The naton's toll from accidents in 1947, says the National Safety Council was: 100,000 killed, 10,500,000 injured and \$6,700,000,000 economic loss.

Last year's death toll was two per cent more than in 1946, but the council said the most encouraging spot in the accident picture was a four percent decrease in traffic fatalities.

The council said the overall increase was due principally to a sharp raise in public accidents other than motor vehicles—mainly drownings and disaster tolls.

Home accidents caused 33,500 deaths, an increase of 3 per cent over 1946, and compared to 32,000 motor vehicle fatalities. Other accidental deaths included 17,000 occupational (divilian); 19,000 public (civilian, not motor vehicle), and 1,600 military personnel.

# To All Americans

Our brethren across the sea are carrying a heavy burden in their struggle against the evil forces of communism; with poverty staring in their faces, and darkness immediately ahead, there is danger that the hand of Moscow may hurl them into a condition of servitude to the whims and caprices of Russia which aims to overwhelm the Italian people and to enslave them under atheistic communism.

Of Italian Origin

We, who are in America and sense the common bond of blood, cannot stand idly by; we cannot evade nor ignore our own natural duty; we cannot fail to uphold our ideals of freedom and democracy at home and abroad.

To do this, all Americans of Italian origin in the United States must make immediate tangible sacrifices for them, our brethren in Italy. Help must be sent to them; packages of food, clothing and medicinals must continue to flow from us to them, so that they may have the physical strength to oppose communism. Communism thrives on the confusion and chaos caused by the dire need of the people. Our material assistance to the Italian people will give them moral support and renewed hope in their fight to

Do you want Italy to become communistic?

Do you want God dethroned from the altars and the hearts of the Italian people?

Do you want Italy to die?

We know that you do not.

Our thoughts must reach our brethren in Italy; what we think, what we believe, and what we feel we must impart to them in writing now and frequently. Our letters will form the links that will keep the chain of understanding unbroken. Russia will have to break that chain first, before she can engulf the Italian republic.

We beseech all of you, therefore, to write to your friends and relatives to keep the faith, to believe in the future of Italy.

We have faith in Italy.

America has faith in Italy.

The death of Italy as a nation would darken the whole world and we of her blood would betray our American way of life which opposes totalitarianism in all its forms if we did not raise our voice in her defense.

Tell our people in Italy to believe in America, to believe in the sincerity of her human sentiments and in her unselfish friendship. Tell them to fight communism, to save and preserve the immortal Italian traditions of Christianity and civilization for our posterity.

This we ask of you in the name of the Order of Sons of Italy in America, in behalf of our common heritage, in the interest of our people.
