NAVY UNVEILS MODEL OF FIRST ATOMIC SUBMARINE

SECRETARY OF THE NAVY Dan Kimball (right) inspects in Washington a model of the first atomic-powered submarine. At left is its designer, Capt. Hyman George Rickover, who is explaining the arrangement of the atomic power plant in the craft. It was revealed that one pound of the submarine's nuclear fuel will generate as much power as 2,600,000 pounds of coal or 350,000 gallons of gasoline. Captain Rickover was given a second Legion of Merit award. (U. S. Navy—Defense Department Photo from International)

NOW you can get **BUICK POWER STEERING!** on the SUPER too!

6-passenger Roadmaster Convertible.

It saves your strength - and it might save your life

CAN you imagine parking a car as easily as you steer it on a straightaway?

You twirl the steering wheel with one hand—turn the front wheels until you get the last inch of advantage from Buick's short "turning radius"—spot the car in a tight spot at the curb—or swing out when the car parked in front of you seems impossibly close.

For this alone a lot of people—women especially—are saying that Buick's Power Steering is the biggest advance since Dynaflow Drive.*

But you're going to find out something more as you pile up the miles.

You're going to feel the same confident and thrilling sense of command you have always

felt in a Buick, because Power Steering only goes into action when extra effort is needed to turn the wheels.

You're going to find that your front wheels track just as they always have—that they automatically swing-back on course, after you've made a turn, when you ease your grip on the steering wheel.

You're also going to find that Power Steering takes over when your front wheels hit loose dirt or sand—road irregularities and chuckholes—and smooths down their jerk or tug on the wheel in your hands.

All this adds to the ease and pleasure of driving. But it adds to the safety, too, because, in the rare event of a blowout, Power Steering helps you keep control. There's no sudden and

violent jerk ever when this helping hand's on the job.

Add to this the level-gaited serenity of Buick's Million Dollar Ride—the "rarin' to go" exuberance of its Fireball 8 Engine—the spread-out room, the luxurious fabrics—the way this great performer can turn up its nose at gas stations—and there's only one smart thing for you to do:

Drop in—or pick up your phone—and arrange to give this marvel a tryout. Even the price says, Better buy Buick now.

Equipment, accessories, trim and models are subject to change without notice. *Standard on Roadmaster, optional at extra cost on other Series. †Now available on Super as well as Roadmaster—optional at extra cost.
