

### Patton Factory Deal Is Closed

(Continued from Page 1) been continuously in operation for 73 years. Operating and producing its products under the famous "Van Huesen" trade name, the company manufactures men's shirts, pajamas, sport shirts, collars and neckwear, and even the older folks in our community as well as elsewhere over the nation, can remember the famous "Van Huesen" trade name on the collars and shirts they wore in their youth. According to Mr. S. J. Phillips, the company's president, the concern at the present time, employs 2,500 workers in its factories, five of which are located in Pennsylvania, at Barnesboro, Pottsville, Kane, Coaldale, and Mifflintown. The company also has other plants located in Rhode Island, Alabama and New York States. Main offices of the Phillips-

Jones Co., are located at 1225 Broadway, New York City. Sell Direct to Retailers. Merchandise of the Company is sold direct to retailers only, and the company employs a sales organization of 65 men, with sales offices and depots in New York City, Chicago, Ill., and San Francisco, Cal. Additional offices also are located at Dallas, Texas, Atlanta, Ga., and Boston, Mass. The Phillips-Jones Co. sells more than 4,500 accounts throughout the nation.

**Large Advertisers.** "Van Huesen" men's wear also has the distinction of utilizing the second largest amount of space in the national periodicals and magazines throughout the country. The Phillips-Jones Company is one of the soundest financial concerns of its type in the country, and has an outstanding prestige, and does a total volume of business in excess of \$10,000,000 yearly. Even the most skeptical must agree that Patton is fortunate in having them decide to establish their newest plant in our community.

**To Train Women at Once.** As had been outlined by Senator Haluska at the time the plan to bring this factory to Patton was made some time ago, the Phillips-Jones Co. will in a couple of weeks solicit the applications of women and girls from over the area to seek employment on a training program that will, when the factory opens, enable them to act in floor lady capacities and serve as a nucleus in training others. The second floor room of the Bank Building, over the postoffice, will be equipped with machinery by the company, and in the neighborhood of 60 women and girls will be accepted for this training, with pay, with the company reserving the right to accept those whom it deems best qualified. Representatives of the company will be here about the middle of September for this purpose and due announcement will be made.

**Above-Board Dealing.** One of the outstanding and most pleasing features of all the negotiations with the Phillips-Jones Co. by the Municipal Authority, has been the frank and sincere attitude given by the company's of-

ficials with their representatives. Practically all of the contact work on the part of the Authority has been made by Senator Haluska, and progress was made on each of his frequent trips to New York that brought the fruition of the final agreement last Friday. Other extensive work and time-taking hours have been spent in behalf of the project by George A. Lehman and Frank Young in ironing out voluminous details. The members of the Authority expressed

their appreciation to the company officials Friday, and S. J. Phillips, the company's president, replied to that appreciation, with the policy of the company in maintaining pleasant relations with every community in which they now have plants. He stated that the company has a record of fair-dealing with its employees, is never oppressive, and feels that its interest in its business will also prove its interest in the community of Patton, as its interest has been shown in

all other communities where it employs workers. Of course, on the part of the Municipal Authority, and the citizens of the Patton Community, the job is not at all finished—in fact our end of the deal is now only beginning. There is a lot of money to be raised—but this money is not a donation—it is an investment. Most all readers of this newspaper are aware of the details that will be involved. It is not our purpose in this story to elucidate

upon them. In issues of the near future we'll go into that. But the town of Patton is once again on the forward march. Naturally the coming of the Phillips-Jones plant, will enhance other interests and businesses, will increase property values, and will make our community more prosperous. The town owes a debt of gratitude to the Council who made the Municipal Authority, and to every last member who served on the

Authority and who worked so hard and energetically in bringing this proposition to a successful conclusion in this first and most important stage. To those who were present at the epoch-making contract signing for our community, they could not help but note that the officials of the Phillips-Jones Corporation, were men of the outstanding type—men who make the business prestige of the nation what it is—the best in all the world.

## NOW, MORE THAN EVER BEFORE THE ARMY HAS A GOOD JOB FOR YOU!

### NON-COMMISSIONED GRADES NOW OFFERED TO FORMER ARMY OCCUPATIONAL SPECIALISTS

Good jobs in non-commissioned grades are being offered now by the Regular Army to qualified former servicemen!

Veterans discharged on or after May 12, 1945, who enlist or reenlist for 3 years may be enlisted in the non-commissioned grade for which qualified, provided this grade is not higher than that held at time of discharge, and provided that at least 6 months of former service was in one of 400 designated military occupational specialties in which enlistment is now desired.

Important, interesting jobs are open in hundreds of skills and trades in the Army, with splendid training and educational advantages! These are in addition to free food, housing, clothing, medical and dental care, low-cost insurance.

There's adventure, travel, education, a secure and profitable future in this vital, realistic profession. Get full details at your nearest Army Recruiting Station.

#### Highlights of Regular Army Enlistments

1. Enlistments for 1½, 2 or 3 years. (1-year enlistments permitted for men now in the Army with 6 or more months of service.)
2. Enlistment age from 18 to 34 years inclusive (17 with parents' consent) except for men now in the Army, who may reenlist at any age, and former service men depending on length of service.
3. A reenlistment bonus of \$50 for each year of active service since such bonus was last paid, or since last entry into service, provided reenlistment is within 3 months after last honorable discharge.
4. A furlough for men who reenlist within 20 days. Full details of other furlough privileges can be obtained from Recruiting Officers.
5. Mustering-out pay (based upon length of service) to all men who are discharged to reenlist.
6. Option to retire at half pay for the rest of your life after 20 years' service—increasing to three-quarters pay after 30 years' service. All previous active federal military service counts toward retirement.
7. GI Bill of Rights benefits assured for men who enlist on or before October 5, 1946.
8. Choice of branch of service and overseas theater (of those still open) on 3-year enlistments.

#### NEW PAY SCALE

Starting Base Pay Per Month	MONTHLY RETIREMENT INCOME AFTER:		
	20 Years' Service	30 Years' Service	35 Years' Service

How that hum-m-m-m? That's the dial telephone's only way of saying "Number please" . . . its only way of saying to you: "O.K. to dial." So listen for that hum-m-m-m—please—before you dial. There's trouble ahead if you don't, your call goes astray. You get a wrong number or no number at all. You waste your time by having to dial again. You tie up dial equipment that could be working for others. If there's a delay before the steady hum-m-m-m gets going, we hope you'll understand that the dial mechanisms that put your call through are all in use . . . and that equipment shortages and the greatest volume of telephone calls in our history make this sometimes unavoidable.
