

Electric Auto Speed Control Among Latest New Gadgets

Pinless Diapers Soon To Come on Market

An electric throttle holder will keep your foot on long trips and rest your car at the speed you want. You can equip your home with a small plug-in inverter fan which will change the air in a four or five-room house every two minutes. These are some of the new aids to living reported in a recent issue of McCall's.

Faster Electric Shaves

Los Angeles, Calif., reports that direct current doubles the speed of an electric shaver. Men on war service in submarines found that a small plug-in inverter has been developed which changes household alternating current to direct, giving a smoother, quicker shave.

Electric Throttle Holder

News from Huntington, Ind., is that you can set your automobile at the speed you want it for long trips. It will stay there until you use either the brake or the accelerator, thanks to a new electric throttle holder. In addition to resting your foot, it also saves gas.

Less Painful Injections

According to Cambridge, Mass., news, shots of medicine will be less painful because of a simple device which quickly chills the skin to a near freezing temperature before the hypodermic needle is used. This instrument will be available this year to physicians throughout the country.

Recorded Wedding Services

Cleveland, O., says that your grandchildren may hear your wedding ceremony. Three GT's have started a firm here which does a flourishing business in paper tape recordings, behind the scenes of weddings, church services, even funerals. Several times ministers have recorded their sermons for the benefit of shut-ins in their congregation.

U-Shaped Farm Kitchens

From Beltsville, Md., comes a report that U-shaped farm kitchens save the most steps. Other recommendations from the home specialists (1) bins for fruits and vegetables built above the work counter, rather than below; (2) revolving lazy-Susan shelves for large utensils stored under counters; (3) file racks for trays, lids and other items which can be more conveniently stored upright; and (4) an opening in the work counter through which potato peelings and such can fall into a garbage pail underneath.

Insect-Repellent Paint

News from San Diego, Calif., has it that there's a new insect-repellent paint which can be applied to wet or dry surfaces. It repels wood-boring insects and provides a protective weather coating.

Pinless Diapers Here

Pinless diapers are here. Snap fasteners hook the garments together just as securely and more quickly than safety pins. They're spaced to adjust for baby's fast growth.

Professional Window Washing

You can wash windows like a professional with a hand-sized bottle fitted up to blow a mist on the panes, while you bear down upon a rubber-edged washing blade which is attached.

A Fire Extinguisher no bigger than a flashlight can be hung on your wall for emergencies.

Its contents are harmless to food, clothing and furnishings, but are lethal to flames.

Revolutionary Portable Fan

Springfield, Mass., reports that a new and revolutionary portable fan will completely change the air in a four or five-room house every two minutes. Besides cooling you off on hot summer nights, it can be used to dry laundry indoors and to step up the efficiency of heating units.

From the Medical Society of the State and Cambria County Medical Society

"Afoot and light-hearted I take to the open road." These are the first words of poet Walt Whitman's thrilling "Song of the Open Road." He knew the joy of walking. He felt the glory of freedom in the world when walking. He sensed the beauties and wonders of nature by getting close to them when walking the open road.

Next of Kin of War Dead Will Receive Gold Star Button

The Nation's memorial to World War II dead—the Gold Star Lapel Button—will be ready for distribution after June 1, 1948, to the next of kin of men and women of all the armed services who died for their country at home and abroad.

The authority for this recognition came in public law 308, enacted by the 80th Congress, which sets up an appropriate designation of widows, parents and certain other members of the families of those who died in the service of their country between Dec. 7, 1941, and Aug. 1, 1947, the period established by legislation.

The Gold Star Button consists of a gold star on a purple circular background, bordered in gold and surrounded by gold laurel leaves. On the reverse side is the inscription: "United States of America," Act of Congress, 1947, with space for engraving of the initials of the recipient.

