Cambria Assessment Ratios Show Only .37 Percent Gain

Patton, Carrolltown, Hastings Boros, Barr, Susquehanna Twps. Still At Bottom of List

In the period from 1948 to 1950 the market value of real estate in Cambria County has increased by some $13½ million, according to survey figures just released by the State Tax Equalization Board.

However, in contrast with the market value increase, the assessed valuation of county properties, as fixed by local assessors, increased by only about $6½ million.

Market values according to the equalization board, jumped from $362,212,582 in 1948 to $375,872,713 last year. The 1948 report was the first issued by the board and it is now being revised annually.

The change in assessed valuation was from $138,672,830 in 1948 to $145,257,320 last year.

Last year's overall assessment figure was 38.65 percent of the total market value of property in the county. This is only a very slight increase since 1948, when the assessment percentage was 38.28.

Although the market values have no effect on county or local tax rates, the figures are to be used eventually in determining the state's subsidies to school districts. The market values are to be used for the 1951-52 subsidies which are payable during the school year of 1952-53.

The assessment percentages for the different municipalities show a variance of about 25 percent in the portions of county tax paid by property owners in different sections of the county.

The county tax rates, despite an overall millage of 8 mills, range from a low of 23.44 per cent in Daisytown to 52.13 per cent of market value in East Conemaugh, according to the figures of the state.

Among the towns in the lowest percentage brackets are Barnesboro, 24.93; Carrolltown, 24.46; Conemaugh Twp., 26.32; Daisytown, 23.44; Hastings, 27.38; Middle Taylor Twp., 27.96; Richland Twp., 24.94; Scalp Level, 25.83; Patton, 26.69, and Susquehanna Twp., 27.45.

Those paying the greatest percentages of county taxes as related to the actual market value of their properties are Chest Twp., 42.30; East Conemaugh, 52.13; Franklin, 42.56; Gallitzin, 47.87; Johnstown, 47.45; South Fork, 47.85; Tunnelhill, 42.09; Vintondale, 47.25, and West Carroll Twp., 46.07.

The market values, assessed value and assessment percentages, by districts, are shown for North Cambria as follows:

	Market Value	Assessed Valuation	Percentage
Ashville Boro	$ 239,968	$ 31,230	23.65
Barnesboro Boro	4,396,262	1,095,800	24.93

Remote Control Camera Developed

A new 35-millimeter camera that can be operated by remote control by the pilot of an airplane has been developed for the U. S. Air Force.

The camera is designed to be installed in the nose of a plane with an electric motor drive and an external film magazine which can be removed and replaced with another in 10 to 15 seconds. It can operate at the temperature extremes of a tropical runway or the sub-zero cold of 40,000-foot altitude, the manufacturer, Bell and Howell said.

It will be used to record air strikes against an enemy and also enemy positions to aid intelligence officers in working out tactical operations.

—Always look for quality rather than quanity.

HASTINGS

By JO MARTUCCI
Phone Hastings 6723

Mr. and Mrs. Joseph Staudinger of Patterson, N. J., visited at the Richard Nagle home last week.
