"YOU HARDLY KNOW THE ROAD IS THERE!"
Add Fireball power to all this—the roominess of wide, deep seats—the lightness of Buick controls and the liquid silkiness of Dynaflow Drive—and you have a car just too good to miss.
Come try one, won't you? Your Buick dealer will be delighted to demonstrate without obligation—delighted to show you that if you can afford a new car, you probably can afford a Buick.
YOU won't be the first to say that—not by a long shot.
One of the first things you notice, when you step from another make of car into Buick, is the wonderful difference in the Buick ride.
There are good technical reasons, if they interest you . . .
Soft coil springs all around, the gentlest type of spring man knows how to make.
A stout torque-tube, acting like the husky keel of a battleship to steady the whole carriage.
Low-pressure tires on wide, Safety-Ride rims, that stop heel-over and sway on curves.
Firm, sure, quick-acting shock absorbers, promptly snubbing the after-bounce of the bigger bumps.
The important thing is what these all add up to.
Freedom at last from jounce and jiggle.
A level, floating, road-free passage over almost any kind of road, with even the worst of them tamed and gentled as never before.