One Gold Star Button is to be furnished, without cost, to the widow or widower and to each of the parents of a member of the armed forces who lost his life while on active duty between Dec. 7, 1941, and Aug. 1, 1947, both dates inclusive. The term "parents" includes mother, father, stepmother, mother through adoption, and stepfather.

Next of kin of deceased Army and Air Force personnel may submit applications to the Adjutant General, United States Army, Washington 25, D. C. Application forms will be available about June 1, 1948, and may be had from any Army or Air Force installation, any nationally recognized veterans' organization, or the adjutant general.

Navy, Coast Guard and Marine applications should go to Chief Bureau of Naval Personnel, Navy Dept., Washington, D. C., and they likewise should be procured from Naval installations or veterans organizations.

Limited token presentations of the Gold Star Buttons will be held throughout the United States on Memorial Day.

Lakemont Making Improvement Plans Plans for the summer program at Lakemont Park in Altoona, including tentative outlines for new buildings, remodeling and enlarging of the seating capacity of the casino, an old home celebration week, and the installation of an electric fountain in the park lagoon are being discussed by the Lakemont Park Citizens' Advisory Council.

The living memorial to World War II veterans would consist of pine trees and other perennials placed in the abandoned area near the park entrance known as the "loop."

Park council members also have been advised that all park mechanical devices have been repaired, painted and improved, and that the swimming pool is being resurfaced and side-walls and a portion of the bottom coated with waterproof enamel to add to its appearance.

BID FOR TYPEWRITERS

The Patton Borough School Board will receive sealed bids for Royal and Remington typewriters. For further information, call or write to Jesse W. Cogley, Jr., Supervising Principal, Patton, Pa.

NOTICE

TO ALL TAXPAYERS, CITIZENS AND RESIDENTS OF THE SCHOOL DISTRICT OF WHITE TOWNSHIP, CAMBRIA COUNTY, PENNSYLVANIA, AND OTHER INTERESTED PERSONS:

NOTICE TO ALL TAXPAYERS, CITIZENS AND RESIDENTS OF ELDER TOWNSHIP, PENNSYLVANIA, AND TO ALL INTERESTED PERSONS:

Notice of Intent to Adopt a Resolution Imposing a Tax by the School District of Elder Township, Pennsylvania, on Coal Mined, Dumped, etc.

Notice is hereby given that the School District of Elder Township, Pennsylvania, acting through the duly elected members of the Board of School Directors, at a meeting held on the 19th day of April, 1948, took action looking towards the adoption of a Resolution imposing a tax under the authority of an Act of Assembly of the Commonwealth of Pennsylvania approved June 25, 1947, being Act No. 481, which resolution will be adopted at a special meeting of the Board of School Directors of the School District of Dean Township, Cambria County, Pennsylvania, to be held on Monday of July, 1948, at 7:00 o'clock P. M. at the Dycart School Building in said Dean Township by the terms of which it will levy, assess and impose the following tax for general revenue purposes to become effective on and after the 12th day of July, 1948, and to continue in effect until the first Monday of July, 1949, as follows:

(a) A tax of Ten (10c) Cents per ton of two thousand (2000) pounds for general revenue purposes upon all coal mined and/or removed from the ground within the limits of the Dean Township School District by what is generally known as the method of "strip-mining."

(b) A tax of Five (5c) Cents per ton of Two Thousand (2000) pounds for general revenue purposes upon all "strip-mined" coal dumped, conveyed, placed or loaded into or onto any railroad car, steel, truck, wagon or conveyance of any kind within the limits of said Dean Township School District, which has not been mined within the borders or limits of said Dean Township School District.

The resolution will also provide for the appointment of a Collector of said Tax, and penalties for its enforcement and penalties in default of the same and other necessary provisions.

looking towards the adoption of a Resolution which will be adopted at a meeting of the said School District to be held on the 24th day of May, 1948, at 8:00 o'clock P. M., at the St. Boniface School Building, by the terms of which it will levy, assess and impose a tax to become effective on or after the 24th day of May, 1948, of five (5c) cents on each net ton of two thousand (2,000) pounds of bituminous coal that has been mined, dumped, conveyed, placed or loaded into or onto any railroad car, steel, truck, wagon or conveyance of any kind within the limits of the said Township of Elder, County of Cambria and Commonwealth of Pennsylvania.

