a list of dates and places where you can register to vote at the honor. Miss Haas gown was of Stolz, during the past week. November 7 election if you are not now registered. The County county, and that means no one will have to go very far from their brothers best man Richard Haas week at Presque Isle, on Lake residence to register. Regardless of where you live in the county, you and Regis Farabaugh were ushcan register at the point most convenient for you.

It will be noted that there will be a registration sitting in Patton on two different days. All of the field registrations will take place in the county during the second week of September, and on the Saturday of that particular week, Sept. 16, the last day to legally register for the November election will be at hand. It is the duty of all citizens to vote. Don't have yourself in the position of not being able to do that. It will be an easy matter to qualify.

We Like This Thought

One day last week we picked up a hitch-hiker at a point midway between Ebensburg and Carrolltown not a bad looking chap and rather neatly dressed. He wasn't in our car very long until we began to question some of his conversation thoughts, and lo and behold, we were rather well convinced that we had as our guest one of those "fellow travelers" of Mr Stalin that we have been reading ett's sister, and brother-in-so much about. The chap claimed that he lived over between the chapter son of Mr. Barnesboro and Cherry Tree.

As his talk went along we became indignant, and by the time we had reached Carrolltown we had invited him to get out of the car. He then began to take "back water" and said that we had misunderstood his thoughts and that he was a good American citizen, etc. But it isn't hard to spot this insidiworker. Likely this fellow was just a stooge for others. His line of talk had to do only with generalities, mostly on the theory at our soldiers should not fight off the continent. All such folks should be smacked down.

There's a Republican Representative from South Dakota who has called upon the armed forces to draft American communists and fellow travelers and put them to work in closely-guarded labor battalions. Rep. Lovre said that defense regulations now call for rejection for military service of Communist Party members or persons affiliated with communist front organizations. This regulation, Lovre said, could be used by draft dodgers to stay out of service.

"Real communists who are not taken into the armed forces will be free to roam the country," the Congressman said, "and as civilians, at liberty to carry on arty activities. Meanwhile loyal Americans are being called upon for service and sacrifice." He suggests that they be placed in special labor units where they cannot commit acts of sabotage and could not influence loyal troops by their propaganda.

We are an easy-going people in this great free Democracy of Mary Scholtis and also her sis-ours. We tolerate a lot of things that the people living behind the Iron Curtain wouldn't dare voice, for if they did they'd promptly Nanty-Glo. The group motored to and themselves in a concentration camp; or maybe beneath the sod. Treadelphia, W. Va., where they it's fine to give just criticism to government, but when it comes to visited with Mrs. Scholtis' brothpropaganda that has as its objective the complete overthrow of our er, John Bodnar. They also visitwrnment, we shouldn't tolerate it. When you meet up with a ed with Mrs. Scholtis' nephew, chap who starts playing on you along those lines, put him in his George Bodnar in Martins Ferry, place—and fast. He'll bear watching.

Ohio; a niece, Mrs. Ben Hart of

Pennsylvania Leads Nation

Communities in Pennsylvania have to take in money to spend money and parking meters, as a means of raising extra cash, are most popular in this state. Pennsylvania leads every other state in total number of towns using meters-242 of them. Ohio has only 137 towns with meters. In the entire country 2,240 municipalities use meters and 1,880 of these are under 25,000 population. Those pennies and nickles certainly count up where metering is in operation

Patten had some complains confronting it, mainly by local apposition, before meters were finally installed. However, now that they've been in operation for quite some time, and regulations are such that they do not create a bad taste with visiting motorists, all in all we believe the meters, instead of being detrimental to our community, really are just the opposite.

Hunting A Bit Too Early

There are two types of sportsmen, the sincere and the insincere. Most all men who take an active interest in hunting and fishing and in the conservation and propagation of fish and game are sincere all the way along the line, and without question some of them have been unjustly penalized at times. However, here's one for the book

The deer hunting season was opened much too early in Huntingdon County last week and three residents of Lancaster touring the Black Log Valley were apprehended spotlighting deer. State game protectors lodged all three in jail, charged with spotlighting deer, hunting in a closed season, possessing a loaded rifle in a car, and owning an illegal 30-20 pistol with a 12-inch

The car also contained butchering tools and evidence that a deer was killed was established when deer hair was found in the trunk of the car. It cost two men \$145 each for their hunting. The third, a woman, was released after paying a \$25 fine. None had a hunting license. It will do the true sportsmen's hearts good to know that at least in this case the miscreants were apprehended.

Don't Own A Slot Machine

Uncle Sam is seeking every penny possible through the collection of internal revenue, and he doesn't miss a single thing, or not knowingly at last. The Shamokin Citizen has been waging a campaign against the illegally organized gambling rackets, particularly slot machines, which were used openly in the community. The paper secured a machine, mostly to dramatize how wide open gambling flourished.

The machine was displayed for everybody to see, and was adorned with signs, but folks placed coins in the machine and played for wisnings even though the signs said: "You Always Lose." The continuity was a big success from the newspaper's standpoint, and now the Internal Revenue Department wants to "cash in." A bill for \$100 has been sent to the newspaper. That \$100 is the regular federal charge "for maintaining and operating a gambling device."

Someone has to pay the tax on that machine even in this state, where such machines are illegal. The newspaper will pay even although an appeal has been taken. It's good publicity for the newspaper and it shows Uncle Sam is alert in collecting its department

Universal Military Training

With a White House endorsement expected soon, the heat again will be on to get a Universal Military Training Bill through Congress. As the idea stands now, the plan will be to give about 800,000 18-year-old boys six months of basic training outside the armed forces, then another six months of inactive training.

Cost of the whole program has been established at about \$1,500,000,000 a year. Proponents of Universal Military Training add that this is equal to one week's cost of the last shooting war. Since UMT is presented as a great national defense measure, to speed up mobilization, the argument is that it would be good for a boy, be a good buy, and an actual economy.

The Gallup Poll on UMT showed 72 percent of those questioned favoring it. There were 12 percent opposed and 16 percent with no opinion. This was over a year ago. It is believed the Korean War would up this support percentage if a poll were taken today. Up until now Congress has had no great enthusiasm for UMT. But until recently Congress has never had any enthusiasm for a peacetime draft either. Times have changed.

With the UMT issue again being shoved to the front, it might new have some chance of passing. Service organizations, particularly the American Legion, have long advocated UMT. In fact, every since World War I the Legion has strongly advocated it as an initial defense measure. Churches have pretty generally taken a stand against compulsory military training in
