sons who, in the past, were informed that they were not eligible under the 1946 version of the Social Security Act to receive beneits, may now find that they are eligible under the 1950 Amendments.

The principal changes in regard to eligibility are two in number. First, the 65 year old (or older) wage earner who was not fully insured at the time he filed his application (because he did not have a sufficient number of quarters in which he had been paid \$50.00) and second, the sur-vivors of veterans of World War II who died in service or who died more than three years after they were discharged. (In 1946 Congress provided for those who died within three years after their

discharge.)
Under the Amendments of 1950, the two situations just recited here are provided as follows:

1. All wage earners, 65 or over now, who have at least six (6) quarters of coverage now become eligible at once under the "new start" provisions of the Amend-

2. Each veteran is credited with \$160.00 of monthly income for each month he was in service during World War II. Since the new provisions for eligibility are retroactive to the beginning of World War II, some widows, minor children or dependent parents may now be eligible for monthly payments, who were formerly in-formed they were not eligible because the wage earner had not worked long enough. TF that car of yours has put its best days I behind it, there's no time like right now to think about starting out afresh with a taut, new, up-to-the-minute motorcar with all its mileage still in it.

And there's no better place in the world to start than with the beauty pictured here, for a variety of reasons.

For one thing, this Buick SPECIAL is a quick-stepping Fireball valve-in-head straight-eight that's priced lower than some sixes.

For another, it's built with typical Buick ruggedness through and through-a husky

that can take a lot of years without crying "Uncle!"

Then, too-this high-styled beauty is proving to be one of the most economical Buicks ever built-easy on gas, easy on upkeep, easy on you in its soft, floating, light-handling comfort.

It even comes with Dynaslow Drive " if you like-and Dynaflow means that you will never have to service or replace a friction clutch, and that rear-end or transmission servicing-even engine upkeepare cut to a minimum.

*Standard on ROADMASTER, optional at extra cost on SUPER and SPECIAL models.

Of course, you can't see all of this in the brief span of a trial drive.

But you can experience the good solid feel of Buick strength beneath you. You can satisfy yourself on the lightness of the controls, the utter smoothness of Dynaflow, the quick surge of Buick's Fireball power.

All such things will tell you that this is a car you'll be glad to live with for a long time to come-and you need only to ask your Buick dealer for a demonstration to see precisely what we mean.
