

Hastings

Miss Rose Batkiewicz Weds Bernard Bednar

Miss Rose Batkiewicz, daughter of Mr. and Mrs. Stanley Batkiewicz of Hastings, and Bernard Bednar, son of Mr. and Mrs. Joseph Bednar, also of Hastings, exchanged nuptial vows at 9 a. m. Saturday at St. Bernard's Catholic Church, Hastings. Rev. Father Bruno performed the double-ring ceremony.

The bride was given in marriage by her father. Her sister, Mrs. John Batkiewicz, was matron of honor. Miss Agnes Bednar, sister of the groom, was maid of honor, and bridesmaids were the Misses Florence Bednar, Cecelia Bachleda and Agnes Beltowski. Patricia Batkiewicz, niece of the bride, was ringbearer.

Mr. Stanley Batkiewicz, brother of the bride, was best man. Ushers included Joseph Schall and Paul Bednar of Hastings, and James Riordan and Joseph Stitts of Michigan.

The bride was attired in a gown of white satin with a lace neckline and full skirt that ended in a full train. Her long veil fell from a crown of lace and sequins. She carried a bouquet of white roses. Her attendants wore marquisette gowns in various summer shades with halos to match. They carried bouquets of yellow and red roses.

A reception was held at St. Bernard's Church Hall.

attending the Bednar-Batkiewicz nuptials Saturday were Mr. and Mrs. Walter Kunka Portage, Mr. and Mrs. John Bednar, Union City, Conn.; Mr. and Mrs. Victor Totkolesky, Houtzdale; Mrs. Vincent Schall, and Mrs. Paul Gordon, both of Chicago, Ill.; Paul and Donald Stitts and Don Rubus, all of Detroit, Mich.; John Petrosky and John Petrosky Jr., Lansing, O.; Earl Merriman, Patton; Mr. and Mrs. Joseph Yablansky, Lansing, O.; Mrs. Clair Van Scyoc and Miss Helen Gunther, both of Blandburg.

Chester Rickard of Altoona spent the week end visiting relatives and friends in Hollentown.

Paint Barn Inside

Paint is better than whitewash for the inside of the dairy barn, says C. H. Bingham, extension agricultural engineer of the Pennsylvania State College. Whitewash is cheaper but flakes off and the particles sift down. Paint leaves a surface that can be maintained in good condition and refinished.

Do Not Worry Over Present Dog Days

"Dog days are here—but the State Department of Agriculture says there's nothing to worry about.

The age-old belief that this is the season "when dogs are supposed to be especially liable to go mad" is not borne out in the records of the State Bureau of Animal Industry.

The bureau says its files show that in four of the past five years more cases of rabies in dogs have been recorded in the months of April, May or June than in the "dog days" of July and August.

"Dog days," so named because of the connection of the rising of Sirius, the dog star, with the rising of the sun, cover a period of four to six weeks beginning in the first weeks of July.

As presently planned the survey will cover the probable job requirements of Pennsylvania employers over the next five years, classified according to type of educational preparation needed

Through questionnaires and in personal contacts, an attempt is being made to get the largest possible sampling of forecasts by all types of employers in every area of the State. In addition, a complete survey of all employers is contemplated in several representative communities.

A survey made two years ago by the State Chamber indicated that Pennsylvania's school system is giving predominantly "white collar" or pre-college instruction to 90 per cent of its pupils—whereas about 68 percent of all pupils go into "blue collar" jobs after they leave school.

At that time the recommendation was made, and followed to some extent, that a greater portion of public school expenditures in Pennsylvania be devoted to vocational education.

State Crops Good; But Labor Is High

Harrisburg — State Secretary of Agriculture Miles Horst declared bluntly last week that there "appears to be no end in sight" for rising costs in farm labor, tractors, farm equipment and other goods and services which farmers must buy.

Horst made the comment in connection with the disclosure early in the week that the 1943 corn crop in Pennsylvania will be a whopping 63,190,000 bushels—a fifth largest on record. He declared that the large Pennsylvania corn crop, on top of the biggest national crop in history, "ultimately should bring a change in grain feed prices."

He pointed out however that continuing advances in farm operation costs may more than offset any grain price declines.

"The booming 1943 corn crop is about 5 million bushels ahead of last year and about 9 million above average because of a 5 per cent acreage increase, and yield of 44.5 acres per bushel—about 4 over average."

Mr. Ethel Conley visited her son and daughter-in-law, Mr. and Mrs. Charles Conley of Fallentown, on Friday.

Robert Chaplin injured his shoulder Monday evening.

Lee Gouthner and George Russell, daughter, Verna, and two granddaughters, Mary Jane and Frances, all of New Jersey, visited the Charles Fryer home last Wednesday.

Survey Planned As To Job Prospects In Pennsylvania

An extensive survey of prospective job opportunities in this state's business and industry is scheduled to be undertaken in the near future by the State Chamber of Commerce.

A spokesman for the State organization said the survey is being made to serve as a guide to the Legislature's Joint State Government Commission "in charting long-range, educational needs of the state."

As presently planned the survey will cover the probable job requirements of Pennsylvania employers over the next five years, classified according to type of educational preparation needed

Through questionnaires and in personal contacts, an attempt is being made to get the largest possible sampling of forecasts by all types of employers in every area of the State. In addition, a complete survey of all employers is contemplated in several representative communities.
