR VETS' 'ON-JOB' TRAINING ON FARMS

Two Types Available for Farm Occupations, Announces Vet Administration

Details have been completed by the Veterans Administration and the State Dept. of Public Instruction for "on-the-job" training programs for ex-servicemen who wish to become farmers.

According to VA representative J. G. Breuckmann, the new plan is designed "to train ex-GIs to become farmers by means of a farm program giving maximum service at local levels."

Two types of training are available for agricultural occupations: Self-Proprietorship Plan

1. A self-proprietorship plan under which the veteran operates a farm as either owner or tenant, or under a management or share agreement "which fully protects the welfare of the veteran."

2. The employer-trainer plan under which training is given by a farmer to a veteran who comes to work for him under a special agreement.

### Subsistence Allowances

The VA representative says subsistence allowances will be the same as those granted for other types of training—up to \$65 per month for a single veteran and up to \$90 per month for a married man.

Advice for the procurement and financing of a farm will be given by J. Harold Gibb, Cambria County Service Officer, Ebensburg, who is head of the Agricultural Training Advisory Committee. The group also includes H. C. McWilliams, the county farm agent.

Local farms will be approved for "on-the-job" training as the laboratory for institutional training, and local farmers will help the veteran in locating a good farm to buy and advise as to the crop best suited to his land.

Senior high schools will be approved as institutional training centers and contracts providing for the GI training will be executed between the school district and the Veterans Administration.

250 Hours Per Year

For the employer-trainer type of instruction, 250 hours a year will be provided and 50 hours of "on-the-job" instruction. For the employer-trainer veteran, subsistence pay will be decreased in the same proportion that wages increase.

The FFA, soil conservation service, and other government agencies will be asked to supplement "in-school" and "on-the-job" instruction given by regular teachers.

### ANNOUNCE HUNTING SCHEDULE FOR YEAR

State Game Commission officials this year are acting early in announcing hunting dates for 1946 so that nimrod can plan their vacations for this fall.

The 1946 schedule, with Sundays excepted, is as follows: Small game season, Nov. 1 to Nov. 30, inclusive.

Bear, Nov. 18 to Nov. 23, inclusive. Deer, Dec. 1 to Dec. 15, inclusive.

Ross L. Leffer, president of the commission, says early action was taken in accordance with wishes of sportsmen, and that seasons, bag limits, etc., will be officially established in July.

Woodchuck Season Advanced

The woodchuck season was advanced one month, and will open on Saturday, June 1.

Woodchuck hunting hours fixed by law will be 7 a. m. to 5 p. m. Eastern Standard Time during the month of June, and from 6 a. m. to 7:30 p. m. Eastern Standard Time from July 7 to Sept. 30, inclusive, the commission having no authority under law to change the hours during the season.

A survey of "conflicting and archaic" traffic laws has been made by a special committee on Laws and Ordinances.

Motorists from states which do not have this requirement may not obey the law in states which require the stop, "and such failure may result in death or injury to school children who anticipate safe passage across the highway," the report warns.

Other inequalities include drivers' signals about right and left turns and slowing down from high speed.

Drivers accustomed to such a law "will assume the right-of-way over drivers approaching from the left" even in states where the rule does not prevail. This leads to accidents.

### YOUR Health MEDICAL SOCIETY-STATE OF PENNA.

"Please ship immediately 10 tons of aspirin and 15,000 gallons of castor oil."

These are two items of medicines bought outright by the U. S. Treasury for shipment to UNRRA for relief of suffering Europe.

The people of Europe need food, and they also need medicine.

Some of the items already shipped include 71,000 gallons of hydrogen peroxide, 475 100-lb. kegs of sodium bicarbonate, 15,000,000 tablets of cascara and 90,000 quarts of iodine.

Aspirin is in demand everywhere because of opium, morphine and other pain relievers are scarce.

Laxatives are universally wanted because of digestive upsets due to scanty, eccentric diet.

Prolonged strain and worry has caused an excess of hydrochloric acid in the stomach and medicines that counteract acidity are needed.

Poor diet and lack of soap and water have brought on skin troubles, hence the need for unguents.

Grippe and flu rage among people who are underfed, poorly clothed and crowded into unheated houses, so cough medicines are in demand.

The concerted efforts of UNRRA and the Red Cross, Army and private relief agencies have so far prevented catastrophic epidemics.

Sulfanilamide, penicillin and streptomycin.

These are the wonder drugs, named in chronological order.

History may reverse this order according to importance.

Streptomycin, sister drug to penicillin, is used in many infectious diseases which do not respond to penicillin.

The production of streptomycin is woefully short of the need.

The four pharmaceutical companies now making the drug produce a total of only about 14 ounces a month.

The Army-Navy needs alone are more than 2,000 ounces a month.

As it was with the production of penicillin, so it is hoped will go the production of streptomycin.

Penicillin was, up to a short time ago, a laboratory curiosity with the cost in astronomical figures.

Today, penicillin is a commonly-used drug within the means of everybody.

The pressure of wartime needs prompted this intensive production program which made penicillin generally available.

Streptomycin is obtained from a natural fungus found in the soil and must be grown under the most carefully controlled laboratory conditions which cannot be hurried.

This new drug is used in treatment of persons with urinary tract infections and in some cases of meningitis.

Prepare Clean Wool Clips

Shear only when the wool is dry, and do the shearing on a clean, dry floor, are two reminders by W. B. Connell, the Penn State extension livestock specialist.

To contribute to the value of the 1946 wool crop, he also suggests packing gray or black wool separately, keeping the tags and dung-locks out of fleeces, using paper twine, packing burry and seedy fleeces separate, and storing until marketing in cool, dry places.