The Resolution will also provide for the appointment of a Collector of said tax, penalties for its enforcement and other necessary provisions.

Any interested party may examine a copy of the Resolution by applying to Joseph Galinis, Secretary of the Board, Hastings, Pennsylvania.

SCHOOL DISTRICT OF ELDER TOWNSHIP: Daniel McGlynn, President of the Board of School Directors.

Here's the A-B-C of Dynaflo Drive*

PUT all these together and they spell Dynaflo—the first American passenger car drive that requires no changing of gears in normal driving. Functioning entirely on their own in an oil-filled drum, these parts give you the equivalent of low gear, second gear, high gear—and an infinite number of "gears" in between. When you start, they give you

smooth starting power. When you want to accelerate, they give accelerating power. When you cruise, they give an efficient cruising ratio—all without gear changing on your part. Just set a lever and press the gas treadle—the power plant does the rest. Once started, you'll never need to touch the selector lever in normal driving until you're ready to park or back up.

You get good engine braking on hills—with more in reserve at a touch on the lever. You get smoothness unimaginable—a new "sweetness" to the whole car—a relief from things-to-remember that makes all-day driving noticeably less tiring. Look into Dynaflo if for no other reason than to be up to date on what's newest in automobile drives. Your Buick dealer will take your order with or without a car to trade.

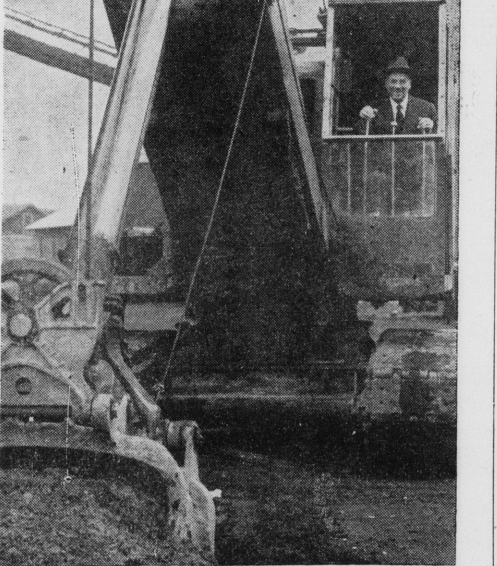

- BUICK alone has all these features: * DYNAFLOW DRIVE (Optional, Roadmaster Series) * TAPER-THRU STYLING (Super and Roadmaster) * VIBRA-SHIELDED RIDE * SAFETY-RIDE RIMS * WIP-POSED FIREBALL POWER * ROAD-RITE BALANCE * RIGID TORQUE-TUBE * QUADRI-FLEX COIL SPRING * SOUND-SORBER TOP LINING (Super and Roadmaster) * DUOMATIC SPARK ADVANCE * FLEX-FIT OIL RINGS * TEN SMART MODELS * BODY BY FISHER

Breaks Ground for New Penelec Plant

D. W. JARDINE, president of the Pennsylvania Electric Co., operates a steam shovel to break ground for a 40,000-kilowatt addition to Seaward, Pa., plant of the company. The new equipment is expected to be in operation sometime during 1950.

At the grocery store I used to meet a quiet, middle-aged lady who was the thriftiest shopper I had ever seen and one day told her so. "I suppose it runs in the family," she said. "My grandmother brought me up on a farm in Vermont, and she would never cut the lettuce on a Sunday until she returned from church."

"Why?" I asked in surprise. "Why?" So the lettuce might grow a little more while Granny was at church!"

There is no finer friend than Jesus. For I have searched along the way And I'll never, never find another Like the Saviour I found today.
