Smoke, Soot, Gas Stunt Pine Trees Acute Injuries Found At Distance of 15 Miles

Studies conducted by the Dept. of Forests and Waters at Harrisburg with relation to the effect of smoke and gas fumes upon trees and other vegetation...

The poisonous property in gas and smoke is due to several substances, the most important of which is sulphur dioxide...

Soot, in addition to the sulphuric acid in the gases, causes injury by accumulating on the leaves, clogs the stomata...

A study of the planted and natural tree and shrub growth in park areas of various cities and surrounding territories showed that the alanthus and sumach are not seriously affected...

The foresters said that various species of oaks such as white pine, and red, are not affected nearly as much by the smoke and gas conditions...

From the studies conducted it is evident that the most resistant conifers are the Austrian pine, arbor vitae, and red cedar.

Coal Production Rises This Year Incomplete car loading reports from railroads, as compiled by the National Coal Assn., show the soft coal production in the U. S. for the week ending Aug. 2 as about 11,540,000 net tons...

Production for the corresponding week last year was 12,310,000 net tons.

Production Jan. 1 through Aug. 2, 1947, was about 354,569,000 net tons while production Jan. 1 to Aug. 3, 1946, was 292,351,000 tons.

It is wiser to form a character than to reform it.

"LAND'S END"

Endorsed Democratic Group Is Pledged On United Front

Pending Primary Battle Is Aired by 'Observer' (From H. G. Andrews' Johnston "Observer")

Who are the contenders in the coming primary who have been accorded Democratic party endorsement? In order to answer this inquiry, once and for all, we hope, The Observer is printing the list...

COUNTY TICKET: District Attorney—Samuel R. DiFrancesco. County Commissioner—Pat Farrell, Thomas A. Owens. Prothonotary—Joseph C. Dolan. Register of Wills—Michael C. Hartnett.

Recorder of Deeds—Clark Powell. Treasurer—Faber V. McCloskey. Clerk of Courts—Joseph C. Weiss. Coroner—Joseph J. Govekar.

In the county all of the candidates named are unopposed except Owens and Farrell, Chervenak and Weiss.

It is understood that all of the endorsed candidates will present a solid primary front.

Among the Democratic endorsed candidates, Joe Weiss is the only one who resigned from the office he now seeks in order to enter the service.

There are those who have recently been contending that the names of some GIs have been unnecessarily stricken from the assessment lists...

As a result of the fact that the registration lists were not revised for a number of years, in order to make certain that no GI was stricken from the lists, the county's voting lists were a mess.

If the commissioners had not revised the lists they could have been compelled to do so by mandamus proceedings.

The problem of cancer calls for continued and intensive scientific research.

Low Loss This Year In Pennsylvania From Forest Fires

Despite the sizzling, fire-hazardous weather, Penn's woods are doing all right—thanks to careful Pennsylvanians.

The carefulness is paying off with the commonwealth's best forest fire record in recent history, says chief warden Horace D. Rowland.

He disclosed today only 15,000 of Pennsylvania's 15,000,000 acres of forest lands were ravaged by fire so far this year, compared with averages of from 20,000 to 100,000 in other years.

"We must thank campers, sportsmen, picknickers and all others who use the woods for being alert against the possibility of accidentally setting fire to our valuable forests," he said.

Here in the local fire district, chief forester Charles E. Zarby of the Gallitzin district said the situation is much the same here.

"It has been a below-average season with few fires since early June," said Zarby. "Figures on the fire losses in the last few months will probably be released this week."

"The losses have amounted to practically nothing, compared to the same period in other years," he continued. Like his boss, however, he stresses the need for continued care on the part of those who use the woods.

Waldens still continue to be busy, however, he said. They have done much work this summer in repairing towers and cabins along with their regular inspections.

Wardens in this district also have been following a state-wide program of painting airway numbers on the roofs of their installations.

Your Health... From the Medical Society of the State and Cambria County Medical Society

From 25 to 40 per cent of all deaths from cancer are due to cancer of the stomach.

More than 40,000 persons in the United States are victims of the insidious disease each year.

Some of the outstanding authorities on gastric cancer have been themselves, victims of cancer of the stomach.

Only six per cent of the patients who have cancer of the stomach are alive five years later.

War Dead Return To Start in October 2 Ships from Europe To Arrive at New York

The first two ships returning American war dead are scheduled to reach the United States in October, and the war department says probably no others will arrive this year.

About 3,500 will be brought home aboard the first vessel, due at San Francisco about Oct. 10th. Another carrying some 6,300, the majority from the Henry Chapelle Cemetery in Belgium, is scheduled to arrive in New York Oct. 25th.

It said relatives will be notified when caskets reach this country, and that it will take about thirty days for caskets to reach their destination from the time they are landed.

Only identified overseas war dead whose families want them returned are brought home.

Gallitzin Firemen Buy New Pumper Specifications Outlined By Company's Members

Gallitzin Volunteer Fire Company has purchased a new closed-in fire truck, built under specifications designed by its members. The cost was approximately \$10,000.

An original design, the truck has specially built compartments for all its equipment, including the section hose and ladders. Each compartment is individually lighted for visibility at night.

The truck has an eight man cab and space to carry ten men in the rear compartment. It has a two-speed axle and a wheel-base of 202 inches.

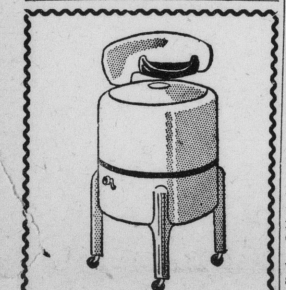

Equipment carried includes two asbestos firemen's suits, two Scott air packs, self-contained breathing apparatus capable of descending 36 feet under water for rescue work, 200-gallon booster tank and a 500-gallon pumper.