Protect Pasture Lots

Give the grass a chance to make some top and root growth, and don't graze it too early or too hard in the spring, advise agronomists of Penn State College. He cautions also against delaying too long in turning on the cows because of the possible waste in good pasture.

Growers are reminded to wash their hands thoroughly after handling tobacco or potatoes.

Pastures Save on Feed

Good pastures can save up to 15 percent on the cost of grain for pigs on full feed, according to extension livestock specialists of the Pennsylvania State College.

Check Corn Planter

Necessary adjustments to corn planters, particularly those which determine accurate spacing and uniform number of kernels per hill, should be made in advance of the planting season, remind extension

agricultural engineers of the Pennsylvania State College.

Handle Plants Carefully

Because mosaic, a virus disease which can cause serious damage to tomatoes, can be spread to tomato plants from tobacco, or potatoes, Avoid Late Hybrids

Whether for grain or silage, corn hybrids which are too long in season should be avoided since they mature poorly, say Penn State extension agronomists.

Prune Shrubs Now

Shrubs pruned at the end of the flowering season develop new wood and buds for next season, say extension ornamental horticulturists at Penn State College.

Ban Cabbage Clubroot

Clubroot, a disease which can cause heavy losses to cabbage growers, can be checked in the seedbed by drenching the seedlings with corrosive sublimate, and by using hydrated lime in gardens.

Spray Despite Frost

Regardless of the condition of fruit buds from late freezes, apple trees need sulphur sprays for protection against scab, declares L. O. Weaver, Penn State extension plant pathologist.

EXECUTOR'S NOTICE

In the matter of the Estate of Joseph Leitz, late of the Township of East Carroll, County of Cambria and State of Pennsylvania, deceased.

Notice is hereby given that Letters Testamentary in the Estate of the above named decedent have been granted to the undersigned. All persons indebted to said estate are requested to make payment, and those having claims or demands against the same will make them known without delay to S. I. Miller, Executor, Carrolltown, Pa.

FRED J. FEES, Attorney for Executor, Ebensburg, Pa. 6-27

PUBLIC SALE

OF VALUABLE REAL ESTATE AND PERSONAL PROPERTY

Notice is hereby given that I, S. I. Miller, Executor of the Last Will and Testament of Joseph Leitz, late of the Township of East Carroll, Cambria County, Pennsylvania, will offer at public sale at the late place of residence of said decedent in said Township, 2 miles East of Carrolltown along the "Old Dutch Road," on SATURDAY, MAY 25, 1946, at 1:00 O'CLOCK P. M. (DST), sharp, the following described personal property:

1 tractor, P 14 on steel; 1 Ford truck, 1 one-quarter ton; 2 horses, weight 1,600 and 1,500; 2 cows, with calves on side; 1 cow, fresh 3 months; 2 hogs, 15 bu. wheat, 300 bu. oats, 10 bu. rye, 20 bu. potatoes, 1 grain drill, 1 sulky plow, 1 wind mill, 1 moving machine, 6 ft.; 1 McCormick grain binder, 7 ft.; 1 elevator potato digger (1 row), 1 McCormick picker potato planter, 1 two-way tractor plow, 1 lime spreader, 1 two-row corn planter, 1 low-wheel wagon, 1 wagon with ladders, 1 wagon with box, 1 pair sleds, 1 manure spreader, 1 hay rake (12 ft.), 1 sulky cultivator, 1 platform scales, 1 Burr chopper, 2 sets work harness, 1 spring tooth harrow (3 sections), 1 spring

tooth harrow (2 sections), 3 iron kettles, 1 copper kettle (50 gal.) with fixtures, 1 copper kettle, 1 lard press, 1 sausage grinder, 1 cream separator, lot of blacksmith tools, bellows, anvil, vise, etc.; Household furnishings, beds, dressers, cupboards, chairs, dishes, bed coverings, comforts, quilts, towels, linens (new & old), canned fruits, dishes, antique furniture, ropes, chains, single trees, double trees, hundreds of articles too numerous to mention.

NOTICE IS HEREBY GIVEN that I will also offer for sale the Joseph Leitz Homestead, situate in said Township and containing 113 acres, more or less; said Homestead has erected thereon a frame dwelling house, large barn, wagon shed, tool house, chicken coop and other outbuildings.

Terms of Sale of Personal Property—CASH at the time personal property is knocked down to the highest bidder.

Terms of Real Estate—10% of the amount bid at the time it is knocked down to the highest and best bidder and the balance of purchase price to be paid in cash upon delivery of a good and sufficient deed.

Executor reserves the right to accept or reject any and all bids on either personal property or real estate.

S. I. MILLER, Executor, Carrolltown Pa., R. D.

FRED J. FEES, Attorney for Executor, Carrolltown, Pa. 5-23

## Complete 3pc. Outfit!

Including Full or Twin Size METAL BED

Inexpensive sleeping accommodations for one or two at surprising low cost! Quality built all metal bed in a rich walnut brown enamel with neat decorations, plus restful equipment that means many hours of comfortable slumber.

\$29.95 up

EASY TERMS

- \* Full or Twin Size All Metal Bed
- \* Resilient Steel Coil Bed Springs
- \* Comfortable Tufted Cotton Mattress

### Wolf Furniture Co. Phone 278. Barnesboro

## Sofa Bed Outfit Special!

ALL 5 PIECES \$69.00

EASY TERMS

Here's an inexpensive way to get around the housing shortage! Make one of your rooms into a combination living-sleeping room. You'd never guess that this handsome sofa opens easily into a restful double bed! Innerspring construction gives it all the comfort of a regular bed. And you get all the extra pieces pictured with it... all at one low price!

- Modern Tapestry Sofa Bed!
- Carved Frame Occasional Rocker!
- Matching Walnut Finish Coffee Table!
- Beautiful Table Lamp!
