Consider Coal Basic Industry Urges Sterling Coal Official

Proposes Promotion

essmen's Assn.

He proposed a promotion built dict closed down. Mines at Greenaround the coal industry for the No. 9 mine at St. Benedict closed down. Mines at Greenwich and Kimport have been shut down that could have kept working with some help. And yet you work on his proposal. In his address Mr. Keenan told

Bare you offered to help the industry?

"A few years ago while I was a state mine inspector I closed the Delta No. 2 mine of the Dun-

an escapeway employing between 60 and 80 men, the McCormick Coal Co., operating the Delta No. Look to mining as the the foremost industry in this area.
Such was the essence of a talk given recently by Dennis Keenan, veteran state mine inspector and now superintendent of Sterling Coal Co., before the Barnesboro

"The No. 9 mine at St. Bene-

"You do not give any consider-ation to the basic industry of the "I am here tonight to sell cooperation. The bituminous coal
industry is one of the most neglicited in the nation. What have
you done for the coal industry?

ation to the basic industry of the
United States -coal. Stop coal
production and you stop the steel
industry. Stop the steel industry
and the United States stops."

Mr. Keenan saw a bright fu-

the Delta No. 2 mine of the Dun-can-Spangler Coal Co. because they did not construct an escape-ested in eliminating accidents. way. Did the businessmen approach the company about why great sums of money to have an they were closing the mine? Did explosion destroy its manpower

they ask if there was anything they could do to keep the mine operating? No.

"Instead of having a mine with the Mine Inspectors Institute of

There's meat loaf and there's one c. tomato juice. Continue cooking another 30 minutes. Add wait until the family gets a cooking another 30 minutes. Add the cooking another 30 minutes and carrots. Cook until vegetables are tender, about 30 minutes lorger

There's a big difference . . .

America that the greatest mine hazards are fires and explosions. They take the greatest toll of lives and cause the most damage to equipment.

"Public opinion is aroused and ustifiably so and as a result public opinion may lead to laws unfavorable and impractical to the industry and, not promote safety.

"I have said, and I say again, no number of inspections and inspectors can stop explosions and fires altogether. No mine is any safer than the most careless worker in the mine or official having control over men in the

Speakling of the labor outlook, Keenan said: "With Harry Moses working with John L. Lewis in and Roy Lauffer, Portage R. D. and Roy Lauffer, Portage R. D. fewer labor disputes and work stoppages in the industry in the Moses has demonstrated the members about the national his ability to end disputes." Asking for a black diamond observation in Barnesboro, the mine applications for some 1.200 acres
